KOPIDOE XSLEEP

Pillow Speaker for Sleeping User Manual

Model: XSLEEP

Brand: KOPIDOE

1. Introduction

Thank you for choosing the KOPIDOE XSLEEP Pillow Speaker. This innovative device is designed to provide a private and comfortable audio experience, ideal for sleeping, relaxation, or listening to audio without disturbing others. Utilizing bone conduction technology, it delivers sound directly to your inner ear through vibrations, ensuring clear audio while minimizing external noise. This manual provides detailed instructions on how to set up, operate, and maintain your pillow speaker.

Figure 1: The KOPIDOE XSLEEP Pillow Speaker designed for private listening, allowing users to enjoy audio without disturbing others. Key features include 20H Playtime, Bluetooth Connectivity, TF Card Music support, White Noise capability, 30/60 Mins Timer, and suitability for Audiobooks.

2. Product Features

- **Dual Usage Modes:** Supports both Bluetooth connection for wireless streaming and TF card playback for offline music.
- **Private Listening:** Bone conduction technology ensures sound is primarily heard by the user, creating a private audio environment.
- **Extended Playtime:** Built-in rechargeable lithium battery provides over 20 hours of continuous playback on a single charge.
- **Automatic Shut-off Timer:** Features a convenient 30 or 60-minute timer for automatic power-off, ideal for sleep.
- **Compact and Portable:** Mini size and lightweight design make it perfect for travel and side sleepers.
- **Bluetooth 5.0:** Ensures stable and clear sound transmission.

Figure 2: The portable design of the KOPIDOE XSLEEP Pillow Speaker, highlighting its compact dimensions and ease of carrying. It offers 20 hours of music, an auto-off timer, Bluetooth connection, small and portable form factor, and TF card music support.

3. Package Contents

Please check the package for the following items:

- KOPIDOE XSLEEP Pillow Speaker
- USB Charging Cable
- User Manual

Note: TF card is not included and must be purchased separately if you wish to use the TF card playback mode.

4. Setup Guide

4.1 Charging the Device

Before first use, fully charge the pillow speaker. Connect the provided USB charging cable to the speaker's charging port and the other end to a USB power adapter (e.g., computer USB port, wall charger). The charging indicator light will illuminate during charging and turn off when fully charged. A full charge takes approximately 2 hours.

4.2 Bluetooth Pairing

1. Ensure the pillow speaker is charged.
2. Long press the power button (usually the center button) for 3 seconds to turn on the speaker. The Bluetooth indicator light will flash, indicating it's in pairing mode.
3. On your smartphone, tablet, or other Bluetooth-enabled device, go to the Bluetooth settings.
4. Search for available devices and select "XSLEEP" from the list.

5. Once connected, the Bluetooth indicator light on the speaker will stop flashing and remain solid. You are now ready to play audio.

Figure 3: Illustration of the two available modes: Bluetooth Mode for wireless connection to a phone, and TF Card Mode for playing music directly from a TF card (not included).

4.3 TF Card Playback

To use the TF card playback mode:

1. Insert a TF card (microSD card) with your desired audio files into the TF card slot on the speaker.
2. The speaker will automatically switch to TF card mode and begin playing audio from the card.
3. If the speaker is already connected via Bluetooth, you may need to disconnect Bluetooth or power cycle the device to prioritize TF card playback.

5. Operating Instructions

5.1 Button Functions

Figure 4: Detailed view of the speaker's control panel and button functionalities for easy operation.

Button/Action	Function
Power Button (Center)	Long press for 3 seconds: Power On/Off Double click: Activate 30/60 minute timer (toggle between 30 mins, 60 mins, and off)
"+" Button	Single click: Next sound/track Long press: Volume Up
"-" Button	Single click: Previous sound/track Long press: Volume Down

5.2 Using the Timer Function

The pillow speaker features an automatic shut-off timer, perfect for falling asleep. To activate:

- Double click the Power Button (center button). The speaker will announce "30 minutes timer activated" or similar.
- Double click again to switch to "60 minutes timer activated".
- Double click a third time to turn the timer off.

The speaker will automatically power off once the set time has elapsed.

5.3 Placement for Optimal Sound

For the best bone conduction experience, place the speaker directly under your pillow, near your head. The sound is designed to be subtle and personal, not loud like a traditional speaker. It is best suited for side sleepers and firm pillows. *Note: Not suitable for latex pillows.*

