Lifemate LM-LT-4P

Lifemate Life Tag Bluetooth Tracker (4-Pack) - Apple Find My Compatible User Manual

Model: LM-LT-4P

1. INTRODUCTION

The Lifemate Life Tag is a Bluetooth tracker designed to help you locate your valuable items using the Apple Find My network. This device integrates seamlessly with your Apple iPhone, iPad, or Mac, allowing you to track keys, luggage, backpacks, and more without needing an additional application. This manual provides detailed instructions for setup, operation, and maintenance of your Lifemate Life Tag.

Life Tag Application

This Life Tag fits most purses, bags, wallet, luggage, and keys.

Image: The Lifemate Life Tag can be attached to various items such as luggage, backpacks, card holders, and keys for easy tracking.

2. SAFETY INFORMATION

- Keep the device and its battery out of reach of children and pets.
- Do not expose the device to extreme temperatures or direct sunlight for extended periods.
- Do not attempt to disassemble, modify, or repair the device yourself. This will void the warranty.
- Dispose of batteries according to local regulations. Do not incinerate batteries.
- Ensure the battery compartment is securely closed after battery replacement to maintain water resistance.

3. PACKAGE CONTENTS

Verify that all items are present in your package:

- 4 x Lifemate Life Tags

- 1 x User Manual
- 4 x Keyrings
- 4 x CR2032 Lithium Cell 3V Batteries (pre-installed or included separately)

Image: The package includes four Lifemate Life Tags, keyrings, CR2032 batteries, and this user manual.

4. SETUP

4.1. Activating Your Life Tag

Your Lifemate Life Tag comes with a CR2032 battery. If the battery is not pre-installed, open the battery compartment (refer to Section 5.1 for instructions) and insert the CR2032 battery with the positive (+) side facing up. Close the compartment securely.

4.2. Pairing with Apple Find My

The Lifemate Life Tag is designed for seamless integration with the Apple Find My network. No separate app download is required.

1. Ensure your iPhone, iPad, or Mac is running the latest iOS/iPadOS/macOS version.
2. Bring the Lifemate Life Tag close to your Apple device.
3. A pop-up notification will appear on your device, prompting you to connect the Life Tag.

4. Follow the on-screen instructions to pair your Life Tag. You will be asked to name your Life Tag (e.g., "Keys," "Wallet," "Backpack").
5. Once paired, your Life Tag will appear in the "Items" tab of the Apple Find My app.

Easy to add to Apple Find My

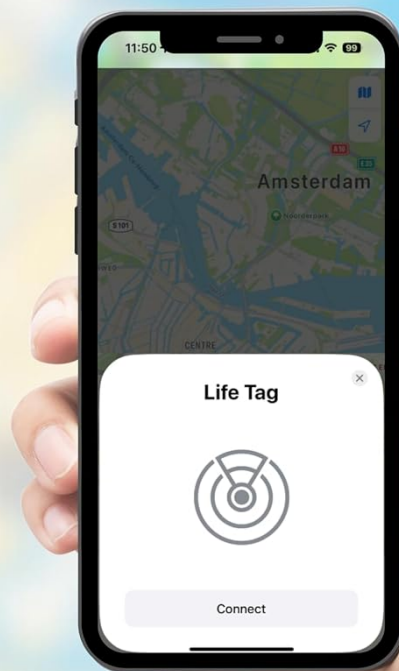

Image: A pop-up on an iPhone screen guides you through the easy connection process to Apple Find My.

5. OPERATING INSTRUCTIONS

5.1. Locating Items on a Map

You can view the current or last known location of your Life Tag on a map within the Apple Find My app.

1. Open the **Find My** app on your Apple device.
2. Tap on the **Items** tab.
3. Select your Lifemate Life Tag from the list.
4. The app will display its location on a map. If the item is nearby, you can use the "Find Nearby" feature for more precise location.

Works with Apple Find My

Locate it on a map in the Apple Find My network

5.2. Playing a Sound to Find Items

If your Life Tag is within Bluetooth range, you can make it play a sound to help you find it.

1. Open the **Find My** app.
2. Go to the **Items** tab and select your Life Tag.
3. Tap **Play Sound**. The Life Tag will emit a series of beeps.
4. Tap **Stop Sound** once you have located your item.
5. You can also use Siri by saying, "Hey Siri, find my [item name]."

"Hey Siri, find my key."

Image: Use the 'Play Sound' feature in the Find My app or ask Siri to make your Life Tag beep, helping you locate it when it's nearby.

5.3. Receiving Disconnection Alerts

The Life Tag can notify you if you leave an item behind.

1. In the **Find My** app, select your Life Tag.
2. Under the **Notifications** section, enable **Notify When Left Behind**.
3. You will receive an alert on your Apple device if your Life Tag moves out of Bluetooth range.

"Keys" left behind

This item is no longer detected near you. It was last seen near home ****

Image: An iPhone displays a 'Keys left behind' notification, alerting you when your Life Tag is no longer detected near your device.

5.4. Using Lost Mode

If your item is truly lost, you can put your Life Tag into Lost Mode.

1. In the **Find My** app, select your Life Tag.
2. Scroll down and tap **Enable** under **Lost Mode**.
3. Follow the prompts to enter a phone number or email address where you can be contacted if someone finds your item.
4. You can also choose to be notified when your item is found.

6. MAINTENANCE

6.1. Battery Replacement

The Lifemate Life Tag uses a replaceable CR2032 lithium coin cell battery, which typically lasts up to 1 year.

1. To replace the battery, locate the small notch on the side of the Life Tag.

- 2. Use a small, flat-head tool (like a coin or a guitar pick) to gently pry open the two halves of the Life Tag.
- 3. Carefully remove the old CR2032 battery.
- 4. Insert a new CR2032 battery with the positive (+) side facing up.
- 5. Align the two halves of the Life Tag and press them firmly together until they click into place, ensuring a secure seal for water resistance.

Image: The Lifemate Life Tag features a replaceable CR2032 battery. A diagram illustrates how to open the device to change the battery.

6.2. Cleaning and Storage

- Clean the Life Tag with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Store the Life Tag in a cool, dry place when not in use for extended periods.

7. TROUBLESHOOTING

Problem	Solution
---------	----------

Problem	Solution
Life Tag not connecting to Apple Find My.	• Ensure Bluetooth is enabled on your Apple device. • Make sure the Life Tag is within close proximity to your device. • Check the battery level of the Life Tag and replace if necessary. • Restart your Apple device.
Cannot hear the sound from the Life Tag.	• Ensure the Life Tag is within Bluetooth range (up to 100 meters). • Check the battery level. A low battery might affect speaker volume. • Ensure there are no obstructions muffling the sound.
Life Tag location is inaccurate or not updating.	• Ensure your Apple device has an active internet connection (Wi-Fi or cellular). • Location accuracy depends on the Apple Find My network coverage. • If the Life Tag is out of range of any Apple device, its location will only update when it comes into contact with another device on the Find My network.
