## 2. SAFETY INSTRUCTIONS

- **Read all instructions:** Ensure you understand all assembly and usage instructions before proceeding.
- **Keep children and pets away:** During assembly, keep small parts out of reach of children and pets to prevent choking hazards.
- **Assemble on a soft surface:** To prevent scratches, assemble the table on a clean, soft surface like a carpet or blanket.

- **Two-person assembly recommended:** Some steps may require assistance for safe and efficient assembly.
- **Do not overload:** The maximum recommended weight for the table is 50 kg. Do not exceed this limit.
- **Use on a level surface:** Ensure the table is placed on a stable and level floor to prevent tipping.
- **Caution with lift mechanism:** When operating the lift-top mechanism, keep hands and fingers clear of moving parts to avoid pinching.

### 3. PACKAGE CONTENTS

---

Before assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Tabletop (MDF and Glass)
- Base/Frame components (MDF)
- Lift mechanism hardware
- Legs
- Assembly hardware (screws, dowels, etc.)
- Assembly tools (e.g., Allen key, if included)

### 4. SETUP AND ASSEMBLY

---

Follow these steps carefully to assemble your SIDELIA coffee table. It is recommended to have two people for assembly.

1. **Unpack Components:** Carefully remove all parts from the packaging. Place them on a soft, clean surface to prevent damage.
2. **Assemble the Base:** Connect the side panels and bottom panel of the table base using the provided hardware. Ensure all connections are secure.
3. **Attach the Lift Mechanism:** Secure the lift mechanism to the internal frame of the table base according to the diagrams. Pay attention to the orientation of the mechanism.
4. **Install the Tabletop:** Carefully attach the main tabletop panel to the lift mechanism. Ensure it is aligned correctly and secured firmly.
5. **Attach the Legs:** Fasten the four legs to the underside of the table base. Tighten all screws evenly.
6. **Final Check:** Verify that all screws and fasteners are tight and that the table is stable. Test the lift mechanism gently.

## 5. OPERATING INSTRUCTIONS

---

### 5.1. Using the Lift-Top Mechanism

The SIDELIA coffee table features a convenient lift-top mechanism, allowing you to adjust the tabletop height for various uses, such as dining or working.

1. **To Lift:** Gently grasp the edge of the tabletop and lift upwards. The spring-loaded mechanism will assist in raising the top smoothly. Continue lifting until it reaches the desired height or its maximum extension.
2. **To Lower:** Gently push down on the tabletop. The mechanism will retract, allowing the top to lower back into its original coffee table position. Ensure no objects or fingers are in the path of the lowering top.

**Caution:** Always operate the lift mechanism with care. Avoid sudden movements or forcing the top. Do not place heavy objects on the lifted top that exceed the table's weight capacity.

## **5.2. Using the Storage Niche**

The table includes a convenient open storage niche and a hidden compartment under the lift-top for organizing items.

- **Open Niche:** Use the visible open compartment for easy access to books, magazines, or decorative items.
- **Hidden Compartment:** Lift the tabletop to access the spacious hidden storage area, ideal for remote controls, laptops, or other items you wish to keep out of sight.

## 6. MAINTENANCE AND CARE

- **Cleaning:** Wipe the table surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the MDF or glass finish.
- **Spills:** Clean up spills immediately to prevent staining or damage to the wood finish.
- **Heat and Moisture:** Avoid placing hot items directly on the surface. Use coasters for drinks to protect against moisture rings.
- **Mechanism Care:** Periodically check the lift mechanism for smooth operation. If it becomes stiff, a small amount of silicone-based lubricant can be applied to the moving parts (avoiding contact with wood surfaces).
- **Tighten Fasteners:** Periodically check and retighten all assembly fasteners to ensure the table remains stable and secure.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Table is wobbly	Loose fasteners; Uneven floor	Ensure all screws are tightened. Move the table to a level surface or use furniture pads to stabilize.

Problem	Possible Cause	Solution
Lift mechanism is stiff	Lack of lubrication; Obstruction	Apply a small amount of silicone lubricant to moving parts. Check for any objects obstructing the mechanism.
