### Aivituvin AIR80-L-IN

# Aivituvin Insulated Outdoor Dog House Instruction Manual

Model: AIR80-L-IN

## 1. INTRODUCTION

Thank you for choosing the Aivituvin Insulated Outdoor Dog House. This manual provides essential information for the proper assembly, operation, and maintenance of your dog house. Designed for medium to large breeds, this weatherproof shelter features an insulated liner and an anti-chewing metal frame to ensure comfort and durability for your pet.

## 2. SAFETY INFORMATION

- Read all instructions carefully before assembly and use.
- Keep all small parts and packaging materials away from children and pets during assembly to prevent choking hazards.
- Ensure the dog house is assembled on a flat, stable surface.
- Regularly inspect the dog house for any loose or damaged components. Tighten or replace as necessary.
- Do not modify the product in any way, as this may compromise its structural integrity and insulation properties.
- This product is designed for pet use only.

## 3. PACKAGE CONTENTS

Please refer to the detailed parts list provided in your product packaging. Ensure all components are present and undamaged before beginning assembly. If any parts are missing or damaged, contact customer support immediately.

## 4. ASSEMBLY INSTRUCTIONS

Assembly typically requires two adults and basic tools (e.g., screwdriver). Follow the step-by-step instructions provided in the included assembly manual. The dog house features a robust metal frame for enhanced stability and anti-chewing properties.

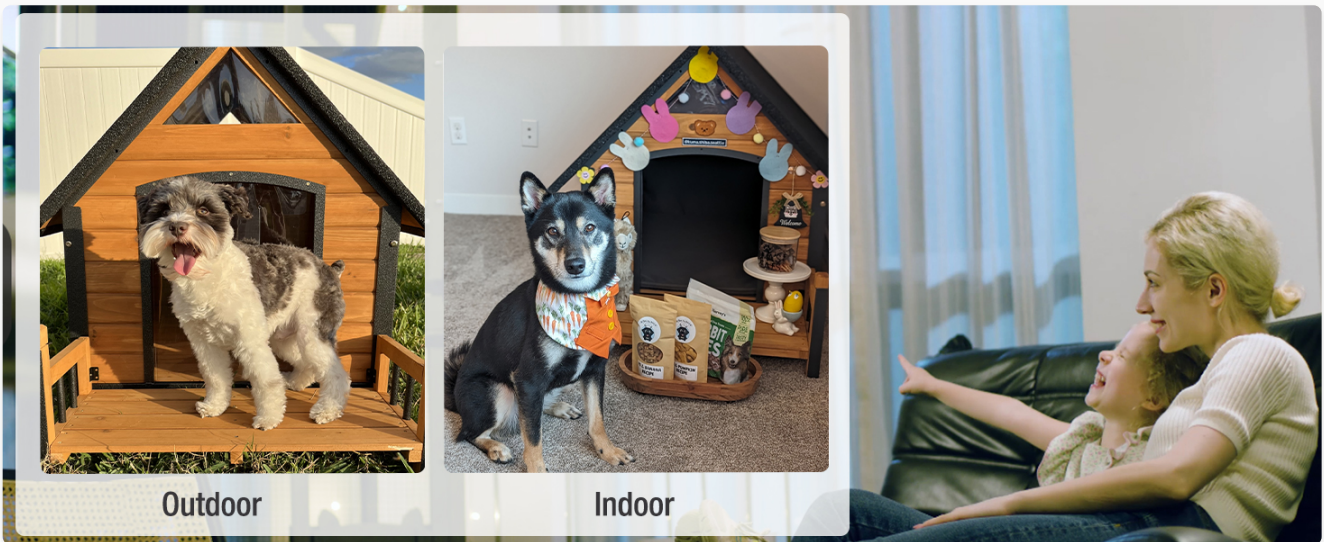

Image 4.1: Refer to the included assembly manual for detailed, step-by-step instructions.

