COZIOWOW CWP0310

COZIOWOW Adjustable Freestanding Wooden Dog Gate (Model CWP0310)

Instruction Manual

1. INTRODUCTION

Thank you for choosing the COZIOWOW Adjustable Freestanding Wooden Dog Gate. This gate is designed to provide a secure barrier for small to medium-sized dogs within your home, suitable for doorways, stairs, and hallways. Its freestanding design eliminates the need for drilling, offering flexibility and ease of use. Please read this manual thoroughly before assembly and operation to ensure proper use and safety.

2. PRODUCT OVERVIEW

Key Features:

- **Freestanding Design:** Features side panels to prevent tipping, creating a secure barrier without drilling.
- **Adjustable Width:** Easily adjusts from 38 to 67 inches to fit various openings like doorways, stairs, and porches.
- **Durable Construction:** Made from sturdy solid wood and reinforced metal mesh for long-lasting use.
- **Lightweight & Portable:** Weighs approximately 11.7 lbs, making it easy to move and store.
- **Easy Assembly:** Designed for straightforward installation with pre-drilled holes.

Image: The dog gate is versatile for use in various indoor locations such as hallways, stairs, and doorways.

Components:

- Wooden Frame Panels (Main sections)
- Metal Mesh Inserts
- Side Support Panels (Feet)
- Adjustable Screws/Knobs
- Connecting Hardware (Screws)

3. SAFETY INFORMATION

- Always ensure the gate is properly assembled and secured before use.
- Regularly check all screws and connections to ensure they are tight.
- Do not use this gate as a child safety gate. It is designed for pets only.
- Position the gate on a flat, stable surface to prevent tipping.
- Supervise your pet, especially when first introducing them to the gate, to ensure they do not attempt to climb over or push through it.
- Keep small children away from the gate to prevent injury.

4. SETUP AND ASSEMBLY INSTRUCTIONS

Assembly is designed to be straightforward. Please follow these steps carefully. A Phillips head screwdriver (not included) may be required.

Step 1: Prepare the Main Panels

Unpack all components and lay them out on a clean, flat surface. Identify the main wooden frame panels and the metal mesh inserts. Insert the metal mesh into the grooves of the wooden frame panels. Ensure they fit snugly.

Image: Illustrates the adjustable screws and pre-drilled holes for securing the gate sections.

Step 2: Attach Side Support Panels

Attach the side support panels (feet) to the ends of the main gate sections. These panels provide stability and prevent the gate from tipping. Secure them using the provided screws into the pre-drilled holes. Ensure they are firmly attached.

Image: A visual representation of the side panel, crucial for the gate's stability.

Step 3: Connect Gate Sections

Connect the assembled gate sections using the adjustable screws. The gate's width can be adjusted by sliding the sections and then tightening the screws into the appropriate pre-drilled holes. This allows for customization to fit various opening sizes.

ADJUSTABLE LENGTH

Easily change the size by moving the screws into other pre-drilled holes.

