## 1. INTRODUCTION

Thank you for choosing the EMKE Electric Towel Warmer. This manual provides essential information for the safe installation, operation, and maintenance of your new appliance. Please read these instructions carefully before use and retain them for future reference.

This electric towel warmer, model ESFTR1050X5B-DRVC, features efficient carbon fiber heating, smart temperature control, and connectivity options for a comfortable and convenient bathroom experience. It is designed for humid environments with an IPX5 water protection rating.

## 2. SAFETY INSTRUCTIONS

To ensure safe operation and prevent injury or damage, please observe the following safety precautions:

- Read all instructions before installing and using the appliance.
- This appliance is intended for domestic use only. Do not use it for commercial or industrial purposes.
- Ensure the power supply voltage matches the rating label on the appliance.
- Do not operate the towel warmer with a damaged cord or plug. If the cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a hazard.
- Do not immerse the appliance in water or other liquids.
- Keep the appliance away from flammable materials.
- Do not cover the towel warmer with items that obstruct airflow, as this may cause overheating.
- The appliance is rated IPX5, meaning it is protected against low-pressure water jets from any direction. However, avoid direct spraying with high-pressure water.
- Always disconnect the power supply before cleaning or performing any maintenance.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.

### 4. SETUP AND INSTALLATION

---

Installation should be performed by a qualified person in accordance with local electrical codes. Ensure the power is disconnected before starting installation.

1. **Choose Location:** Select a suitable wall location in your bathroom, ensuring it is away from direct water spray and within reach of a power outlet. Consider the dimensions of the unit (500x1000mm) and a recommended wall distance of 110mm for optimal use.
2. **Mark Drilling Points:** Use the provided mounting template or measure carefully to mark the four drilling points on the wall.
3. **Drill Holes:** Drill holes at the marked points using an appropriate drill bit for your wall type. Insert the wall plugs.
4. **Attach Brackets:** Secure the mounting brackets to the wall using the provided screws.
5. **Mount Towel Warmer:** Carefully align the towel warmer with the brackets and secure it in place. Ensure it is firmly attached to the wall.
6. **Connect Power:** Plug the towel warmer into a grounded electrical outlet. No modifications to the existing electrical circuit are typically required for standard installation.

## 6. MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and optimal performance of your towel warmer.

- **Cleaning:** Disconnect the power before cleaning. Wipe the surface with a soft, damp cloth. Do not use abrasive cleaners, solvents, or harsh chemicals, as these may damage the finish. The smooth surface facilitates easy cleaning and reduces dust and limescale buildup.
- **Inspection:** Periodically check the power cord and plug for any signs of damage. If damage is found, contact customer support.
- **Corrosion Resistance:** The towel warmer is made from high-quality structural steel with a corrosion-resistant coating, ensuring durability in humid bathroom environments.

## 7. TROUBLESHOOTING

If you encounter any issues with your EMKE Electric Towel Warmer, please refer to the following common troubleshooting steps:

- **No Power:**

- Check if the power cord is securely plugged into a working electrical outlet.
- Verify if the circuit breaker has tripped.
- Ensure the power button on the unit is pressed.

- **Not Heating:**

- Check if the desired temperature is set correctly and is higher than the ambient temperature.
- Ensure the timer function is not set to 'off' or has expired.

- **Wi-Fi Connection Issues:**

- Ensure your Wi-Fi network is active and within range.

- Restart your router and the towel warmer.
- Follow the pairing instructions in the Tuya Smart app carefully.

- **Unusual Noises/Smells:**

- Immediately turn off and unplug the unit.
- Contact customer support for assistance. Do not attempt to repair it yourself.

If the problem persists after following these steps, please contact EMKE customer support.