### Key Assembly Features:

- **Strong Metal Frame:** The dog house is constructed with a durable metal frame integrated into each panel, providing structural integrity and resistance against chewing.
- **Elevated Base:** The design includes an elevated base to keep the dog house off the ground, protecting against moisture and improving insulation.
- **Slanted Roof:** The roof is designed with a slant to prevent water accumulation, ensuring the interior remains dry during rain or snow.

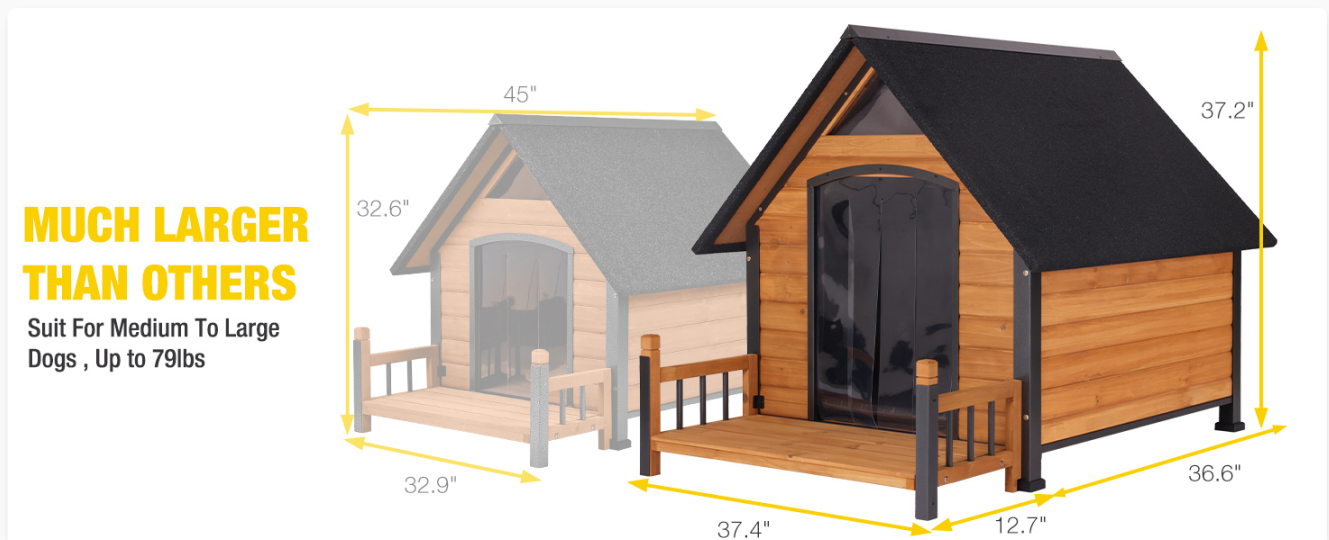

Image 4.2: Illustration of the strong iron frame components for enhanced durability.

## 5. OPERATING INSTRUCTIONS

The Aivituvn Insulated Outdoor Dog House is designed to provide a comfortable and secure environment for your dog in various weather conditions.

### Insulation System:

- The dog house features a 0.78-inch thick sponge insulated liner, providing warmth in cold weather. This liner helps retain your pet's body heat.
- The kennel includes a 6-sided insulated liner crafted from a 3-layer material (solid wood + plywood + thermal liner) to offer superior warmth and protection against extreme outdoor temperatures.

