- Switch Puller
- Spare Switches
- Additional/Accent Keycaps
- 2.4GHz USB Dongle (stored in keyboard)

TFT LCD Screen: Custom Images

The Akko 5098B keyboard and its complete set of accessories, including tools and extra keycaps.

SETUP & CONNECTIVITY

Your Akko 5098B keyboard supports triple-mode connection: USB-C wired, 2.4GHz wireless, and Bluetooth. Select the mode that best suits your needs.

Wired Connection

Connect the provided USB-C cable to the keyboard's port and the other end to your computer. The keyboard will automatically switch to wired mode.

2.4GHz Wireless Connection

Locate the 2.4GHz USB dongle (usually stored in a slot on the back of the keyboard). Insert the dongle into an available USB port on your computer. Switch the keyboard to 2.4GHz mode using the toggle switch located on the top edge of the keyboard.

Bluetooth Connection

Switch the keyboard to Bluetooth mode using the toggle switch on the top edge. On your device (computer, tablet, or smartphone), search for "Akko 5098B" in Bluetooth settings and pair. The keyboard supports multiple Bluetooth profiles.

The Akko 5098B offers versatile connectivity for various devices.

OPERATING INSTRUCTIONS

TFT LCD Screen

The 1.47-inch TFT LCD screen displays essential information such as time, date, battery level, and current connection mode. It can also be customized with GIFs and images via the Akko Cloud Driver software.

- **Navigation:** Use the scroll wheel and Fn key combinations to navigate the screen menu and adjust settings like backlighting, connection modes, and language.
- **Language Setting:** To change the screen language to English, please refer to the video below for detailed steps.

Video demonstrating how to set the TFT LCD screen to English on the Akko 5098B keyboard.

The TFT LCD screen provides quick access to various keyboard settings.

Scroll Wheel Functionality

The scroll wheel on the top right of the keyboard offers convenient control over multimedia functions and screen navigation:

- **Volume Control:** Rotate the wheel to adjust system volume.
- **Media Playback:** Press the wheel to play/pause media.
- **Screen Navigation:** Use the wheel in conjunction with the Fn key to browse through screen menus.

Scroll Wheel

The multi-functional scroll wheel for easy control.

RGB Backlighting

The Akko 5098B features vibrant per-key RGB backlighting and side LED strips. These can be customized to enhance your gaming or typing experience.

- **Customization:** Use the Akko Cloud Driver software to select from various preset lighting modes, adjust colors, brightness, and animation speed. Per-key RGB customization is supported.
- **South-Facing RGB:** The south-facing RGB design ensures maximum light visibility, especially with custom keycaps.

Dynamic RGB backlighting enhances the keyboard's aesthetic appeal.

CUSTOMIZATION (AKKO CLOUD DRIVER)

The Akko Cloud Driver software provides comprehensive customization options for your keyboard. Download it from the official Akko website.

- **Key Remapping:** Reassign functions to any key, including media controls, mouse actions, and complex combinations across up to four programmable layers.
- **Macro Recording:** Create and edit complex macros with precise timing for gaming or productivity tasks.
- **Screen Customization:** Upload custom images and GIFs to the TFT LCD screen for a personalized touch.
- **Lighting Effects:** Choose from various preset lighting modes or create your own custom RGB effects, including per-key customization.
- **Sharing:** Share your custom lighting profiles, animations, and settings with the Akko community, or download creations from other users.

MAINTENANCE

Cleaning

Regularly clean your keyboard to prevent dust and debris buildup, which can affect performance and lifespan.

- Use a soft brush or compressed air to remove loose particles from between keycaps.
- For keycaps, use a damp cloth with mild soap. Ensure keycaps are completely dry before reattaching.
- Avoid using harsh chemicals or abrasive materials.

Storage

When not in use, store the keyboard in a dry, cool place away from direct sunlight and extreme temperatures. Use the provided dust cover to protect it from environmental elements.

Battery Care

To prolong the life of the 8000mAh battery:

- Avoid fully discharging the battery frequently.
- Do not expose the keyboard to extreme heat or cold.
- If storing for an extended period, charge the battery to around 50% before storage.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Keyboard not responding	Low battery, incorrect connection mode, driver issue	Charge keyboard, switch to correct mode (wired/2.4G/BT), reinstall Akko Cloud Driver.
Wireless lag/skipped keystrokes	Interference, low battery, distance from dongle	Ensure dongle is close, charge keyboard, minimize other wireless devices.
RGB lights not working	Software setting, low battery	Check Akko Cloud Driver lighting settings, ensure keyboard is charged.
TFT screen not displaying	Sleep mode, software issue	Tap any key to wake, check Akko Cloud Driver screen settings.
Keys feel inconsistent/rattling	Switch issue, stabilizer issue	Ensure switches are fully seated. If issue persists, contact support.
