2. PRODUCT OVERVIEW AND COMPONENTS

The SelfieShow F01 is a versatile device designed to function as both an extendable selfie stick and a stable phone tripod. It features a detachable wireless remote control for convenient photo and video capture.

2.1 Package Contents:

- Selfie Stick / Tripod Unit
- Detachable Wireless Remote Control
- User Manual (this document)

2.2 Key Features:

- **Extendable Design:** The stick extends up to 26.45 inches (67.2 cm) for wider shots and retracts to a compact 7.28 inches (18.5 cm) for portability.
- **Integrated Tripod:** Fold-out legs at the base convert the stick into a stable tripod stand.
- **360° Rotatable Phone Holder:** Allows for horizontal and vertical phone positioning.
- **225° Adjustable Angle:** Provides flexibility for various shooting angles, including elevated and overhead shots.
- **Detachable Wireless Remote:** Bluetooth-enabled remote for hands-free operation up to 30 feet (10 meters).
- **Wide Compatibility:** Supports smartphones with widths between 2.5-3.7 inches (6.5-9.5 cm) and is compatible with GoPro devices.

Image 2.1: The compact and lightweight design of the SelfieShow F01, highlighting its storage length of 182mm and net weight of 123g.

3. SETUP INSTRUCTIONS

3.1 Unfolding the Device:

1. Gently pull the top phone holder section upwards to extend the stick.
2. For tripod mode, locate the three folded legs at the base of the handle. Spread them outwards until they lock into place, forming a stable tripod base.

3.2 Attaching Your Phone:

1. Extend the phone clip on the holder.
2. Carefully place your smartphone into the clip, ensuring it is securely held by the soft silicone grips. The clip accommodates phones between 2.5 to 3.7 inches (6.5 to 9.5 cm) in width.

3. For GoPro compatibility, remove the phone holder and attach your GoPro using the standard mount screw.

Portable Design

123g / 0.27lb
Net Weight

18.2cm / 7.17in

3.3 Pairing the Wireless Remote Control:

1. Remove the remote control from its slot on the selfie stick handle.

2. Press and hold the camera button on the remote for a few seconds until the indicator light flashes, indicating it is in pairing mode.

3. On your smartphone, go to Bluetooth settings and search for available devices.

4. Select 'Selfie' or a similar name from the list to connect. The indicator light on the remote will stop flashing once successfully paired.

5. Open your phone's camera application. The remote is now ready to use for capturing photos or starting/stopping video recording.

# Widely Compatible

compatible with 2.5-3.7" with all smartphone

For iPhone/Samsung/Android

Compatible with GoPro

**2.5~3.7in
(6.5~9.5cm)**

4. OPERATING INSTRUCTIONS

4.1 Using as a Selfie Stick:

1. Ensure your phone is securely mounted in the holder.

2. Extend the stick to your desired length. The maximum extension is 26.45 inches (67.2 cm).

3. Hold the handle firmly and use the detachable remote to capture photos or videos.

Image 4.1: Users demonstrating the SelfieShow F01 in selfie stick mode for group photos.

4.2 Using as a Tripod Stand:

1. Spread the tripod legs completely on a flat, stable surface.

2. Adjust the extension rod to your preferred height. For maximum stability, keep the rod as short as possible.

3. Position your phone in the holder and use the remote for hands-free capture.

Image 4.2: A user utilizing the SelfieShow F01 in tripod mode for video calls or recording.

4.3 Adjusting Angles:

1. The phone holder can rotate 360° to switch between landscape and portrait orientations.
2. The main arm of the phone holder can be adjusted up to 225° to achieve various elevated or overhead shooting angles.
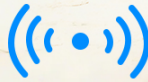

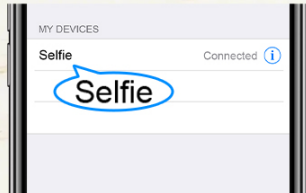

Image 4.3: Diagram illustrating the 360° rotation and 225° angle adjustment capabilities of the phone holder for flexible shooting.

5. MAINTENANCE

- Clean the device with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- Store the selfie stick in a cool, dry place when not in use.
- Ensure the remote control battery is replaced when necessary. The remote uses 1 Lithium Metal battery (included).
- Avoid exposing the device to extreme temperatures or direct sunlight for prolonged periods.

6. TROUBLESHOOTING

6.1 Remote Control Not Connecting:

- Ensure the remote control is charged or has a working battery.
- Press and hold the camera button on the remote for a few seconds to activate pairing mode.
- Check your phone's Bluetooth settings to ensure Bluetooth is enabled and the device is visible.
- If previously paired, try unpairing and re-pairing the remote.

6.2 Tripod Instability:

- Ensure the tripod legs are fully extended and locked into position on a flat, stable surface.
- For heavier phones or uneven surfaces, keep the extension rod as short as possible to lower the center of gravity and improve stability.
- Avoid extending the stick to its maximum length when using it as a tripod, especially with heavier devices, as this can reduce stability.

6.3 Phone Not Fitting in Holder:

- Verify your phone's width is within the compatible range of 2.5-3.7 inches (6.5-9.5 cm).
- Remove any bulky phone cases that might prevent a secure fit.

Detachable Clip Design
