## Beeline Moto II Gunmetal

# Beeline Moto II Motorcycle GPS Tracker User Manual

Model: Moto II Gunmetal

Brand: Beeline

## PRODUCT OVERVIEW

The Beeline Moto II is a next-generation motorcycle GPS tracker designed for intuitive and distraction-free navigation. This compact, waterproof, and shockproof device provides advanced turn-by-turn directions, live ride statistics, and a vibrant, glove-friendly display. With a long-lasting battery and robust construction, it is engineered to enhance your riding experience across various conditions and terrains.

The Beeline Moto II device displaying a turn-by-turn navigation route.

### Key Features:

- **Compact Design:** Small and unobtrusive, fitting seamlessly onto any motorcycle handlebar.
- **Waterproof Build (IP67):** Designed to withstand rain, splashes, and dusty conditions.
- **Simple Display:** A clear, anti-glare screen provides essential navigation information at a glance.
- **14-Hour Battery Life:** Ensures long rides without the need for frequent recharging.
- **Glove-Friendly Operation:** Easy to interact with even while wearing riding gloves.
- **Smart Routing:** Offers options for fast routes or more scenic, winding roads.
- **Offline Functionality:** Reliable navigation even in areas without phone signal.

### WHAT'S INCLUDED

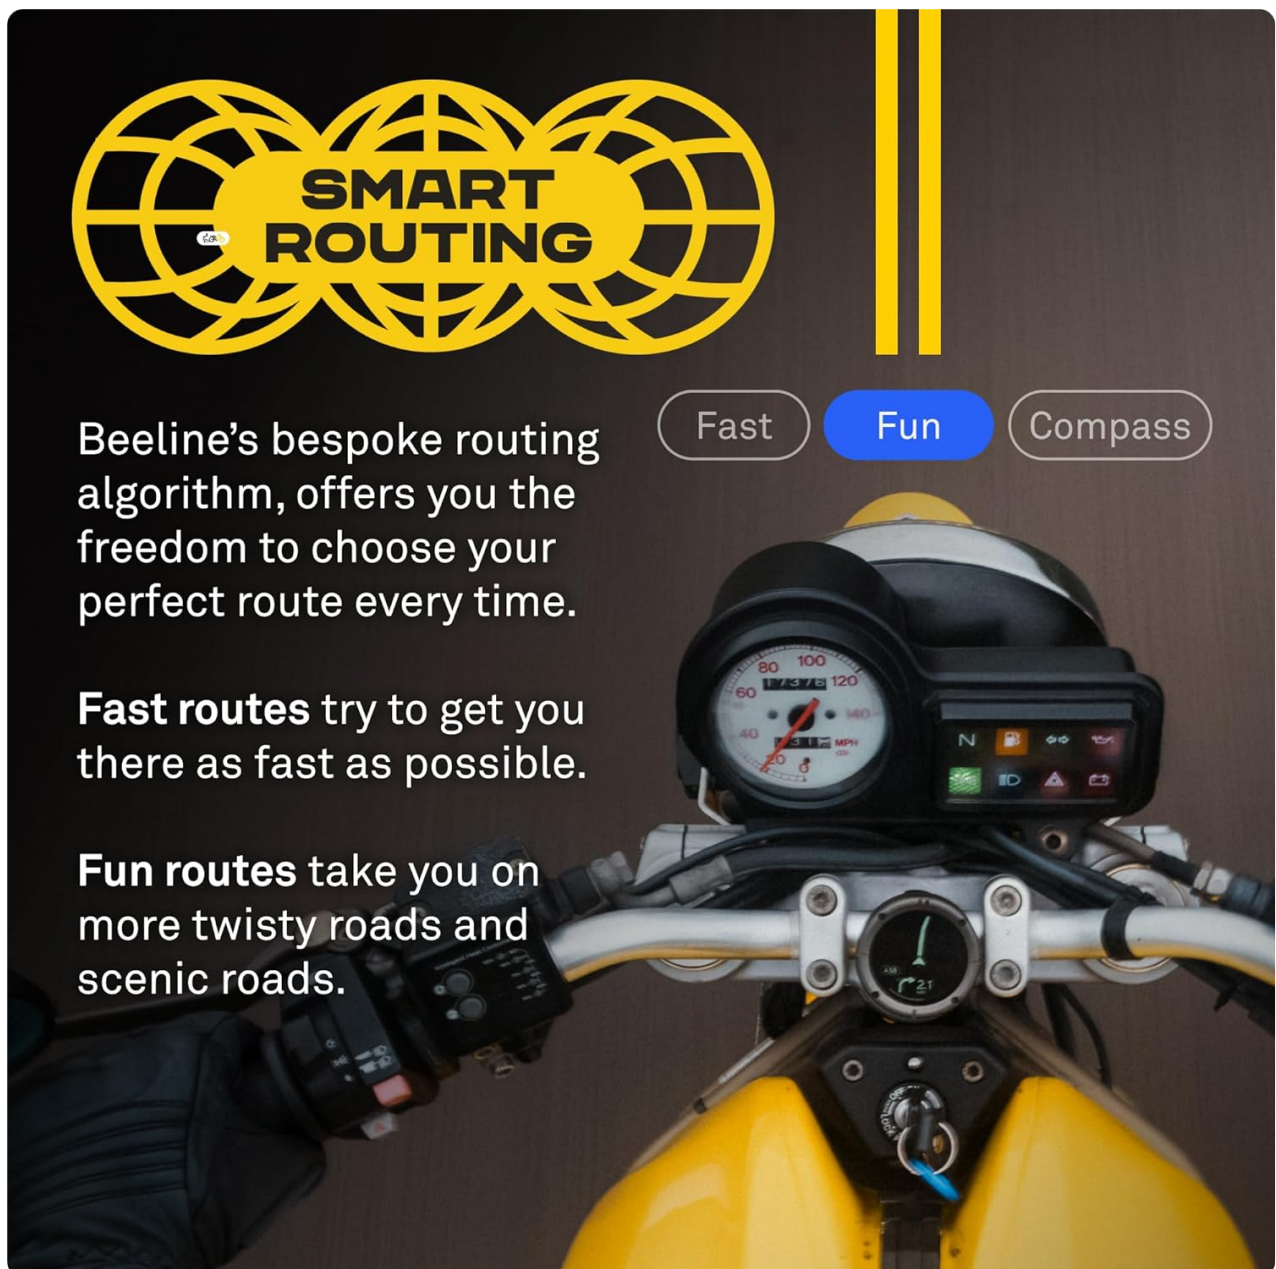

Your Beeline Moto II package contains the following items:

- Beeline Moto II/Moto II Metal device
- USB-C Charging cable
- Universal elastic strap mount
- Quickstart guide

## SETUP GUIDE

### 1. Charging the Device

Before first use, fully charge your Beeline Moto II using the provided USB-C cable. Connect the USB-C end to the device and the other end to a compatible USB power source. A full charge provides up to 14 hours of active navigation.

The Beeline Moto II device connected to its USB-C charging cable.

### 2. Installing the Beeline App

The Beeline Moto II requires the Beeline companion app for route planning and device management. Download the app from the App Store (iOS) or Google Play Store (Android) on your smartphone.

### 3. Pairing with Your Smartphone

1. Ensure Bluetooth is enabled on your smartphone.
2. Open the Beeline app and follow the on-screen instructions to pair your Moto II device.
3. The app will guide you through the initial setup and calibration process.

### 4. Mounting the Device

The universal elastic strap mount allows for easy attachment to most motorcycle handlebars. Ensure the device is securely fastened and positioned for optimal visibility while riding. Additional mounting options are available separately for different motorcycle types.

