Setup Guide

This section details the steps for setting up your SmallRig Mobile Video Cage.

1. Phone Installation (One-Touch Quick Lock)

The cage features a one-touch quick lock design for secure and convenient phone mounting. Ensure your iPhone 16 Pro is clean and free of debris before installation.

1. Open the quick lock mechanism on the cage.
2. Carefully insert your iPhone 16 Pro into the cage, ensuring it aligns correctly with the camera cutout and ports.
3. Close the quick lock mechanism until it securely clicks into place. Verify that the phone is firmly seated and does not wobble.

Only for iPhone 16 Pro

Please Note

In order to save your time, please reconfirm that our product can be adapted to your device before purchasing

2. Swift No-Case Mounting

For optimal heat dissipation and seamless wading performance, the cage supports direct mounting of the iPhone 16 Pro without an additional case. The TPU soft frame provides a snug fit and protection.

Extend the Potential

The T-Mount lens backplate can be replaced by 17mm threaded lens backplate or 67mm magnetic filter adapter

3. T-Mount Lens Backplate Installation

The included T-mount lens backplate allows for the attachment of external lenses. This backplate can be interchanged with other compatible SmallRig lens backplates (sold separately) for broader optical options.

1. Align the T-mount lens backplate with the camera module opening on the cage.
2. Gently press and rotate the backplate until it locks securely into position.
3. To remove, reverse the process by rotating and detaching the backplate.

One-Touch Quick Lock

The quick lock mechanism allows for convenient, secure phone mounting and dismounting preventing accidental unlocking

Please Note

The soft frame width is 75.6mm / 2.97in. When using a third-party phone case with the cage, ensure accurate measurements for compatibility

Maintenance

To ensure the longevity and optimal performance of your SmallRig Mobile Video Cage, follow these maintenance guidelines:

- **Cleaning:** Wipe the cage regularly with a soft, dry cloth to remove dust and fingerprints. For stubborn dirt, use a slightly damp cloth and dry thoroughly. Avoid abrasive cleaners or solvents.
- **Storage:** Store the cage in a cool, dry place away from direct sunlight and extreme temperatures. When not in use, it is recommended to store it in its original packaging or a protective case.

- **Inspection:** Periodically check all screws and connection points to ensure they are secure. Tighten any loose components gently to prevent damage.

Troubleshooting

This section addresses common issues you might encounter with your SmallRig Mobile Video Cage.

- **Phone does not fit securely:**
Ensure you have the correct model (iPhone 16 Pro). Verify that the quick lock mechanism is fully engaged. If using a third-party phone case, ensure its dimensions are compatible with the cage's soft frame width (75.6mm / 2.97in).
- **Accessories are loose on mounting points:**
Check that the 1/4"-20 screws or cold shoe mounts are properly tightened. Ensure the accessory itself is compatible with the mounting type.
- **T-mount lens backplate is not stable:**
Confirm that the backplate is correctly aligned and fully rotated into its locked position.

If you experience issues not covered here, please refer to the Warranty and Support section for further assistance.
