

## Karite 2025

# Karite Upgraded Professional Electric Nail Drill Model 2025 User Manual

Your guide to safe and effective operation

## 1. SAFETY INFORMATION

Please read all instructions carefully before using the device. Keep this manual for future reference.

- This device is for external use only.
- Keep out of reach of children.
- Do not disassemble or modify the device. This may cause malfunction or injury.
- Avoid contact with water or other liquids. Do not use in wet environments.
- Always unplug the device before cleaning or when not in use.
- Ensure the correct drill bit is securely inserted before operation.
- If you experience any discomfort or pain during use, discontinue immediately.
- Use appropriate personal protective equipment, such as safety glasses, to prevent eye injury from debris.

## 2. PRODUCT OVERVIEW

The Karite Upgraded Professional Electric Nail Drill Model 2025 is designed for efficient and precise nail care, suitable for both personal and salon use. It features a high-speed motor, long-lasting battery, and adjustable settings.

Image: The complete Karite Professional Electric Nail Drill kit, including the control unit, handpiece, charging cable, and various drill bits.

### Key Features:

- **High-Speed Motor:** Up to 40,000 RPM for efficient filing, shaping, and polishing.
- **Long-Lasting Battery:** Integrated 4000mAh battery provides extended cordless operation.
- **Low Vibration & Noise:** Engineered for a comfortable and quiet user experience.
- **Adjustable Speed:** Precise control over rotation speed for various nail procedures.
- **Bidirectional Rotation:** Forward and reverse modes accommodate both left-handed and right-handed users.
- **Portable Design:** Lightweight and compact for easy transport and use anywhere.

### 3. COMPONENTS

The Karite Electric Nail Drill kit includes the following components:

- **Control Unit:** Main power and control interface with digital display.
- **Nail Drill Handpiece:** The tool that holds the drill bits and performs the work.
- **USB-C Charging Cable:** For recharging the control unit's internal battery.
- **Assorted Drill Bits (12 pieces):** Various shapes and grits for different nail care tasks (polishing,

shaping, removal, exfoliation).

- **Handpiece Stand:** Provides a stable resting place for the handpiece when not in use.
- **Sanding Bands:** Disposable abrasive bands for specific filing needs.

## 4. SETUP

### 4.1 Charging the Device

Before first use, fully charge the control unit. Connect the provided USB-C charging cable to the charging port on the control unit and plug the other end into a compatible USB power adapter (not included).

Image: Illustration of the 4000mAh battery and charging process, indicating long endurance.

- The battery indicator on the display will show charging progress.
- A full charge typically takes approximately 2 hours.
- The device can operate for several hours on a single charge, depending on usage intensity.

### 4.2 Connecting the Handpiece

Insert the handpiece cable connector into the designated port on the control unit. Ensure a secure connection.

### 4.3 Installing and Removing Drill Bits

The handpiece features a twist-lock system for secure bit installation.

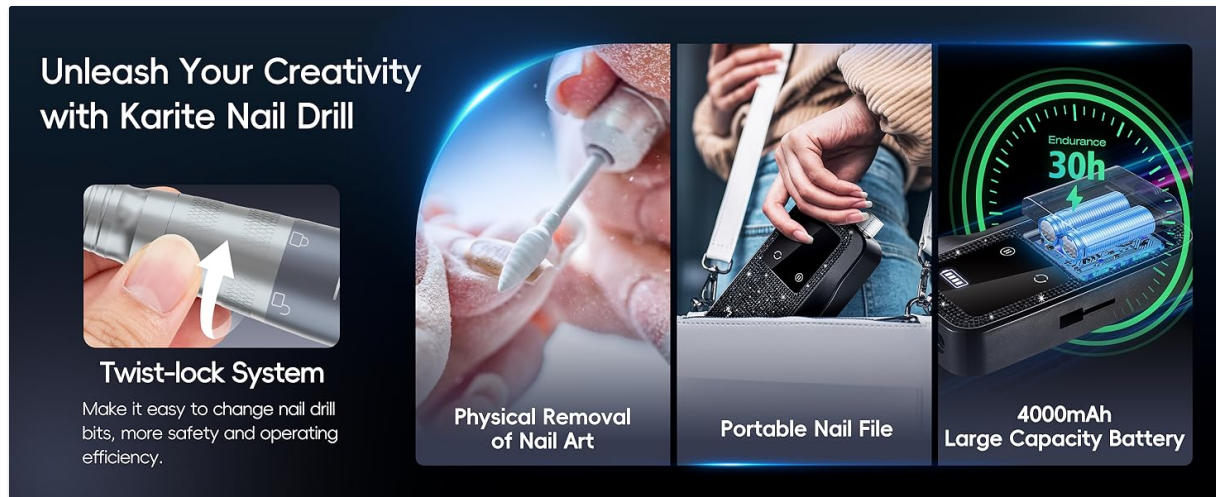

Image: Visual guide demonstrating the four steps to install and remove drill bits.

1. **Open:** Turn the handpiece collar left (clockwise) until you hear a click to unlock the chuck.
2. **Take Out:** Remove the existing drill bit (if any).
3. **Insert:** Fully insert your desired drill bit into the chuck.
4. **Lock:** Turn the handpiece collar right (anti-clockwise) to lock the bit tightly in place. Ensure the bit is secure before operating.

