2. PACKAGE CONTENTS

The complete kit includes all necessary components for immediate use:

- Printer Main Unit
- 1 x 42ml Original Black Ink Cartridge
- Precision Stylus
- Power Adapter
- Positioning Board

Image: A visual representation of the Eurannit E12 printer and its included accessories, such as the charging line, ink cartridge, touch pen, rubber band, and positioning plate.

3. SETUP

3.1 Installing the Ink Cartridge

1. Open the cartridge cover.
2. Open the ink cartridge slot back cover.
3. Insert the ink cartridge at a 45-degree angle.
4. Close the ink cartridge slot back cover.

Video: This video demonstrates the process of installing and removing the ink cartridge, including how to open the cover, insert the cartridge, and close the cover. It also shows how to properly store the cartridge when not in use.

3.2 Attaching/Detaching the Handle

The E12 printer features a detachable handle, allowing for quick conversion between full handheld and compact mini modes. This enhances portability for various tasks.

Video: This video illustrates the simple steps to attach and detach the handle from the E12 printer, demonstrating its dual-use portable design.

3.3 Powering On/Off

Press and hold the control button (power button) for a few seconds to turn the printer on or off.

4. OPERATING INSTRUCTIONS

4.1 Creating and Editing Print Content

The E12 printer allows for 360° full-range content printing, including dynamic dates, sequential serial numbers, scannable barcodes/QR codes, and custom logos. Adjustable text fonts/sizes are available with a 0.5-inch max print height and unlimited length capability.

Video: This video demonstrates how to edit various formats on the E12 printer, including text, dates, and other customizable content.

4.2 Printing on Various Surfaces

The printer is engineered for challenging surfaces such as corrugated cardboard, metal components, plastic packaging, wooden pallets, fabric tags, and curved containers (bottles/tubes). Its industrial-grade performance is suitable for manufacturing, logistics, retail labeling, and warehouse inventory management.

Video: This video showcases the E12 printer's versatility across a wide range of materials, demonstrating its ability to print on various surfaces.

Suitable for Most of Common Materials

Image: The Eurannit E12 printer demonstrating its capability to print on diverse materials including wood, carton, pipe, ceramic, stone, metal, egg, plastic, cloth, and foam.

4.3 Using the Positioning Board

The included positioning board can be used to achieve precise and straight prints, especially on flat surfaces or when consistent placement is required.

5. MAINTENANCE

5.1 Ink Cartridge Care

- Always exit the print page before removing or disassembling the cartridge.
- If the ink cartridge is not in use for over 10 minutes, it must be covered with a protective cover to prevent drying.
- As it is a fast-drying cartridge, if a few missing or white lines appear during use, gently wipe the cartridge nozzle with a soft cloth dampened with alcohol.

Image: Step-by-step guide on how to install the ink cartridge and important warm tips for cartridge maintenance, including covering when not in use and cleaning the nozzle.

6. TROUBLESHOOTING

For common issues such as print quality degradation (missing lines, white lines), refer to the ink cartridge care instructions in Section 5.1. Ensure the cartridge is properly installed and covered when not in use.

For further assistance, please refer to the official operation manual or contact Eurannit technical support.