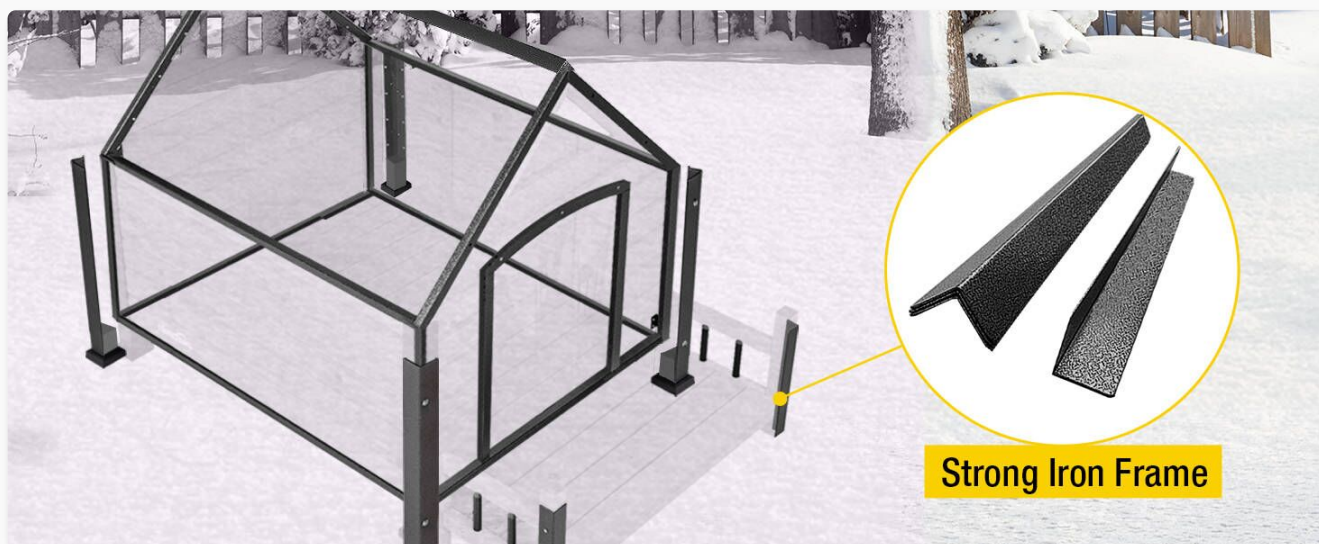

Image 5.1: The insulated liner provides warmth without electricity or chemical smells, suitable for outdoor use.

### Weather Resistance:

- The leak-proof design and elevated waterproof base protect your dog from ground moisture.
- The slanted roof ensures rainwater and snow slide off, keeping the interior dry.

# THE BEST GIFT FOR YOUR PETS

Keep Your Pets Warm to Get Through The Cold Winter

## 6. MAINTENANCE

Regular cleaning and maintenance will extend the life of your dog house and ensure a hygienic environment for your pet.

- **Daily Cleaning:** The dog house features pull-out floors and a roof with a lockable latch, allowing for easy access for daily cleaning.
- **Liner Care:** The insulated liner is easy to attach and can be removed for machine washing. Follow the care instructions on the liner's label.
- **Wood Care:** Periodically inspect the wooden components for wear or damage. Applying a pet-safe wood sealant or stain may help prolong the wood's life and maintain its appearance, especially in harsh weather conditions.
- **Frame Inspection:** Check the metal frame for any signs of rust or damage. Clean with a damp cloth as needed.

## 7. TROUBLESHOOTING

If you encounter any issues with your Aivituvin Dog House, please refer to the following common solutions:

- **Issue: Water accumulation inside.**

**Solution:** Ensure the dog house is assembled correctly and placed on a level surface. Check that the roof panels are securely fastened and overlapping properly to prevent leaks. Verify that the elevated base is clear of debris.

- **Issue: Dog not using the house.**

**Solution:** Introduce your dog to the house gradually. Place familiar bedding or toys inside. Ensure the house is clean and free of strong odors. Some dogs may need time to adjust to a new shelter.

- **Issue: Instability or wobbling.**

**Solution:** Check all screws and fasteners to ensure they are tightened securely. Confirm that the dog house is on a completely flat and stable surface.

- **Issue: Liner not providing sufficient warmth.**

**Solution:** Ensure the insulated liner is properly installed and covers all interior surfaces. In extremely cold conditions, additional pet-safe bedding may be added for extra warmth.

## 8. SPECIFICATIONS

Image 8.1: Key dimensions of the Aivituvin Insulated Outdoor Dog House.

Feature	Detail
Model Number	AIR80-L-IN
Brand	Aivituvin
Product Dimensions (L x W x H)	50.9" x 37.4" x 37.2"
