

HCDZ for Linak HC12BL0101 HC10BL

HCDZ Replacement Remote Control User Manual

For Adjustable Bed Bases (Compatible with Linak HC12BL0101 HC10BL)

INTRODUCTION

This manual provides essential instructions for the setup, operation, and maintenance of your HCDZ Replacement Remote Control. Please read this guide thoroughly before using the remote control to ensure proper functionality and compatibility with your adjustable bed base.

PRODUCT OVERVIEW

The HCDZ Replacement Remote Control is designed to operate specific adjustable bed bases, including those compatible with Linak HC12BL0101 and HC10BL control boxes. It features dedicated buttons for head and foot adjustments, as well as a combined function and a light control.

SETUP

Battery Installation

The remote control requires two (2) AAA batteries for operation. Batteries are not included with the remote control.

1. Carefully open the battery compartment cover on the back of the remote control.
2. Insert two AAA batteries, ensuring correct polarity (+ and -) as indicated inside the compartment.
3. Close the battery compartment cover securely.

Figure 3: Internal view of the remote control, illustrating the location for battery insertion.

Compatibility Check

Before attempting to pair or operate the remote, ensure that your original remote control is identical in appearance to the HCDZ Replacement Remote Control. Additionally, it is recommended to verify the information on your adjustable bed's control box unit to confirm compatibility with Linak HC12BL0101 or HC10BL models.

OPERATING INSTRUCTIONS

Pairing the Remote Control

To connect the HCDZ Replacement Remote Control to your adjustable bed base, follow these steps:

1. Locate the **LEARN** button on your bed's control box. The control box is typically found underneath the bed frame.
2. Simultaneously press and hold the **HEAD UP** button on the remote control and the **LEARN** button on the control box.
3. Continue to hold both buttons until the bed base successfully connects to the remote control. This may be indicated by a light on the control box or a movement from the bed.
4. Release both buttons once the connection is established.

Button Functions

- **HEAD UP/DOWN:** Adjusts the head section of the bed upwards or downwards.
- **FOOT UP/DOWN:** Adjusts the foot section of the bed upwards or downwards.
- **BOTH UP/DOWN:** Adjusts both the head and foot sections simultaneously.
- **LIGHT:** Activates or deactivates any integrated lighting features of the bed base.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the remote control. Avoid using liquid cleaners or abrasive materials.
- **Battery Replacement:** Replace batteries when the remote's response becomes sluggish or stops working. Always replace both batteries at the same time with new AAA batteries.
- **Storage:** Store the remote control in a dry place away from extreme temperatures and direct sunlight.

TROUBLESHOOTING

- **Remote not responding:**
 - Check if the batteries are correctly inserted and have sufficient charge. Replace if necessary.
 - Ensure there are no obstructions between the remote and the bed base's receiver.
- **Pairing failure:**
 - Repeat the pairing process carefully, ensuring both the HEAD UP button and the LEARN button are pressed simultaneously and held until connection.
 - Confirm that your bed base's control box is compatible with this remote model.

SPECIFICATIONS
