Silvergear 4623XX

Silvergear Slim 720W Infrared Heating Panel User Manual

Model: 4623XX

Introduction

Thank you for choosing the Silvergear Slim 720W Infrared Heating Panel. This manual provides essential information for the safe and efficient operation of your new heating panel. Please read it thoroughly before installation and use, and keep it for future reference.
This infrared heating panel utilizes carbon crystal technology to provide rapid, uniform, and energy-efficient heat. It can be controlled manually or via the Smart Life App, offering flexible heating solutions for your home.

Important Safety Instructions

- Read all instructions before using this heater.
- Do not use this heater in the immediate vicinity of a bath, shower, or swimming pool.
- Do not use this heater if it has been dropped.
- Do not use if there are visible signs of damage to the heater.
- Keep combustible materials such as furniture, pillows, bedding, papers, clothes, and curtains at least 1 meter (3 feet) from the front of the heater and keep them away from the sides and rear.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons in order to avoid a hazard.

What's in the Box

Image: The image displays the contents of the product box, including the infrared heating panel, two stands, four metallic screws, and the user manual. Dimensions of the panel are shown as 120cm x 60cm x 4.7cm.

- 1x Infrared Heating Panel
- 2x Stands (for freestanding use)
- 4x Metallic Screws (for wall mounting)
- 1x User Manual

Setup and Installation

Freestanding Installation

1. Carefully unpack the heating panel and all accessories.
2. Attach the two provided stands to the bottom of the heating panel using the designated slots. Ensure they are securely fastened.
3. Place the heating panel on a stable, flat surface, ensuring adequate clearance from walls and other objects (at least 1 meter from combustible materials).

Image: A Silvergear infrared heating panel is shown freestanding on a wooden floor in a room, demonstrating its use for instant radiant heat.

Wall-Mounted Installation

1. Choose a suitable wall location, ensuring it is sturdy enough to support the panel's weight and has a power outlet nearby.

2. Mark the positions for drilling holes using the panel's mounting points as a guide.
3. Drill the holes and insert appropriate wall plugs (not included, depending on wall type).
4. Secure the panel to the wall using the provided metallic screws. Ensure it is level and firmly attached.

