vidaXL Wall Shelf with Drawers - Instruction Manual

Model: 859964

1. INTRODUCTION

Thank you for choosing the vidaXL Wall Shelf with Drawers. This manual provides essential information for the safe assembly, installation, and use of your new wall-mounted storage unit. Please read these instructions carefully before beginning assembly and retain them for future reference.

2. SAFETY INFORMATION

Important: Incorrect installation can lead to property damage or personal injury. Always follow these safety guidelines.

- **Wall Fasteners:** Screws and wall plugs for mounting are **not included**. It is crucial to select and use appropriate screws and wall plugs specifically designed for your wall type (e.g., drywall, concrete, brick). If you are unsure, consult a qualified professional for advice on suitable fasteners and safe installation.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 60 kg (132 lbs). Overloading can cause the shelf to detach from the wall.
- **Assembly:** Assemble the unit on a soft, clean surface to prevent scratches. Ensure all components are correctly aligned and securely fastened before mounting.
- **Placement:** Avoid placing the shelf in areas with high humidity or direct sunlight to prevent material degradation.

3. PACKAGE CONTENTS

Before assembly, verify that all parts are present and undamaged. If any parts are missing or damaged, please contact vidaXL customer support.

5. SETUP AND INSTALLATION

5.1 Assembly

1. Unpack all components and lay them out on a clean, soft surface to prevent damage.
2. Follow the step-by-step assembly instructions provided in the separate assembly guide (if included) or diagram. Typically, this involves:
 - Attaching side panels to the top and bottom panels.
 - Assembling the drawer boxes and installing the drawer slides.
 - Attaching the drawer handles.
3. Ensure all screws and fasteners are tightened securely, but do not overtighten to avoid damaging the engineered wood.

5.2 Wall Mounting

Tools Required (not included): Drill, drill bits suitable for your wall type, level, measuring tape, pencil, screwdriver, appropriate wall plugs and screws.

1. **Choose Location:** Select a suitable wall location, ensuring there are no hidden electrical wires or pipes.
2. **Marking:** Hold the assembled shelf against the wall at the desired height. Use a level to ensure it is perfectly horizontal. Mark the positions of the mounting holes on the wall using a pencil.
3. **Drilling:** Drill pilot holes at the marked positions. The size of the drill bit should match the diameter of your chosen wall plugs.
4. **Insert Wall Plugs:** Insert the appropriate wall plugs into the drilled holes.
5. **Mounting:** Align the shelf's pre-attached mounting brackets with the wall plugs. Insert screws through the brackets and into the wall plugs. Tighten the screws firmly until the shelf is securely fixed to the wall. Do not overtighten.
6. **Check Stability:** Gently pull on the shelf to ensure it is stable and securely mounted before placing any items on it.

6. OPERATING (USAGE)

The vidaXL Wall Shelf with Drawers is designed for both storage and display purposes.

- **Storage:** Utilize the two spacious drawers to keep various daily essentials organized and out of sight.
- **Display:** The top surface of the shelf can be used to display decorative items, photos, small plants, or other personal belongings. Ensure items are placed stably and do not exceed the shelf's weight capacity.
- **Drawer Operation:** Gently pull and push the drawer handles to open and close the drawers. Avoid forcing them to prevent damage to the slides.

7. MAINTENANCE

To ensure the longevity and appearance of your wall shelf, follow these maintenance guidelines:

- **Cleaning:** Wipe the surface with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the engineered wood finish.

- **Spills:** Clean up spills immediately to prevent staining or water damage.
 - **Inspection:** Periodically check all screws and fasteners for tightness. Retighten if necessary to maintain stability.
 - **Environment:** Keep the shelf away from direct heat sources, extreme temperature changes, and prolonged exposure to sunlight to prevent warping or fading.
-

8. TROUBLESHOOTING

If you encounter any issues with your wall shelf, refer to the following common solutions:

- **Shelf feels unstable:**
 - Ensure all wall mounting screws are securely tightened.
 - Verify that the correct type and size of wall plugs and screws were used for your specific wall material.
 - Check if the shelf is overloaded. Remove some items if it exceeds the 60 kg weight limit.
- **Drawers are stiff or not sliding smoothly:**
 - Check if the drawer slides are properly aligned and free from obstructions.
 - Ensure all screws holding the drawer slides to the drawer and the shelf frame are tight.
 - Lightly lubricate the drawer slides with a silicone-based lubricant if needed.
- **Visible gaps after assembly:**
 - Ensure all assembly screws are fully tightened.
 - Verify that all panels are correctly oriented and joined according to the assembly instructions.

If problems persist, please contact vidaXL customer support.
