## XREXS PH-09LCD

# XREXS 14.5-inch Digital Wall Clock PH-09LCD Instruction Manual

Model: PH-09LCD

## INTRODUCTION

Thank you for choosing the XREXS 14.5-inch Digital Wall Clock. This versatile, battery-operated clock features a large LCD display, making it easy to read from a distance. It provides time, date, day of the week, and temperature, along with alarm and timer functions. This manual will guide you through the setup, operation, and maintenance of your new clock.

## SAFETY INFORMATION

- Use only the specified battery type (4 AA batteries).
- Do not mix old and new batteries, or different types of batteries.
- Remove batteries if the clock will not be used for an extended period.
- Keep the device away from extreme temperatures and direct sunlight.
- Do not attempt to disassemble or repair the clock yourself. Contact customer support if issues arise.

## PACKAGE CONTENTS

- XREXS 14.5-inch Digital Wall Clock (PH-09LCD)
- Remote Control
- 4 x AA Batteries (pre-installed, with insulating tape)
- Mounting Template

## PRODUCT OVERVIEW

The XREXS Digital Wall Clock is designed for clear visibility and ease of use, offering multiple display modes and functions.

### Key Features:

- **14.5-inch Large LCD Display:** High-definition, rough characters visible up to 180 degrees.
- **Battery Operated:** Powered by 4 AA batteries (included), allowing flexible placement without cords. Features a low battery indicator.
- **Multi-Functional Display:** Shows time (12/24 hour format), date, month, day of the week, and indoor temperature (°C/°F).
- **Alarm with Snooze:** Set alarms with a 9-minute snooze function. Supports weekday, weekend, or everyday alarm modes.
- **Count-up/Count-down Timer:** Integrated timer for various activities.
- **Auto DST:** Automatically adjusts for Daylight Saving Time.
- **Backlight:** Adjustable backlight (High, Low, Off) with a light sensor for automatic dimming in dark environments.
- **Flexible Placement:** Can be wall-mounted using built-in keyholes or placed on a tabletop using the integrated stand.

## SETUP

### 1. Battery Installation

1. Open the battery compartment cover on the back of the clock.
2. Remove the insulating plastic wrap from the pre-installed 4 AA batteries.
3. Ensure batteries are inserted with correct polarity (+/-).
4. Close the battery compartment cover.

Image: Rear view of the XREXS Digital Wall Clock showing the battery compartment with 4 AA batteries installed and a low battery indicator icon.

## 2. Initial Time and Date Setting

The clock can be set using either the buttons on the back of the unit or the included remote control. The remote control offers more convenient access to all settings.

- **Using Remote Control:**

- a. Press the 'Time Set' button on the remote. The year will start flashing.
- b. Use the '+' or '-' buttons to adjust the year. Press 'Time Set' to confirm and move to the next setting.
- c. Repeat for Month, Date, Hour, and Minute.
- d. To switch between 12/24 hour format, press the '12/24H' button.
- e. To switch between Celsius/Fahrenheit, press the '°C/°F' button.
- f. To enable/disable Auto DST, press the 'Auto DST' button.

- **Using Back Buttons:** Refer to the detailed instructions on the back of the clock for button functions (SET, +/-12/24, -°C/°F).

# EASY TO USE

Image: The XREXS Digital Wall Clock displayed with its remote control and a mounting template, highlighting the ease of setup.

## 3. Placement

- **Tabletop:** Extend the built-in stand on the back of the clock to place it on any flat surface like a desk or shelf.
- **Wall Mount:** Use the provided mounting template to mark the positions for screws on the wall. Insert screws, then hang the clock using the keyholes on its back.

## 2 Placement Methods

Mounting On The Wall

Stand On The Table/Desk

## OPERATING INSTRUCTIONS

### 1. Time and Date Display

The clock continuously displays the current time, day of the week, month, date, and temperature. The temperature and date will alternate on the display.

Image: Close-up of the XREXS Digital Wall Clock display showing time, day of week, month, date, and temperature.

## 2. Alarm Function

- **Setting an Alarm:** Press 'Alarm Set' on the remote. Use '+' or '-' to set the desired alarm time (hour and minute). Press 'Alarm Set' to confirm each step.
- **Alarm Modes:** The clock supports different alarm modes: weekdays, weekends, or everyday. Select your preferred mode during alarm setup.
- **Activating/Deactivating Alarm:** Press 'Alarm On/Off' on the remote to toggle the alarm. An alarm icon will appear/disappear on the display.
- **Snooze Function:** When the alarm sounds, press the 'SNOOZE' button (top red button on remote or button on back) for a 9-minute snooze.
- **Turning Off Alarm:** Press any button other than 'SNOOZE' to turn off the alarm for the day.