## 5. OPERATING INSTRUCTIONS

### 5.1 Powering On/Off

- To power on, press and hold the power button on the control unit. The digital display will illuminate.
- To power off, press and hold the power button again.

### 5.2 Adjusting Speed (RPM)

Use the rotary knob on the control unit to adjust the rotation speed. The display will show the current RPM setting (up to 40,000 RPM).

- Turn the knob clockwise to increase speed.
- Turn the knob anti-clockwise to decrease speed.
- Start with a lower speed and gradually increase as needed for the specific task and your comfort level.

### 5.3 Changing Rotation Direction

The device supports bidirectional rotation (forward and reverse).

- Press the direction button (often indicated by arrows) on the control unit to switch between forward (F) and reverse (R) modes.
- Always ensure the handpiece has come to a complete stop before changing direction to prevent damage.

### 5.4 Pause Function

Press the pause button on the control unit to temporarily stop the handpiece rotation without turning off the device. Press it again to resume operation.

### 5.5 General Usage Tips

Image: A composite image showing the twist-lock system, physical removal of nail art, portable design, and large capacity battery.

- Select the appropriate drill bit for the task (e.g., fine grit for polishing, coarser grit for gel/acrylic removal).
- Apply light pressure. Excessive force can cause heat buildup, damage to the nail, or wear on the drill bit.
- Keep the handpiece moving constantly over the nail surface to avoid creating grooves or excessive heat in one spot.
- For optimal results and safety, practice on artificial nails before using on natural nails.

## 6. MAINTENANCE

### 6.1 Cleaning the Device

- Always ensure the device is powered off and unplugged before cleaning.
- Wipe the control unit and handpiece with a soft, dry, or slightly damp cloth. Do not use harsh chemicals or abrasive cleaners.
- Regularly clean the chuck mechanism of the handpiece to prevent dust and debris buildup, which can affect bit insertion and rotation.
- For the charging port, consider covering it with a small piece of tape when not charging to prevent nail dust accumulation.

### 6.2 Storing the Device

- Store the device in a cool, dry place, away from direct sunlight and moisture.
- Keep the drill bits organized in their designated case to prevent damage and loss.
- Use the provided handpiece stand to protect the handpiece when not in use.

### 6.3 Battery Care

- Avoid completely draining the battery before recharging.
- If storing the device for an extended period, charge it to approximately 50-70% capacity.

## 7. TROUBLESHOOTING

If you encounter any issues with your Karite Electric Nail Drill, refer to the following common troubleshooting steps:

| Problem                      | Possible Cause                                                | Solution                                                                                   |
|------------------------------|---------------------------------------------------------------|--------------------------------------------------------------------------------------------|
| Device does not turn on      | Low battery; Loose connection; Device malfunction             | Charge the device; Ensure handpiece cable is securely connected; Contact customer support. |
| Handpiece stops during use   | Low battery; Overload; Loose drill bit                        | Recharge the device; Reduce pressure; Re-insert and lock drill bit securely.               |
| Excessive vibration or noise | Improperly inserted bit; Damaged bit; Debris in chuck         | Ensure bit is fully inserted and locked; Replace damaged bit; Clean chuck mechanism.       |
| Drill bit not spinning       | Bit not locked; Handpiece not connected; Device in pause mode | Lock the drill bit; Check handpiece connection; Press pause button to resume.              |

If the problem persists after attempting these solutions, please contact customer support for further assistance.

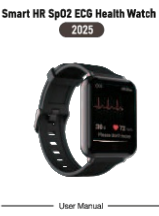

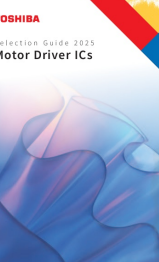

## 8. SPECIFICATIONS

- **Model Name:** 2025
- **Maximum RPM:** 40,000
- **Battery Capacity:** 4000mAh
- **Power Source:** Battery Powered
- **Input Power:** 13 Watts
- **Material:** Aluminum
- **Manufacturer:** KARITE
- **Package Dimensions:** 8.23 x 6.34 x 1.93 inches
- **Weight:** 1.43 Pounds

## 9. WARRANTY AND SUPPORT

Karite products are designed for quality and performance. While specific warranty details are not provided in this manual, customer satisfaction is a priority.

- For any product inquiries, technical support, or warranty claims, please contact Karite customer service.
- Refer to the product packaging or the official Karite website for the most current contact information.
- When contacting support, please have your product model (2025) and purchase information readily available.

|                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

## Nouvelle version 2

Soin lavant à l'huile de Millepertuis

Découvrez la nouvelle version de notre soin lavant à l'huile de Millepertuis, fabriqué dans notre atelier paris de Marne-la-Vallée. Son **pH physiologique de 5,5** et sa composition courte certifiée bio en fait un produit universel idéal à utiliser en voyage.

- Pourquoi une nouvelle formule ?**
  - Mouture plus onctueuse
  - Kératolithe universelle** : corps, aine intime, visage, cheveux
- Ça ne change pas ?**
  - En ligne en certifié COSMOS Organic
  - Sans parfum ni huile essentielle
  - Adapté à tous les types de peaux, dès 3 ans
  - Composition courte

Soin lavant à l'huile de Millepertuis  
**avancé** : Triple action : apaisant, kératolithe physiologique, huile essentielle, baume de cardamome fleur d'orange.

**à partir de 9,90€ TTC**
