# TECNO SPARK Go 1 User Manual

Model: KL4

### INTRODUCTION

---

This manual provides comprehensive instructions for the TECNO SPARK Go 1 smartphone, model KL4. It covers setup, operation, maintenance, and troubleshooting to ensure optimal performance and user experience. The TECNO SPARK Go 1 features a 128GB ROM, 4GB RAM, a 13MP main camera, 8MP front camera, and a 5000mAh battery, designed for efficient performance and long-lasting use.

## SETUP

---

### 1. Unboxing and Initial Inspection

Carefully remove all components from the packaging. Verify that the following items are present:

- TECNO SPARK Go 1 Smartphone
- Charging Adapter
- USB Type-C Cable

- SIM Ejector Tool
- Quick Start Guide (refer to this manual for detailed instructions)

Inspect the device for any physical damage before proceeding.

## **2. Inserting SIM Card and Memory Card**

Locate the SIM card tray on the side of the device. Use the provided SIM ejector tool to open the tray. Insert your Nano-SIM card(s) and, if applicable, a microSD memory card into the designated slots. Ensure the cards are correctly oriented as indicated on the tray. Gently push the tray back into the device until it clicks into place. The device supports dual SIM functionality and a dedicated memory card slot for expandable storage.

## **3. Initial Charging**

Before first use, it is recommended to fully charge the device. Connect the USB Type-C cable to the phone's charging port and the other end to the charging adapter. Plug the adapter into a power outlet. The device features 15W Type-C fast charging and is equipped with a 5000mAh battery.

## OPERATING INSTRUCTIONS

### 1. Power On/Off

To power on the device, press and hold the Power button until the TECNO logo appears. To power off, press and hold the Power button, then select "Power off" from the options displayed on the screen.

## **2. Navigating the User Interface**

The TECNO SPARK Go 1 runs on Android 14 and features an intuitive user interface. Swipe left or right on the home screen to access different panels. Swipe down from the top of the screen to open the notification panel and quick settings. Use gestures or the navigation bar at the bottom of the screen to go back, home, or view recent apps.

The device boasts an immersive display with enhanced visuals, providing a vibrant and clear viewing experience.

## MAINTENANCE

### 1. Cleaning the Device

Use a soft, lint-free cloth to gently wipe the screen and body of the phone. For stubborn smudges, slightly dampen the cloth with water or a screen cleaner specifically designed for electronics. Avoid using harsh chemicals or abrasive materials, as these can damage the device's finish or screen coating. The device has an IP54 waterproof rating, offering protection against dust and splashing water, but it is not designed for submersion.

## 2. Software Updates

Regularly check for and install software updates to ensure your device has the latest features, security patches, and performance improvements. To check for updates, go to **Settings > System > System update**

## 3. Battery Care

To prolong battery life, avoid exposing the device to extreme temperatures. It is recommended to keep the battery charge between 20% and 80% for optimal longevity. Use only the original charging adapter and cable provided with the device.

## TROUBLESHOOTING

| Problem                   | Possible Cause                                           | Solution                                                                                                                                                    |
|---------------------------|----------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Device does not power on  | Low battery; software crash                              | Charge the device for at least 30 minutes. If unresponsive, perform a force restart by holding the Power button for 10-15 seconds.                          |
| Apps are slow or crashing | Insufficient RAM; too many background apps               | Close unnecessary background applications. Clear app cache ( <b>Settings &gt; Apps &gt; [App Name] &gt; Storage &gt; Clear cache</b> ). Restart the device. |
| Poor signal reception     | Network issue; SIM card not properly inserted            | Check your network coverage. Reinsert the SIM card. Try restarting the device. If issues persist, contact your network provider.                            |
| Battery drains quickly    | High screen brightness; many background apps; faulty app | Reduce screen brightness. Close background apps. Check battery usage in settings to identify power-hungry apps.                                             |