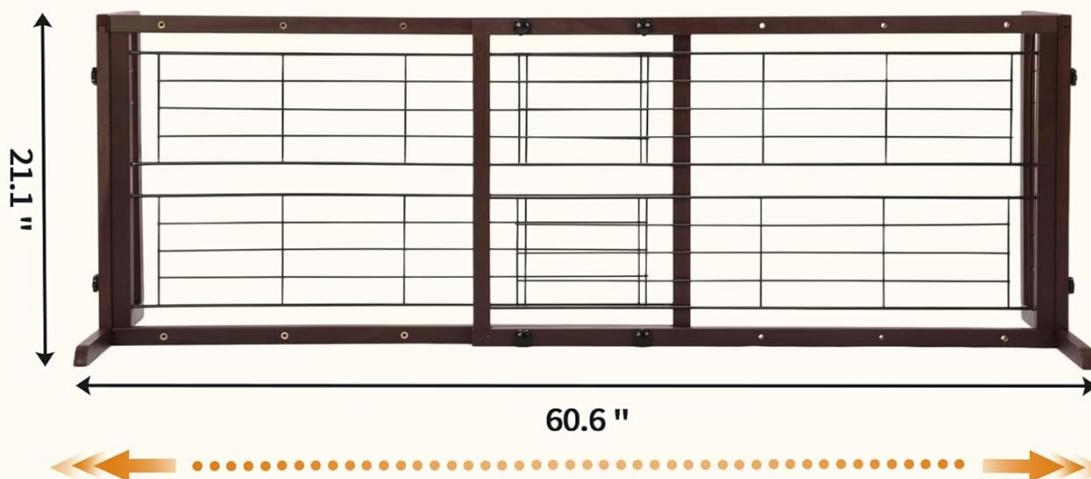

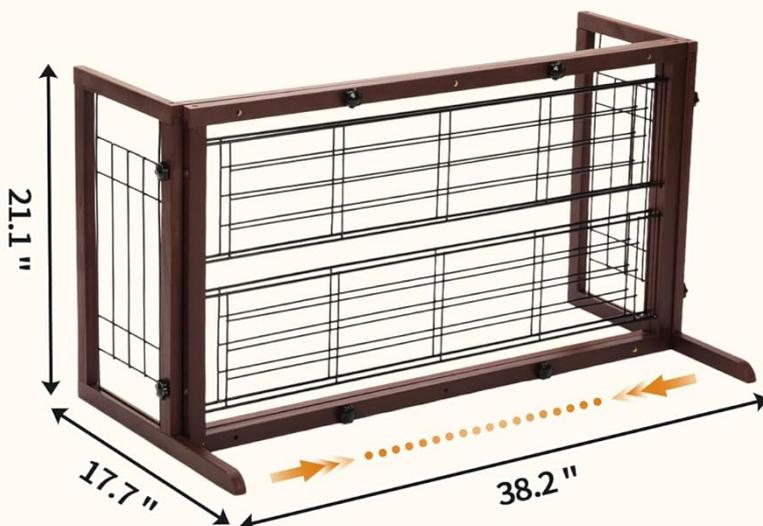

Image: Demonstrates the adjustable length feature and overall dimensions of the gate.

Step 4: Final Tightening

Once the desired width is achieved, ensure all adjustable screws are securely tightened. This will prevent the gate from collapsing or shifting, maintaining a stable barrier for your pet.

5. OPERATING INSTRUCTIONS

Adjusting the Gate Width:

To adjust the width of the gate, loosen the adjustable screws on the top and bottom rails. Slide the gate sections to expand or contract the width to fit your opening. Once the desired width is reached, tighten the screws firmly to secure the gate in place.

Image: Demonstrates the gate's adjustable length and how it can be secured.

Positioning the Gate:

Place the gate in the desired location, such as a doorway or at the bottom of stairs. Ensure the side support panels are fully extended and flat on the floor for maximum stability. The freestanding design allows for easy repositioning as needed.

Image: The gate effectively blocks access to stairs, keeping pets safe.

Storage:

When not in use, the gate can be collapsed to a smaller size by loosening the adjustable screws and sliding the sections together. This makes it convenient for storage in compact spaces.

Image: The gate can be easily folded for convenient storage.

6. MAINTENANCE

- **Cleaning:** Wipe the wooden and metal surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Inspection:** Periodically inspect the gate for any signs of wear, damage, or loose components.
- **Tightening:** Re-tighten all screws and connections as needed to maintain stability and safety.
- **Storage:** Store the gate in a dry place when not in use to prevent moisture damage to the wood.

7. TROUBLESHOOTING

- **Gate is unstable or wobbly:**
 - Ensure all adjustable screws are tightened securely.
 - Verify that the side support panels (feet) are fully extended and resting flat on the floor.
 - Check that the gate is placed on a level surface.
- **Holes do not align during assembly:**
 - Double-check the orientation of the panels according to the assembly steps.
 - Slight adjustments may be needed to align pre-drilled holes. If issues persist, contact customer support.
- **Wood splitting during screw insertion:**
 - Apply gentle, steady pressure when inserting screws into pre-drilled holes.
 - Avoid over-tightening. If splitting occurs, contact customer support for assistance.

8. SPECIFICATIONS

Model Number:	CWP0310
Brand:	COZIOWOW
Material:	Wood, Metal Mesh
Color:	Brown
Adjustable Width:	38 - 67 inches
Product Dimensions:	60.6"W x 21.06"H (fully extended)