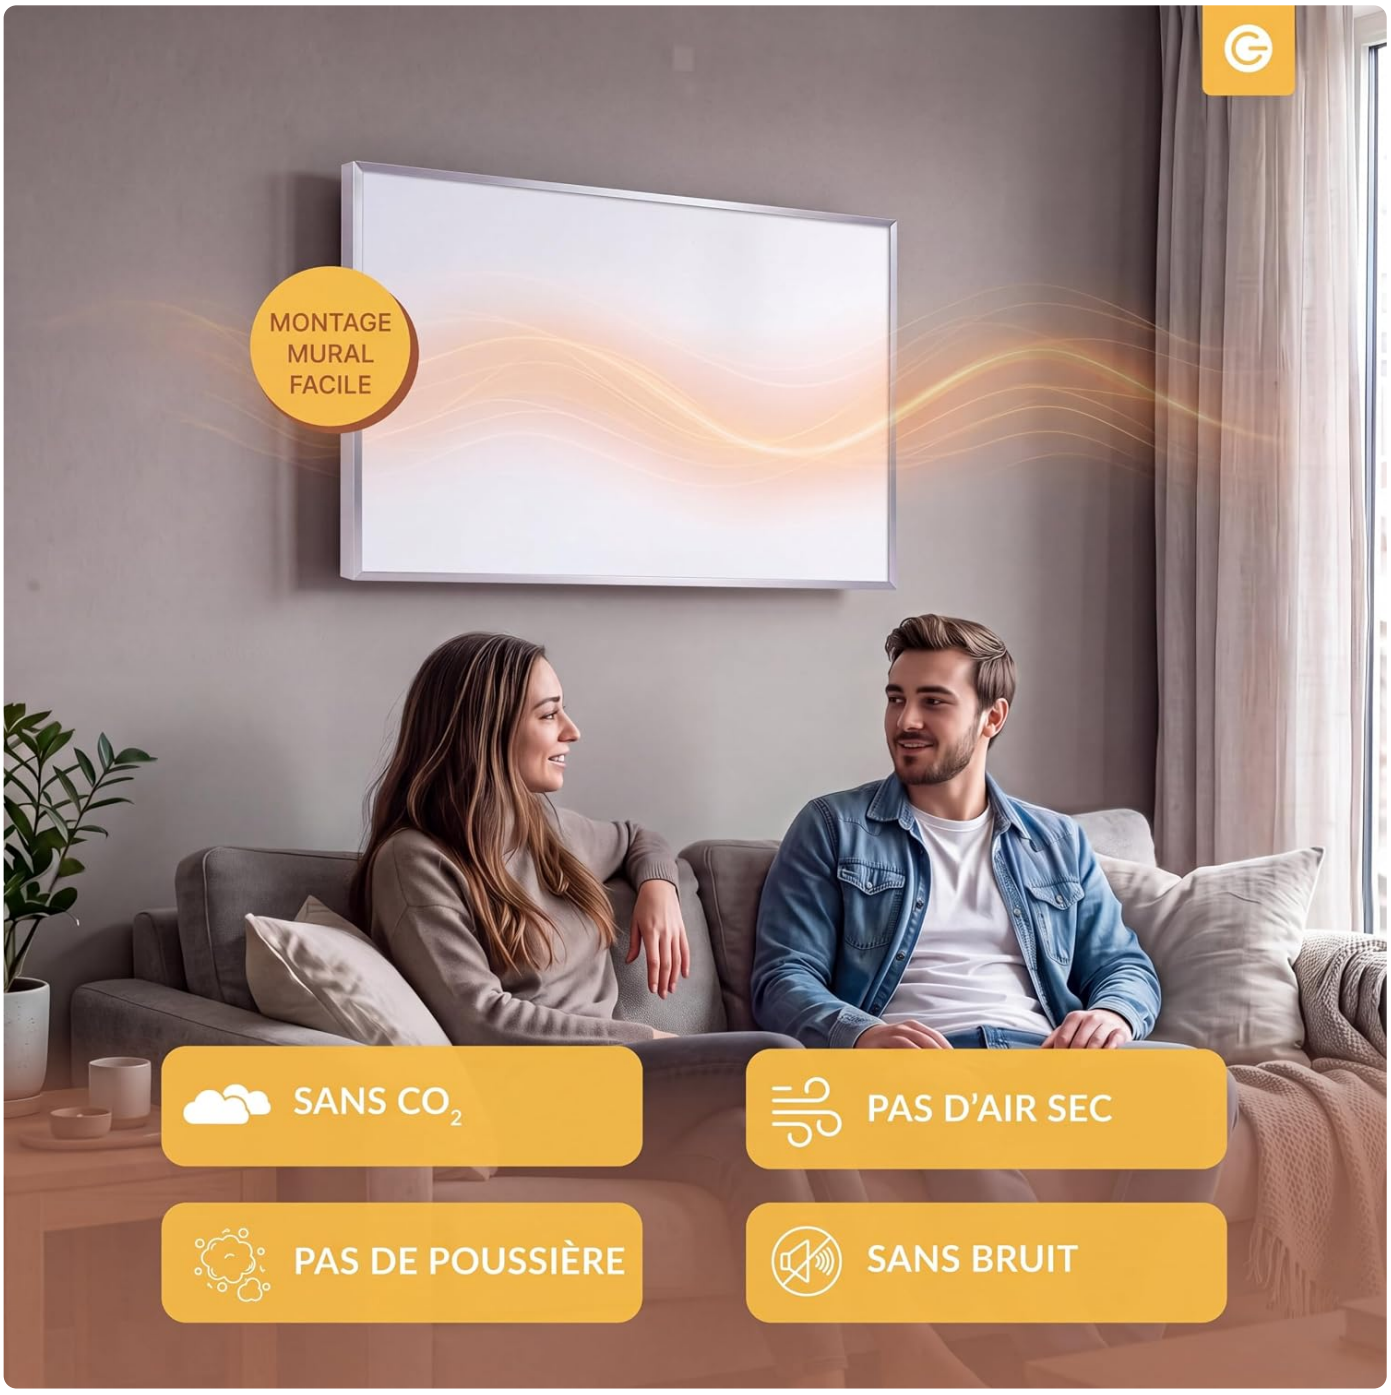

Image: A Silvergear infrared heating panel is shown mounted on a wall above a sofa, illustrating a wall-mounted installation. Text overlays highlight benefits like no CO2, no dry air, no dust, and no noise.

Power Connection

Once installed, plug the power cord into a standard electrical outlet. Ensure the outlet meets the power requirements specified in the 'Specifications' section.

