glaury J701

glaury GPS Navigator User Manual

Model: J701

Introduction

Thank you for choosing the glaury GPS Navigator. This device is designed to provide reliable and intelligent navigation for various vehicle types, ensuring a smooth and safe journey. This manual will guide you through the setup, operation, and maintenance of your new GPS system.

What's Included

Upon unboxing, please ensure all the following components are present:

- GPS Navigation Unit
- Car Charger
- USB Data Cable
- Suction Cup Mount
- Rear Mount
- User Manual

Setup

Mounting the GPS Unit

Choose a suitable location on your dashboard or windshield that does not obstruct your view of the road. Attach the suction cup mount to the desired surface, ensuring it is clean and dry for optimal adhesion. Secure the GPS unit to the mount using the provided rear mount attachment.

Powering the Device

Connect the car charger to your vehicle's 12V power outlet and then to the GPS unit. For initial setup or data transfer, use the USB data cable to connect the GPS to a computer.

Operating Instructions

Basic Navigation

The GPS Navigator provides intelligent speed camera alerts, audio warnings, and real voice spoken turn-by-turn directions. It displays street names, current speed, remaining distance, and estimated arrival time. To begin, select your destination using postal codes, addresses, coordinates, bookmarks, or points of interest (POI) searches.

Route Options

You can choose from four route options to best suit your travel needs: Fast, Eco-friendly, Shortest, or Easiest. The device will recalculate routes instantly if you deviate from the planned path.

Customizable Vehicle Settings

Optimize routes based on your vehicle's specific dimensions and weight to avoid restricted roads. The system supports 7 vehicle types: car, truck, bus, taxi, emergency vehicle, bicycle, and pedestrian.

FM Transmitter Function

The FM transmitter feature allows the GPS audio to be transmitted to your vehicle's FM radio, providing clear voice guidance through your car's speakers. Note that this is for audio transmission only and does not function as a standard FM radio receiver.

Lifetime Free Map Updates

Your GPS Navigator comes pre-installed with the latest 2025 maps for the United States, Canada, and Mexico. We offer lifetime free map updates to ensure you always have the most current navigation data. For updates or to request European maps (e.g., United Kingdom, Germany, Spain, Italy, France), please contact our support team.

Mounting Type	Dashboard Mount
Touch Screen Type	Capacitive

Feature	Detail
Display Type	Touch Screen
Control Method	Touch
Vehicle Service Type	RV, Car, Truck
Batteries Required	1 12V battery (not included)

Troubleshooting

No Matching Results for Address Search

If the GPS unit displays "No matching results" for an address you know exists, ensure the address is entered correctly, including city and state. Try searching by postal code or a nearby point of interest. Map updates can resolve issues with outdated address data; ensure your maps are up to date.

Difficulty with Setup or Operation

The user manual contains detailed instructions for common issues and operating procedures. Please review it carefully. If you encounter persistent difficulties, refer to the support section for assistance.

Inability to Change Units (Miles to Kilometers)

Access the system settings menu on your GPS unit. Navigate to the 'Units' or 'Measurement' option. From there, you should be able to select your preferred unit of distance (miles or kilometers). If this option is not readily apparent, consult the detailed user manual or contact support for specific instructions for your device's firmware version.

Warranty and Support

For any further assistance, technical support, or inquiries regarding lifetime free map updates, please contact our customer service team. Refer to the contact information provided in the physical user manual or on the product packaging. We are committed to ensuring your satisfaction with the glaury GPS Navigator.