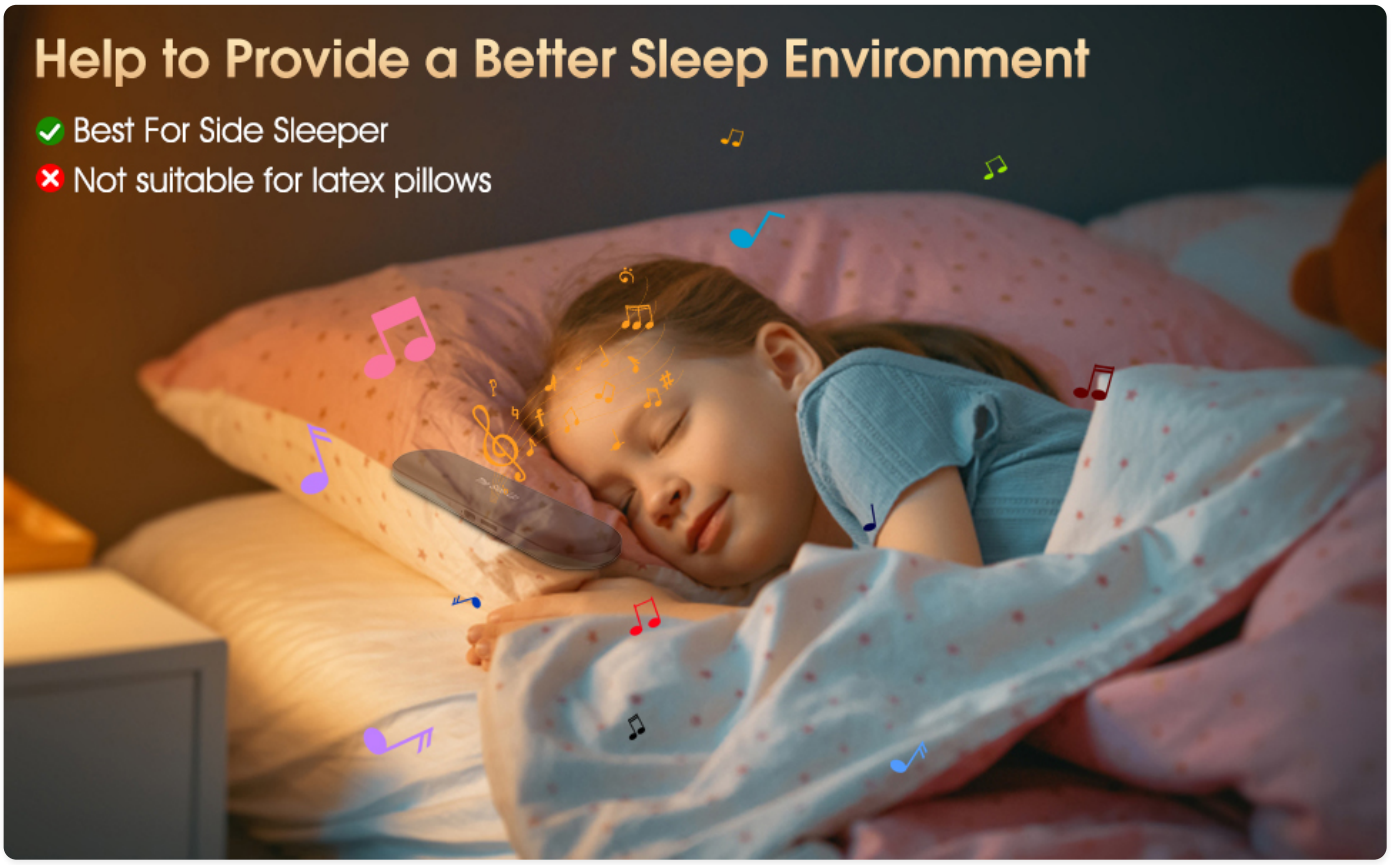

Figure 5: Proper placement of the pillow speaker under a pillow to create a better sleep environment. It is best for side sleepers but not suitable for latex pillows.

Figure 6: Various scenarios demonstrating the use of the portable pillow speaker as a peaceful sleeping companion for different users.

6. Maintenance and Care

- **Cleaning:** Wipe the speaker with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the speaker in a cool, dry place away from direct sunlight and extreme temperatures.
- **Water Resistance:** The speaker is NOT waterproof. Avoid exposure to water or excessive moisture.
- **Battery Care:** To prolong battery life, charge the device regularly, even if not in frequent use. Avoid fully discharging the battery for extended periods.

7. Troubleshooting

Problem	Possible Cause	Solution
No power	Battery is low or dead.	Charge the speaker fully (approx. 2 hours).
Cannot pair via Bluetooth	Speaker not in pairing mode; Bluetooth disabled on device; too far from device.	Ensure speaker is on and indicator is flashing; enable Bluetooth on your device; move speaker closer to your device (within 10 meters).
No sound or low volume	Volume too low on speaker or connected device; speaker not placed correctly; TF card issue.	Increase volume on both speaker and connected device. Adjust speaker position under pillow. Ensure TF card is inserted correctly and contains compatible audio files.
Speaker automatically turns off	Timer function activated; low battery.	Check timer settings (double click power button to cycle). Recharge the speaker.
Sound quality is poor	Improper placement; interference; audio source quality.	Adjust speaker position under pillow. Ensure no strong electromagnetic interference. Try a different audio source.