Operating Instructions

Manual Control

The heating panel features integrated buttons for basic operation:

- **Power Button:** Press to turn the heater ON or OFF.
- **Temperature Adjustment:** Use the '+' and '-' buttons to set your desired temperature between 16°C and 37°C.
- **Mode Button:** Cycle through available heating modes (if applicable, refer to specific product interface).

Image: This image shows the Silvergear heating panel with a close-up of its control buttons on the side, and a smartphone displaying the Smart Life app interface for remote temperature control.

Smart Life App Control (WiFi)

For advanced control and smart features, connect your heating panel to the Smart Life App:

1. **Download the App:** Download the "Smart Life" app from your smartphone's app store (iOS or Android).
2. **Register/Log In:** Create an account or log in to your existing Smart Life account.

3. **Add Device:** Follow the in-app instructions to add a new device. Select "Heater" or "Infrared Heater" from the device list.
4. **Connect to WiFi:** Ensure your heating panel is in pairing mode (usually indicated by a blinking WiFi light). Connect your phone to a 2.4GHz WiFi network and enter your WiFi password in the app.
5. **Control:** Once connected, you can control the heating panel remotely, set schedules, adjust temperature, and monitor its status from anywhere.

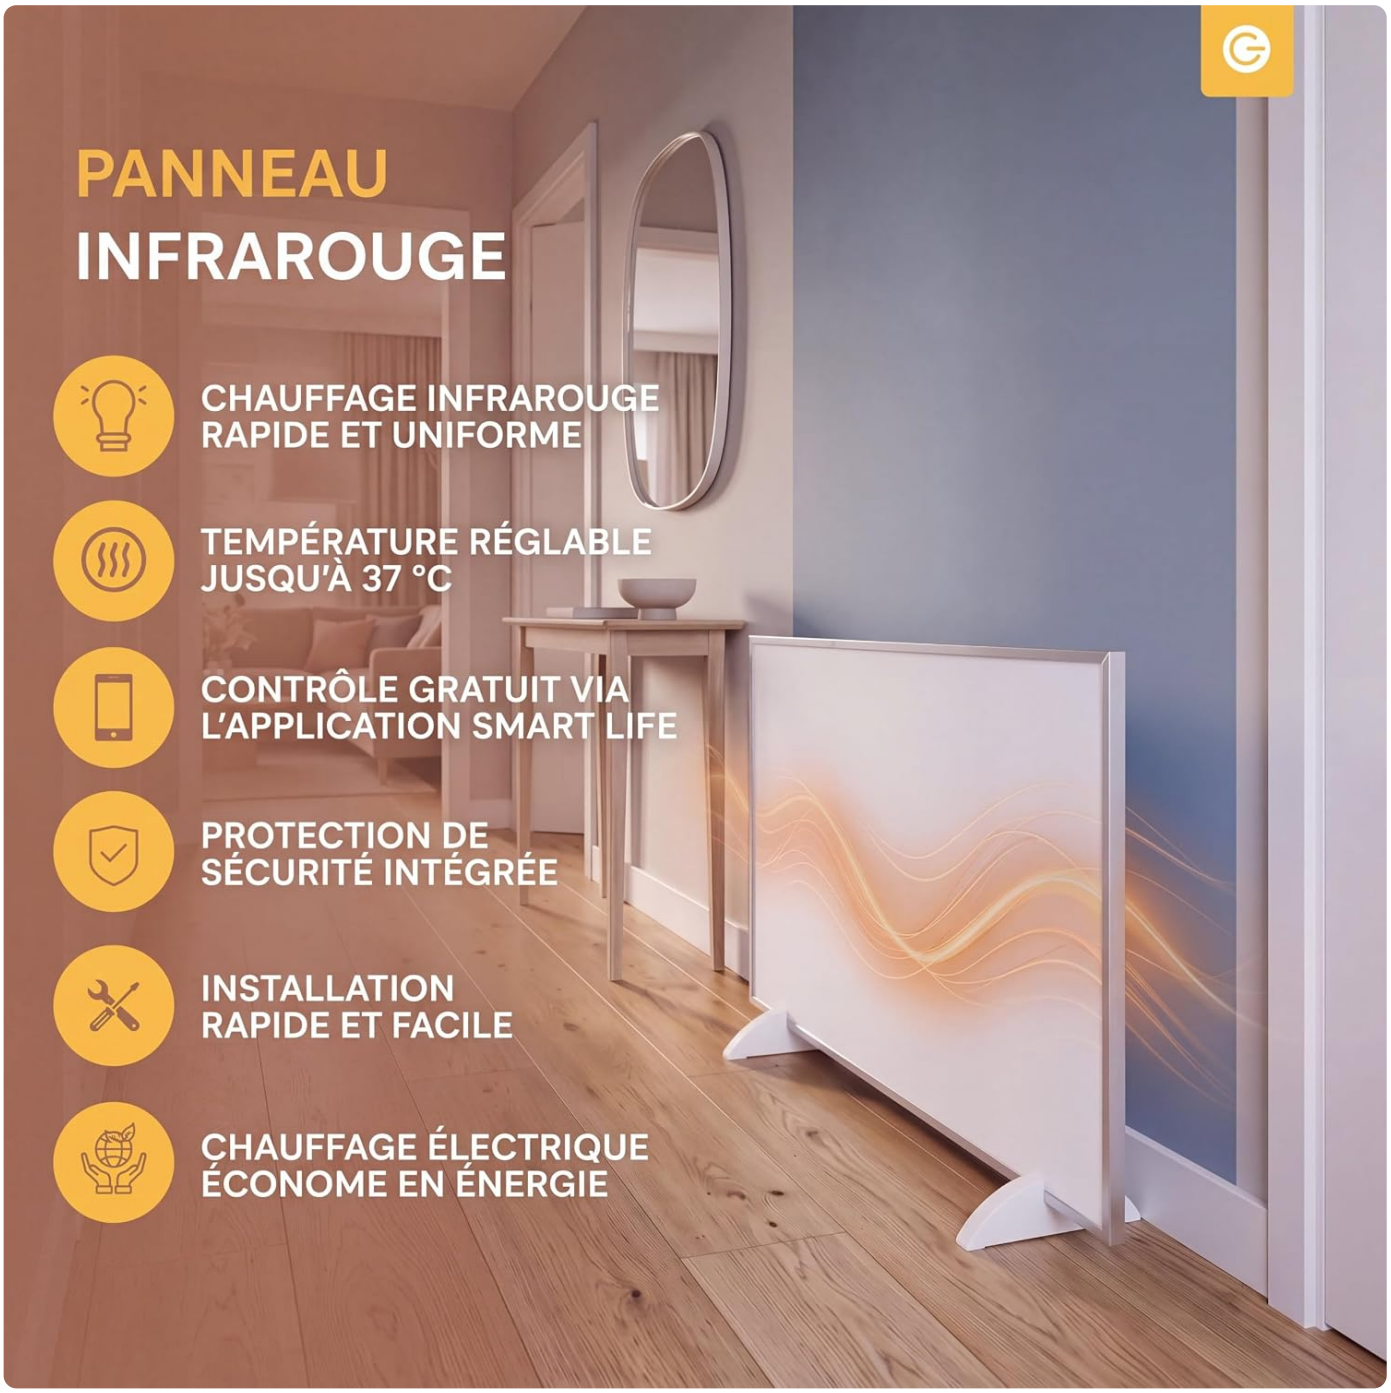

Image: This image highlights key features of the infrared panel, including rapid and uniform heating, adjustable temperature up to 37°C, free control via the Smart Life app, integrated safety protection, quick and easy installation, and energy-saving electric heating.

