Olfjurk PF002S

Olfjurk Automatic Cat Feeder User Manual

Brand: Olfjurk | Model: PF002S

1. INTRODUCTION AND OVERVIEW

The Olfjurk Automatic Cat Feeder is designed to provide a convenient and reliable solution for feeding your pets on a scheduled basis. This 4-liter capacity feeder allows for programmable control of meal times and portion sizes, ensuring your cat or dog receives a balanced and healthy diet even when you are away.

Key features include a time-fixed feeding schedule (1-6 meals per day, 1-15 portions per meal), an anti-clogging design for smooth food distribution, and a dual power supply system for uninterrupted operation. Its fully detachable components make cleaning simple, promoting a hygienic feeding environment for your pet.

2. PRODUCT COMPONENTS

Familiarize yourself with the various parts of your Olfjurk Automatic Cat Feeder:

On-time Feeding When You Go Out

Figure 2.1: Labeled components of the Automatic Cat Feeder.

- **Food Bucket Lid:** Top cover for the food reservoir.
- **Buckle:** Secures the food bucket lid.
- **Desiccant Bag Compartment:** Area under the lid to place the desiccant bag for food freshness.
- **Food Bucket:** The main reservoir for dry pet food (4L capacity).
- **Control Panel:** Digital display and buttons for programming settings.
- **Food Outlet:** Where dispensed food exits the feeder.
- **Food Dish:** Removable bowl for pets to eat from.
- **Base Unit:** Contains the motor, electronics, and battery compartment.

3. SETUP GUIDE

3.1 Unpacking and Assembly

1. Carefully remove all components from the packaging.
2. Place the base unit on a flat, stable surface.
3. Attach the food dish to the front of the base unit. Ensure it clicks securely into place.
4. Place the food bucket onto the base unit, aligning it properly.
5. Insert the desiccant bag into its designated compartment under the food bucket lid to help keep food fresh.
6. Close the food bucket lid securely using the buckle.

Figure 3.1: Assembled feeder ready for use.

3.2 Power Supply

The feeder supports dual power supply options:

- **AC Power:** Connect the included power cable to the feeder and plug it into a wall outlet. (Note: Power adapter is not included).
- **Battery Power:** For backup or portable use, insert 3 x Type D batteries (not included) into the battery compartment located at the bottom of the base unit. This ensures continuous operation during power outages.

Dual Power Supply

Figure 3.2: Dual power supply options.

It is recommended to use both power sources for maximum reliability, especially if you plan to be away for extended periods.

4. OPERATING INSTRUCTIONS

4.1 Filling the Food Bucket

Open the food bucket lid and pour dry pet kibble into the reservoir. The 4L capacity can hold approximately 16 cups of dry food. Ensure the kibble size is between 0.07 to 0.4 inches (3-13mm) for optimal dispensing and to prevent clogging.

Close the lid firmly after filling to maintain food freshness, aided by the desiccant bag.

4.2 Programming Feeding Schedule

The control panel allows you to customize your pet's feeding schedule. While initial setup of the timer may require careful attention, once set, the feeder operates reliably.

Customized Feeding Schedule

Helps pets eat regularly and stay healthy

Up to 6 Meals

Up to 15 Portions
per Meal

Food Capacity

Kibble Size

Figure 4.1: Customized feeding schedule capabilities.

1. **Set Current Time:** Refer to the control panel instructions to set the current time accurately. This is crucial for precise meal delivery.
2. **Program Meal Times:** You can set up to 6 meals per day. Use the control panel buttons to select the desired time for each meal.
3. **Adjust Portion Sizes:** For each meal, you can set 1 to 15 portions. One portion is approximately 6g (1 tbsp). Adjust based on your pet's dietary needs and veterinarian recommendations.
4. **Save Settings:** Ensure all settings are saved according to the control panel's instructions.

The feeder's anti-clogging design, featuring a double rotor and a 40-degree sloped food passage, ensures smooth and consistent food dispensing, minimizing blockages.

Anti-blocking Design

Suitable for dry food under 13mm

Figure 4.2: Anti-clogging design for reliable dispensing.

5. MAINTENANCE AND CLEANING

Regular cleaning of your Olfjurk Automatic Cat Feeder is essential to maintain hygiene and ensure fresh meals for your pet. The fully detachable design makes cleaning hassle-free.

1. **Disassembly:** Remove the food dish, food bucket, and food bucket lid from the base unit.
2. **Cleaning Components:** Wash the food dish, food bucket, and lid with mild soap and water. Rinse thoroughly and allow them to air dry completely before reassembly.
3. **Important Note:** Do not wash the base unit. The base contains electronic components and should only be wiped clean with a dry or slightly damp cloth.
4. **Reassembly:** Once all washable parts are dry, reassemble the feeder by placing the food bucket back onto the base, followed by the food dish, and finally the lid.
5. **Desiccant Bag:** Replace the desiccant bag periodically (e.g., every 1-2 months) to ensure optimal food freshness.

6. TROUBLESHOOTING

If you encounter issues with your Olfjurk Automatic Cat Feeder, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Feeder not dispensing food.	Food bucket empty; kibble size too large; food blockage; power issue.	Refill food bucket. Ensure kibble is within 0.07-0.4 inches (3-13mm). Check for blockages in the food outlet and clear if necessary. Verify power connection or battery charge.

Problem	Possible Cause	Solution
Feeder not turning on.	No power supply; batteries drained or incorrectly inserted.	Ensure power cable is securely plugged in. If using batteries, check battery orientation and replace if drained.
Difficulty setting time/schedule.	Unfamiliarity with control panel; incorrect button sequence.	Refer to the detailed programming instructions in Section 4.2. Practice the steps carefully. If issues persist, reset the device and try again.
Food not staying fresh.	Lid not sealed properly; desiccant bag expired.	Ensure the food bucket lid is securely buckled. Replace the desiccant bag regularly.

7. PRODUCT SPECIFICATIONS

Feature	Detail
Brand	Olfjurk
Model Number	PF002S
Capacity	4 Liters (approx. 16 cups)
Product Dimensions	15 x 15 x 30 cm
Item Weight	1.53 kg
Color	White
Material	Plastic
Power Supply	AC Power (via USB cable, adapter not included) and 3 x Type D Batteries (not included)
Meals per Day	1-6 meals
Portions per Meal	1-15 portions (approx. 6g per portion)
Recommended Kibble Size	0.07 to 0.4 inches (3-13mm)
Special Features	Timed Feeding Schedule, Anti-Clogging Design, Desiccant Bag Included
Target Species	Cat (suitable for all breeds)
Specific Uses	Indoor use, Travel and Portability, Multiple Pets