## OPERATING INSTRUCTIONS

### 1. Planning a Route

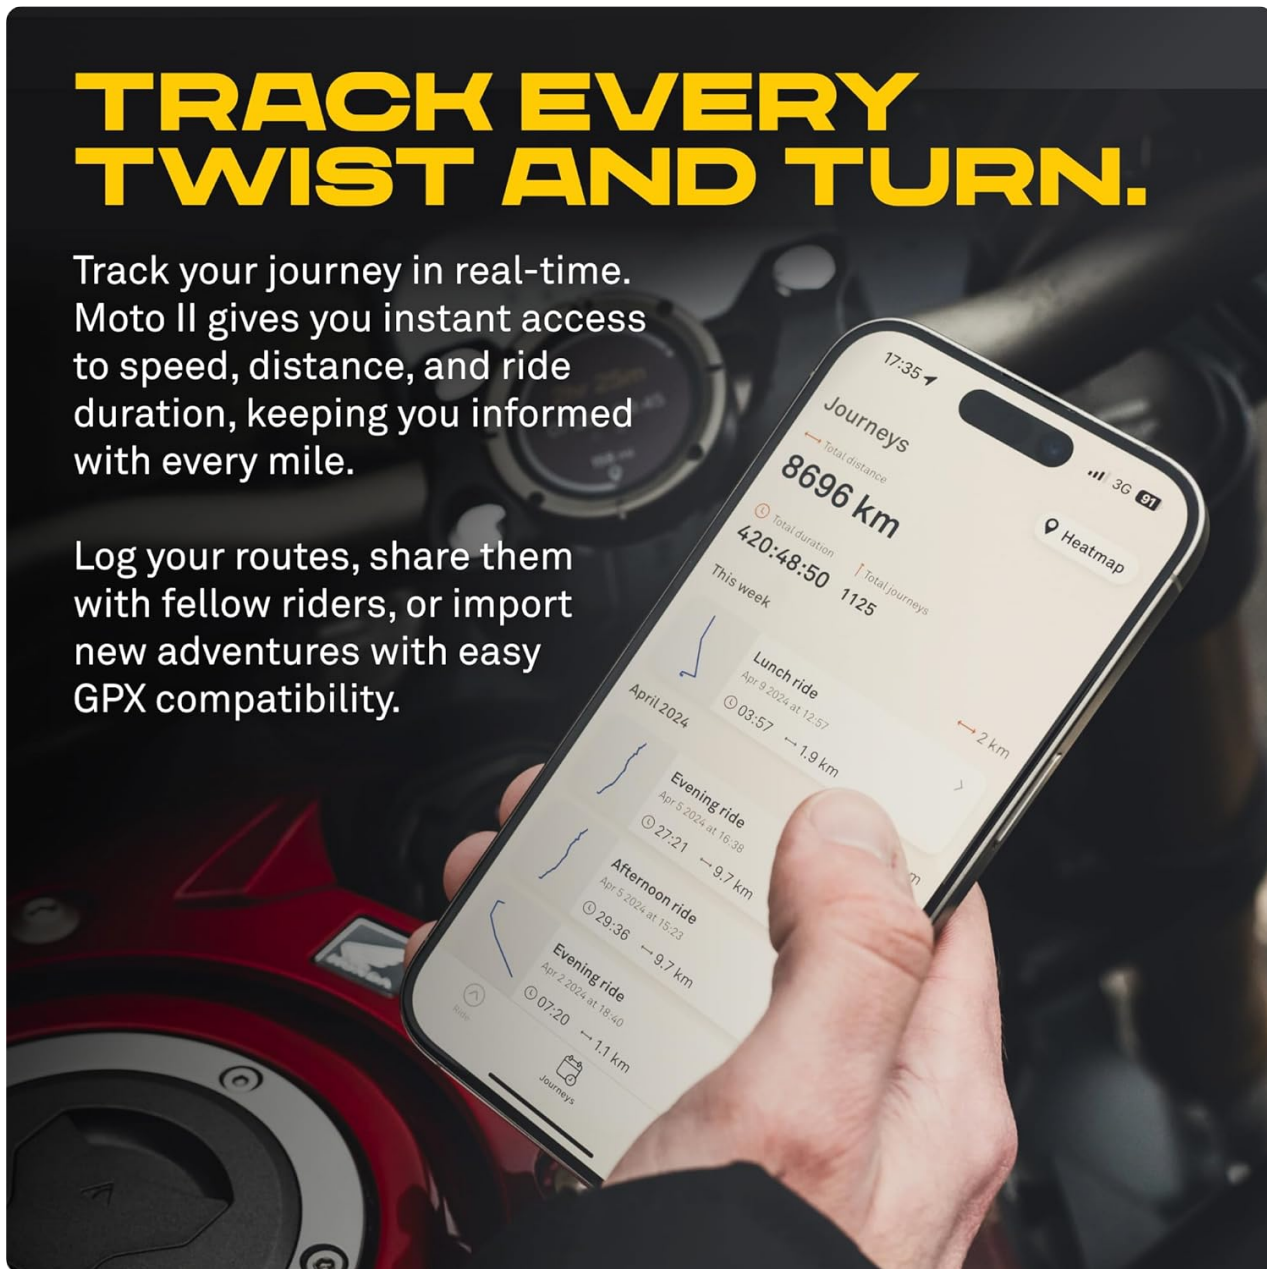

All route planning is done through the Beeline app on your smartphone. You can select your destination, add waypoints, and choose between different routing preferences:

- **Fast Route:** Optimizes for the quickest path to your destination.
- **Fun Route:** Selects more winding and scenic roads for an enjoyable ride.

# TRACK EVERY TWIST AND TURN.

Track your journey in real-time. Moto II gives you instant access to speed, distance, and ride duration, keeping you informed with every mile.

Log your routes, share them with fellow riders, or import new adventures with easy GPX compatibility.

### 2. Understanding the Display

The Beeline Moto II features a super-bright, anti-glare display designed for clear visibility in various lighting conditions. It shows turn-by-turn directions using a simple arrow, distance to the next turn, and other relevant ride statistics like speed and estimated time of arrival (ETA).

Enjoy a brighter, clearer view with Moto II's enhanced screen — now with double the resolution and size, featuring **colour display, anti-glare, and hydrophobic coatings** for optimal visibility under any conditions.

### 3. Navigating Your Ride

Once a route is started in the app, the Moto II device will provide visual cues for turns and directions. The intuitive arrow display minimizes distractions, allowing you to focus on the road. The device also tracks your journey in real-time, providing instant access to speed, distance, and ride duration.

Forget battery worries with Moto II's 14h long-lasting charge, months of standby time, and an optional powered mount for on-the-go charging.

USB-C connectivity offers hassle-free charging, compatible with your existing cables.