Maintenance

- **Cleaning:** Always unplug the heater and allow it to cool completely before cleaning. Wipe the exterior with a soft,

damp cloth. Do not use abrasive cleaners or solvents.

- **Storage:** If storing the heater for an extended period, ensure it is clean and dry. Store it in a cool, dry place, preferably in its original packaging.
- **Inspection:** Periodically check the power cord and plug for any signs of damage. If damage is found, do not use the heater and contact customer support.

Troubleshooting

Problem	Possible Cause	Solution
Heater does not turn on.	Not plugged in; power switch off; circuit breaker tripped.	Ensure power cord is securely plugged in. Turn power switch ON. Check your home's circuit breaker.
Heater not producing enough heat.	Temperature setting too low; room too large for heater capacity; drafts.	Increase temperature setting. Ensure the room size is within the recommended range (up to 20m² for 720W model). Close windows/doors to prevent drafts.
Temperature changes on its own.	Interference with Smart Life App; faulty sensor/thermostat.	Check Smart Life App settings for schedules or automations. Reset the heater. If the problem persists, contact customer support.
Smart Life App cannot connect to the heater.	Incorrect WiFi password; 5GHz WiFi network; heater not in pairing mode.	Ensure you are using a 2.4GHz WiFi network. Double-check your WiFi password. Put the heater into pairing mode as per app instructions.

Specifications

Feature	Detail
Brand	Silvergear
