## OPERATING INSTRUCTIONS: SOFA TO BED CONVERSION

---

The PUREMIND Sleeper Sofa features a smooth-gliding pull-out mechanism for easy conversion between sofa and bed modes.

1. **Clear the Area:** Ensure there is enough space in front of the sofa for the bed to extend fully.
2. **Remove Cushions:** Take off the back cushions from the sofa.
3. **Pull Out Bed Frame:** Grasp the front edge of the sofa base and gently pull it outwards. The bed frame will slide out and unfold.
4. **Extend Mattress:** Unfold the mattress sections to lay flat across the extended frame.
5. **Adjust for Comfort:** Add bedding as desired. The high-density foam foldable mattress provides comfort and support.

To convert back to a sofa, reverse these steps: fold the mattress, push the bed frame back into the sofa base, and replace the cushions.

## MAINTENANCE

Proper care will extend the life and appearance of your PUREMIND sofa bed.

- **Fabric Care:** The sofa bed is made of skin-friendly, breathable linen fabric. For general cleaning, vacuum regularly using a soft brush attachment. For spills, blot immediately with a clean, dry cloth. Do not rub. For stubborn stains, consult a professional upholstery cleaner.
- **Frame Care:** The metal frame is designed for stability and durability. Wipe down the metal components with a damp cloth as needed. Avoid harsh chemicals that may damage the finish.
- **Cushion Care:** The high-density foam cushions can be fluffed regularly to maintain their shape and comfort. The seat cushions may have removable covers for easier cleaning (check specific product details).
- **Mechanism Care:** Periodically check the pull-out mechanism for smooth operation. If it becomes stiff, a small amount of silicone-based lubricant can be applied to moving parts.

## TROUBLESHOOTING

If you encounter any issues with your PUREMIND sofa bed, refer to the following common solutions:

- **Difficulty Converting:** Ensure no objects are obstructing the pull-out mechanism. Check that all frame components are properly aligned and tightened.
- **Squeaking Noises:** Inspect the metal frame for any loose bolts or connections. Tighten as necessary. Lubricate moving parts of the pull-out mechanism if needed.
- **Uneven Seating/Sleeping Surface:** Ensure the mattress is correctly unfolded and positioned on the frame. Check that the sofa bed is placed on a flat, even surface.

If the problem persists, please contact PUREMIND customer support for further assistance.
