6. MAINTENANCE

To ensure the longevity and optimal performance of your DEWALT Charger Block, follow these simple maintenance guidelines:

- **Cleaning:** Disconnect the charger from the power outlet before cleaning. Use a soft, dry cloth to wipe down the exterior. Do not use abrasive cleaners, solvents, or immerse the unit in water.
- **Storage:** When not in use, store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cord Care:** Avoid kinking or sharply bending the power cord. Do not place heavy objects on the cord.

7. TROUBLESHOOTING

If you encounter issues with your DEWALT Charger Block, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No power to charger	Power cord not fully plugged in; Wall outlet not active; Circuit breaker tripped.	Ensure power cord is securely plugged into both the charger and the wall outlet. Test the wall outlet with another device. Check your home's circuit breaker.
Device not charging or charging slowly	Faulty charging cable; Device not compatible; Overloaded ports; Device battery issue.	Try a different charging cable. Ensure your device is compatible with USB-C or USB-A charging. Disconnect some devices if charging multiple high-power devices. Consult your device's manual.
Charger feels warm	Normal operation during high-power charging; Poor ventilation.	A slight warmth is normal. Ensure the charger is in a well-ventilated area and not covered. If it becomes excessively hot, disconnect immediately and contact support.

If the problem persists after attempting these solutions, please contact DEWALT customer support.
