# Itari A886 Bluetooth Tattoo Stencil Printer User Manual

Model: A886 | Brand: Itari

## 1. INTRODUCTION

This manual provides essential information for the safe and efficient operation of your Itari A886 Bluetooth Tattoo Stencil Printer. Please read it thoroughly before using the device.

### 1.1 Package Contents

- Itari A886 Tattoo Stencil Printer (1)
- USB-C Cable (1)
- USB-C to USB-A Adapter (1)
- User Guide (1)
- Tattoo Transfer Paper (10 sheets)
- Soft Carrying Pouch (1)

### 1.2 Product Parts

Familiarize yourself with the components of your printer:

**Image Description:** A diagram illustrating the various parts of the Itari A886 printer, including the power button, indicator light, top cover, paper output slot, print head, paper entry slot, and transducers.

## 2. SETUP

### 2.1 Charging the Device

Before initial use, fully charge the printer. Use a 5V-2A USB-A charger and the original data cable for optimal battery protection. The indicator light will show solid green when fully charged.

### 2.2 Downloading the App

The Itari A886 printer operates via a mobile application. Search for 'Phomemo' on the App Store (iOS) or Google Play Store (Android), or scan the QR code provided in the Quick Start Guide to download the app.

**Image Description:** A smartphone screen displaying options to download the 'Phomemo' app from the App Store or Google Play, along with a QR code for quick access.

### 2.3 Connecting the Printer

#### 2.3.1 Bluetooth Wireless Connection (Phone/Tablet)

1. Long press the power button for 2 seconds to turn on the printer. The indicator light will illuminate.

2. Ensure Bluetooth is enabled on your mobile device.
3. Open the 'Phomemo' app and select 'Auto Connect' or search for the A886 printer.
4. Confirm the pairing request on your device. The printer will beep once connected.

**Video Description:** A demonstration showing how to connect the Itari A886 printer to a MacOS laptop, including driver installation and printing a stencil.

### 2.3.2 USB Connection (PC/Mac)

1. Download the appropriate printer driver from the official website (a886.labelife.cc).
2. Connect the printer to your computer using the provided USB-C cable and adapter.
3. Ensure the printer is turned on.
4. Follow the on-screen instructions to install the driver and print.

**Image Description:** A visual guide demonstrating the steps to connect the Itari A886 printer to a computer via USB for printing.

### 2.4 Loading Tattoo Transfer Paper

1. Prepare the tattoo transfer paper by tearing off the yellow backing paper and removing the protective layer, leaving the white tracing sheet and blue carbon sheet.
2. Open the top cover of the printer by pressing the two side buttons.
3. Center the prepared tattoo transfer paper into the paper entry slot, ensuring the white tracing paper faces up.
4. Close the top cover until you hear a click, indicating it is securely closed.

# Tattoo Creation with Powerful APP

**Image Description:** A six-step visual guide demonstrating how to prepare and load tattoo transfer paper into the Itari A886 printer for printing.

## 3. OPERATION

### 3.1 Basic Printing Process

1. Select your desired tattoo design from the app or upload your own.
2. Adjust the size and orientation of the design as needed within the app.
3. Press the 'Print' button in the app. The printer will automatically feed the paper and print the stencil.

**Image Description:** The Itari A886 printer actively printing a tattoo stencil, with a smartphone displaying the design and Bluetooth connectivity icon.

### 3.2 Anti-Wrinkle Mode

The A886 features a patented wrinkle-resistant technology. When activated in the app, this mode ensures the tattoo paper remains flat during printing, resulting in clearer prints. Note that this mode may leave anti-wrinkle lines on the sides of the transfer paper.

Your browser does not support the video tag.

**Video Description:** A user demonstrates how to use the anti-wrinkle mode on the Itari A886 printer, showing the paper feeding smoothly and the resulting print quality.

## New Feature - Anti-Wrinkle Mode

Note: There will leave anti-wrinkle lines on both sides of the tattoo paper

**Image Description:** The Itari A886 printer with a tattoo stencil being printed, highlighting the 'Anti-Wrinkle Mode' feature that keeps the paper flat for clear results.

### 3.3 App Features

The 'Phomemo' app offers various functionalities to enhance your tattoo stencil creation:

- **Tattoo Editing:** Adjust designs, add text, and customize.
- **AI-Generated Tattoo Designs:** Input requirements to generate custom tattoo designs. (Note: Some AI features may require a subscription after a free trial).
- **Tattoo Preview:** Visualize how the tattoo will look on the skin.
- **Image Cutting & Stitching:** For larger designs, the app can cut and stitch images across multiple sheets.
- **Tattoo Design Library:** Access a wide variety of pre-loaded designs.

## 4. MAINTENANCE

## 4.1 General Care

- Keep the printer clean and free from dust and debris.
- Store the printer in the provided soft carrying pouch when not in use.
- Avoid exposing the printer to extreme temperatures or direct sunlight.

## 4.2 Paper Handling Tips

- Only use tattoo transfer paper with the A886 printer. Thermal paper is not supported.
- For best results, use Itari brand tattoo paper and print simple line art designs.
- Ensure the paper is centered correctly in the entry slot to prevent jams and skewed prints.
- If the print head overheats, the app will prompt you to pause printing. Allow 5 minutes for the print head to cool before resuming.

**Image Description:** A visual comparison showing optimal tattoo stencil prints from the Itari A886 for simple line patterns versus less effective results for complex color block patterns, and correct paper handling.

## 5. TROUBLESHOOTING

Refer to the indicator light status for common issues:

Status	Meaning	Advised Action
Solid Green Light	Functioning/Fully charged	None
Flashing Green Light	Charging/While printer is on	None
Solid Red Light	Printer overheated / Top cover open	Close top cover or pause for 5-10 minutes
Flashing Red Light	Low battery	Charge for 4h
No light after long pressing Power Button for 3s	Battery depleted	Charge for 4h
Alternately Flashing Red and Green Light	Charging while printer is off	None

## 6. SPECIFICATIONS
