7. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your EMKE Electric Towel Warmer.

- **Cleaning:** Disconnect the power before cleaning. Wipe the surface with a soft, damp cloth. Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish.
- **Inspection:** Periodically check the power cord and plug for any signs of damage. Ensure all mounting screws are tight.
- **Storage:** If storing the unit for an extended period, ensure it is clean, dry, and stored in a safe place.

8. TROUBLESHOOTING

If you encounter issues with your towel warmer, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Towel warmer does not turn on.	No power supply; Power cord damaged; Unit malfunction.	Check if the plug is securely inserted and the power outlet is functional. Inspect the power cord for damage. If issues persist, contact customer support.
Unit is not heating.	Temperature set too low; Timer expired; Internal fault.	Increase the set temperature. Check if the timer has run out. If the problem continues, contact customer support.
WiFi connection fails.	Incorrect WiFi password; Router too far; App pairing issue.	Ensure correct WiFi credentials. Move the unit closer to the router or use a WiFi extender. Re-attempt the pairing process in the Tuya app.
Uneven heat distribution.	Towels are too thick or overlapping excessively.	Ensure towels are spread out evenly and not excessively layered to allow for proper heat circulation.

If the problem persists after attempting these solutions, please contact EMKE customer support.
