

Kuulaa KL-YD80

Kuulaa Portable Charger KL-YD80 Instruction Manual

Model: KL-YD80

1. INTRODUCTION

Thank you for choosing the Kuulaa Portable Charger (Model KL-YD80). This device is designed to provide convenient and fast charging for your electronic devices, including smartphones, smartwatches, and other USB-powered gadgets. Please read this manual carefully before using the product to ensure safe and optimal performance. Keep this manual for future reference.

2. PRODUCT OVERVIEW

Package Contents

- Kuulaa Portable Charger (Model KL-YD80)
- USB-C Charging Cable (for recharging the power bank)
- User Manual

Device Layout

Built in 4 Outputs for All Devices

- 1 USB-C Cable
- 2 For iPhone
- 3 USB-A Port
- 4 iWatch Charger

Image: Front view of the Kuulaa Portable Charger highlighting its four output options: built-in USB-C cable, built-in Lightning cable, USB-A port, and magnetic Apple Watch charging pad.

1. **Built-in USB-C Cable:** For charging USB-C compatible devices.
2. **Built-in Lightning Cable:** For charging Apple devices with a Lightning port.
3. **USB-A Output Port:** For charging devices using your own USB-A cable.
4. **Magnetic Apple Watch Charger:** For wirelessly charging Apple Watch models.
5. **LCD Display:** Shows remaining battery percentage.

6. **Power Button:** Activates charging and display.
7. **USB-C Input Port:** For recharging the power bank.

3. SETUP

Initial Charging of the Power Bank

Before first use, fully charge your Kuulaa Portable Charger. This ensures optimal battery performance and longevity.

1. Connect the provided USB-C charging cable to the USB-C input port on the power bank.
2. Connect the other end of the USB-C cable to a compatible USB wall adapter (not included) or a powered USB port.
3. The LCD display will show the charging progress. The power bank is fully charged when the display shows 100%.
4. Charging typically takes approximately 3.5 hours with an 18W USB-C power adapter.

4. OPERATING INSTRUCTIONS

Charging Mobile Devices

The Kuulaa Portable Charger offers multiple ways to charge your devices.

1. Using Built-in Cables:

- For USB-C devices: Pull out the built-in USB-C cable and connect it to your device's charging port.
- For Lightning devices: Pull out the built-in Lightning cable and connect it to your device's charging port.

2. Using USB-A Output Port:

- Connect your device's USB-A charging cable to the USB-A output port on the power bank.
- Connect the other end of your cable to your device.

3. Press the power button once to initiate charging if it doesn't start automatically. The LCD display will show the remaining battery percentage.

Charging Apple Watch

The power bank includes a magnetic charging pad specifically for Apple Watch.

1. Place your Apple Watch onto the magnetic charging pad on the power bank.
2. Press the power button to activate the Apple Watch charging function.
3. Ensure the watch is properly aligned for charging to begin.

Charge 4 Devices Simultaneously

Image: The power bank charging four devices concurrently: an iPhone via Lightning cable, a Samsung phone via USB-C cable, AirPods via USB-A port, and an Apple Watch on its magnetic pad.

LCD Display

The integrated LCD screen provides real-time information about the power bank's battery status.

- **Battery Percentage:** Displays the remaining charge level from 0-100%.
- **Charging Indicator:** Shows when the power bank is being recharged or is actively charging a device.

5. MAINTENANCE

- Keep the power bank away from water, moisture, and extreme temperatures.
- Avoid dropping or subjecting the device to strong impacts.
- Clean the device with a dry, soft cloth. Do not use harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place when not in use. For long-term storage, it is recommended to keep the battery at around 50-70% charge.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Power bank not charging	Low battery on power bank; faulty cable; incompatible adapter.	Ensure power bank has charge. Check cable connections. Try a different charging cable or wall adapter.
Device not charging from power bank	Power bank off; low power bank battery; faulty cable; device incompatibility.	Press the power button to activate. Recharge the power bank. Try a different cable. Ensure device is compatible (refer to specifications).
Apple Watch not charging	Watch not aligned; power button not pressed; watch bands interfering.	Ensure Apple Watch is centered on the magnetic pad. Press the power button to activate charging. Remove watch bands if they obstruct contact.
Slow charging	Cable issue; device drawing less power; multiple devices charging.	Use original or high-quality cables. Charging speed can vary by device. Charging multiple devices simultaneously may reduce individual charging speeds.

8. SAFETY INFORMATION

- Do not disassemble, modify, or repair the device yourself.
- Do not expose the power bank to fire, direct sunlight, or high temperatures.
- Avoid using the power bank in environments with high humidity or dust.
- Keep out of reach of children.
- Do not use if the device is damaged or swollen.
- Dispose of the product responsibly according to local regulations.
- This device contains a Lithium-Ion battery. Handle with care.

9. WARRANTY & SUPPORT

Kuulaa products typically come with a standard manufacturer's warranty. Please refer to the warranty card included in your package or visit the official Kuulaa website for detailed warranty terms and conditions.

For technical support, troubleshooting assistance, or warranty claims, please contact Kuulaa customer service through the contact information provided on the official website or your purchase platform.

Manufacturer: Shenzhen Kula Technology Co., Ltd.