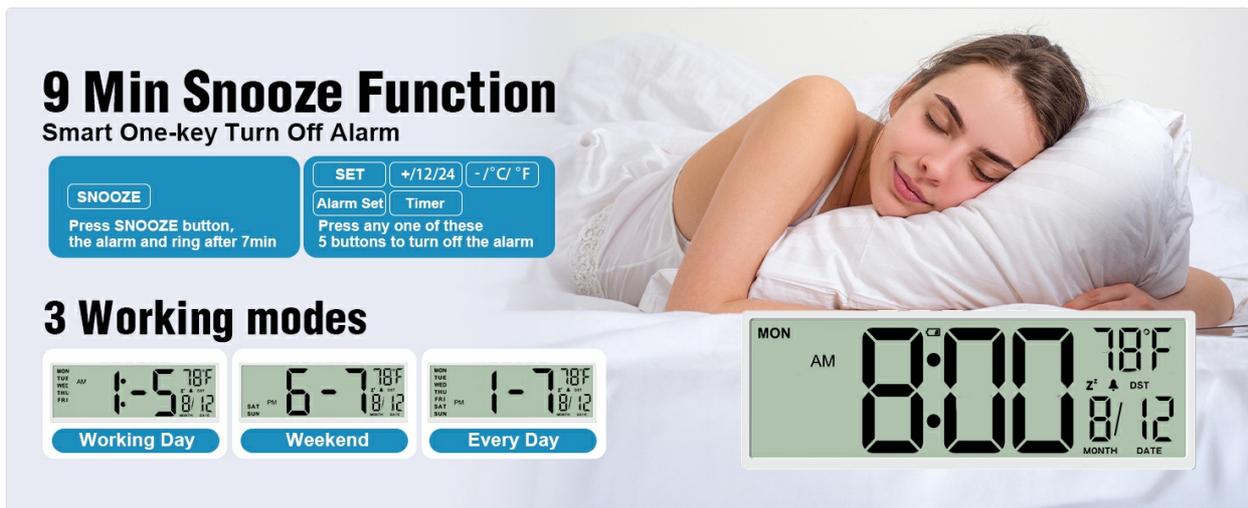

Image: The XREXS Digital Wall Clock displaying the 9-minute snooze function and three working modes for the alarm: Working Day, Weekend, and Every Day.

## 3. Timer Function

- **Entering Timer Mode:** Press the 'Timer' button on the remote. The display will show '00:00:00'.
- **Setting Count-down Timer:** Use 'Hr', 'Min', 'Sec' buttons to set the desired count-down duration. Press 'Timer ST/SP' to start.
- **Count-up Timer:** If no time is set, pressing 'Timer ST/SP' will start a count-up timer from 00:00:00.
- **Start/Stop/Reset:** Use 'Timer ST/SP' to start or pause the timer. Press 'Timer Reset' to clear the timer.
- **Exiting Timer Mode:** Press 'Enter/Exit Timer' to return to clock display.

## 4. Backlight Control

The clock features an intelligent backlight that adjusts based on ambient light conditions. You can manually set the backlight level.

- **Backlight Switch:** On the back of the clock, there is a switch for 'High', 'Low', and 'Off' backlight settings.
- **Light Sensor:** When the backlight is set to 'High' or 'Low', the built-in light sensor will automatically dim the display in dark environments to conserve battery and prevent excessive brightness.

## MAINTENANCE

- **Cleaning:** Wipe the clock surface with a soft, dry cloth. Avoid using abrasive cleaners or solvents.
- **Battery Replacement:** When the low battery indicator appears, replace all 4 AA batteries promptly to ensure continuous operation and prevent data loss.
- **Storage:** If storing the clock for an extended period, remove the batteries to prevent leakage.

## TROUBLESHOOTING

- **Clock not displaying or functioning:**
  - Ensure batteries are correctly installed and the insulating tape has been removed.
  - Replace batteries if they are depleted.
  - Press the reset button (usually a small hole on the back, use a toothpick) to restart the clock.
- **Incorrect time/date:** Re-enter time and date settings as described in the Setup section.
- **Backlight not working in dark:** Check if the backlight switch on the back is set to 'High' or 'Low', not 'Off'. Ensure the light sensor is not obstructed.
