INIU P21

INIU 3-in-1 Portable Charger User Manual

Model: P21

Brand: INIU

INTRODUCTION

The INIU 3-in-1 Portable Charger (Model P21) is a versatile power solution designed for convenience and efficiency. It integrates a 10,000mAh power bank, a 30W foldable AC charger, and a built-in USB-C cable, eliminating the need for multiple charging accessories. This device is ideal for travelers and professionals, offering fast charging capabilities for a wide range of devices including smartphones, tablets, and laptops.

PRODUCT OVERVIEW

The INIU P21 features a compact design with a digital display for battery percentage. It includes a foldable AC plug for direct wall charging, a built-in USB-C cable, a USB-C port, and a USB-A port for simultaneous charging of multiple devices.

SETUP AND INITIAL USE

Charging the Power Bank

The INIU P21 can be recharged in two ways:

- **Via Foldable AC Plug:** Extend the foldable AC plug and insert the charger directly into a wall outlet. The digital display will show the charging progress. The device will automatically recharge itself once connected and can also charge external devices simultaneously.
- **Via USB-C Port:** Connect a USB-C to USB-C cable (not included, unless using the built-in one for pass-through

charging) from a power source to the IN/OUT USB-C port on the charger. The digital display will indicate charging status.

A full recharge from 0% takes approximately 2 hours.

OPERATING INSTRUCTIONS

Charging External Devices

The INIU P21 offers multiple options for charging your devices:

- **Using the Built-in USB-C Cable:** Unclip the integrated USB-C cable and connect it directly to your USB-C compatible device (e.g., iPhone 15/16, Samsung S24, MacBook Air). This cable supports 30W fast charging.
- **Using the USB-C Port:** Connect your device using your own USB-C to USB-C cable to the IN/OUT USB-C port. This port also supports 30W fast charging.
- **Using the USB-A Port:** Connect your device using a standard USB-A cable to the OUT USB-A port.

Simultaneous Charging (Pass-Through Charging)

When the INIU P21 is plugged into a wall outlet, it can charge itself and up to three external devices simultaneously. Devices connected to the charger will be prioritized for charging. Once external devices are fully charged, the power bank will continue to recharge itself.

Charge Devices & Power Bank Together

Even with Just One Outlet

KEY FEATURES

- **3-in-1 Design:** Combines a 10,000mAh power bank, a 30W foldable AC charger, and a built-in USB-C to C cable for ultimate travel convenience.
- **30W Fast Charging:** Delivers rapid charging speeds whether used as a power bank or a wall charger, capable of charging a MacBook Air to 60% in 30 minutes or an iPhone 16 to 80% in 30 minutes.

- **Universal Compatibility:** Supports a wide range of devices including iPhones (15/16 series, SE/12-16 series), iPads (Air/Pro series), MacBooks (Air series), Samsung Galaxy (S23/S24 series), and various earbuds (Galaxy Buds, AirPods Pro).
- **Real-time Temperature Monitoring:** Equipped with Temp°Guard 3.0 technology, monitoring temperature 3,200,000 times/day to protect battery health.
- **Compact and Portable:** Designed for travel, easily fits into small bags or pockets.

SPECIFICATIONS

Feature	Detail
Model Number	P21
Battery Capacity	10000 Milliamp Hours
Product Dimensions	4.3 x 2 x 1.2 inches
Item Weight	8.8 ounces

Special Features	30W PD Fast Charging, Lightweight, Built-in USB C Cable, Travel Essential, Built-in Foldable Wall Plug
Connector Type	Output: USB-C*1 + USB-A*1

MAINTENANCE

- Keep the device away from extreme temperatures, direct sunlight, and liquids.
- Clean the device with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Store in a cool, dry place when not in use for extended periods.
- Avoid dropping or subjecting the device to strong impacts.

TROUBLESHOOTING

Device Not Charging

- Ensure the power bank is properly plugged into a working wall outlet or power source.
- Check if the charging cable (built-in or external) is securely connected to both the power bank and the power source/device.
- Verify that the wall outlet is functional by testing it with another device.

Slow Charging

- Ensure your device supports fast charging and that you are using the appropriate ports (USB-C IN/OUT) and cables.
- If multiple devices are connected, the total output power may be distributed, potentially slowing down individual charging speeds.

Device Not Turning On

- Press the power button on the side of the power bank to activate the display and charging function.
- Ensure the power bank has sufficient charge. Recharge if the battery level is low.