## CARE AND MAINTENANCE

### Cleaning:

Wipe the device with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials, as these can damage the screen or casing.

### Water Resistance:

The Beeline Moto II is IP67 waterproof, meaning it is protected against dust and can withstand immersion in water up to 1 meter for 30 minutes. While it is designed for all-weather use, avoid prolonged submersion or high-pressure water jets.

# VERSATILE MOUNTING.

Fit Moto II on any bike with our expanded range of easy-to-install mounts, ensuring seamless integration into your cockpit.

All accessories are sold separately unless specified as part of the Beeline Moto II package.

## Storage:

Store the device in a cool, dry place when not in use. For long-term storage, ensure the battery is partially charged (around 50%) to maintain battery health.

## TROUBLESHOOTING

### Device Not Turning On:

- Ensure the device is fully charged. Connect it to the USB-C charger and wait a few minutes before attempting to power it on again.
- Press and hold the power button for at least 10 seconds to perform a hard reset.

### No GPS Signal:

- Ensure the device has a clear view of the sky. Obstructions like buildings or dense tree cover can interfere with GPS reception.
- Verify that the Beeline app on your smartphone has location services enabled and is connected to the device.

### App Connectivity Issues:

- Check that Bluetooth is active on your smartphone and the Beeline Moto II.
- Restart both the Beeline app and the Moto II device.
- If issues persist, try unpairing and re-pairing the device within your phone's Bluetooth settings and the Beeline app.

## TECHNICAL SPECIFICATIONS

Feature	Specification
Item Weight	5.3 ounces
Package Dimensions	2.95 x 2.83 x 2.76 inches
Display Size	1.45 Inches
