KOPIDOE XSLEEP

KOPIDOE XSLEEP Bone Conduction Bluetooth Pillow Speaker User Manual

Model: XSLEEP | Brand: KOPIDOE

1. Product Overview

The KOPIDOE XSLEEP Bone Conduction Bluetooth Pillow Speaker is designed to provide a private and comfortable audio experience, especially for sleeping. It utilizes bone conduction technology to deliver sound directly to your inner ear without disturbing others. This portable sleep bar supports both Bluetooth connectivity and TF card playback, offering versatile usage options. It features a long battery life, a convenient auto-off timer, and is optimized for side sleepers.

2. What's in the Box

- KOPIDOE XSLEEP Pillow Speaker
- Charging Cable (Type-C)

3. Setup Guide

3.1 Charging the Speaker

Before first use, fully charge the speaker. Connect the provided Type-C charging cable to the speaker's charging port and the other end to a USB power adapter (not included). The indicator light will show charging status and turn off when fully charged. A full charge takes approximately 2 hours and provides over 20 hours of playtime.

Figure 2: Speaker controls and ports. This image highlights the volume buttons, power button, indicator light, Type-C charging port, and TF card slot on the speaker.

3.2 Bluetooth Pairing

1. Ensure the speaker is charged and powered on.
2. On your device (smartphone, tablet), enable Bluetooth and search for available devices.
3. Select "XSLEEP" from the list of devices to pair.
4. Once paired, the speaker will indicate a successful connection (e.g., a sound prompt or indicator light change).

Figure 3: Bluetooth Mode and TF Card Mode. This image illustrates how to connect the speaker via Bluetooth to a smartphone and shows the TF card slot for direct music playback.

3.3 TF Card Usage (Optional)

The speaker supports music playback directly from a TF card (MicroSD card, not included). Insert a TF card with your desired audio files into the TF card slot. The speaker will automatically switch to TF card mode if a card is detected and begin playing music.

4. Operating Instructions

4.1 Power On/Off

- To power on: Long press the Power Button for 3 seconds.
- To power off: Long press the Power Button for 3 seconds.

4.2 Volume Control

- Volume Up: Long press the '+' button.
- Volume Down: Long press the '-' button.

4.3 Track Navigation

- Next Track: Single click the '+' button.
- Previous Track: Single click the '-' button.

4.4 Auto-Off Timer Function

The speaker features an auto-off timer to conserve power and ensure uninterrupted sleep. Double click the Power Button to cycle through timer settings:

- First double click: Sets timer for 30 minutes.
- Second double click: Sets timer for 60 minutes.
- Third double click: Disables timer.

Figure 4: Auto-off Sleep Timer. This image shows a person sleeping peacefully with the speaker under their pillow, highlighting the 30/60 minute timer, 20H play time, and Type-C fast charging features.

4.5 Placement for Optimal Sound

For the best bone conduction experience, place the speaker directly under your pillow, positioned near

your head. The sound is designed to be heard clearly by the user without disturbing others nearby.

Figure 5: Promote Sleep, Soothe and Relax. This image collage shows the speaker being used by a baby, child, adult, and elderly person, demonstrating its versatility for different age groups to aid sleep.

5. Maintenance

- **Cleaning:** Wipe the speaker with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the speaker in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the speaker frequently. Charge it regularly, even if not in use for extended periods.

6. Troubleshooting

Problem	Possible Cause	Solution
No Sound	Low battery; Not paired; Volume too low; Incorrect mode.	Charge the speaker; Re-pair with device; Increase volume; Ensure correct mode (Bluetooth/TF Card).

Problem	Possible Cause	Solution
Cannot Pair via Bluetooth	Speaker not in pairing mode; Device Bluetooth off; Too far from device.	Ensure speaker is on and discoverable; Turn device Bluetooth off/on; Move speaker closer to device.
Speaker not charging	Cable issue; Power adapter issue; Charging port damage.	Try a different Type-C cable; Use a different USB power adapter; Contact support if port is damaged.
