## Loog LGP

# Loog Digital Piano Instruction Manual

Model: LGP

## 1. INTRODUCTION

The Loog Digital Piano is a portable electronic keyboard designed for beginners, offering musician-grade sound and versatile features. This manual provides essential information for setup, operation, maintenance, and troubleshooting to ensure optimal use of your instrument.

## 2. SETUP

### 2.1 Unboxing and Initial Inspection

Upon opening the package, verify that all components are present. The Loog Digital Piano typically includes the piano unit and flashcards. Inspect the piano for any visible damage before proceeding.

Image: Loog Digital Piano with included flashcards.

## 2.2 Charging the Piano

The Loog Digital Piano features a built-in rechargeable battery. Before first use, fully charge the device using the provided USB-C cable. Connect the USB-C cable to the piano's charging port and the other end to a compatible USB power adapter (5V / 2A recommended, do not exceed 5V). A full charge provides approximately 8 hours of battery life.

- **LED Power Indicator:**
  - Red: Charge is less than 10%
  - Blue: Charging
  - Off: Fully charged

Image: Diagram showing the piano's ports and LED indicator details.

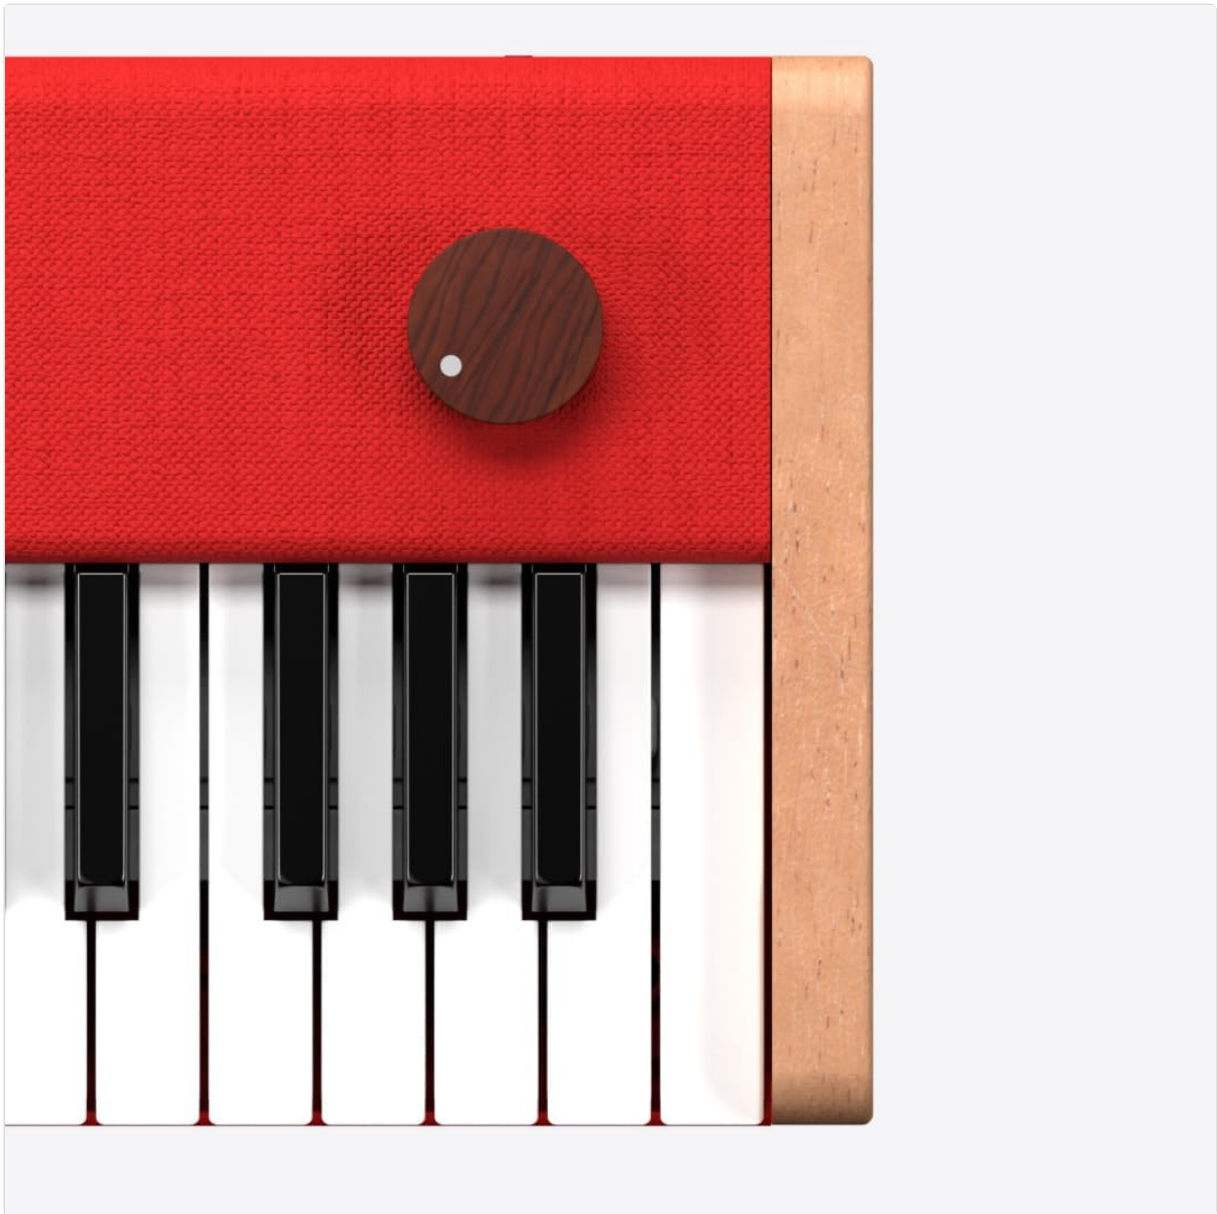

## 2.3 Connecting Peripherals

- **Headphones:** Connect standard 3.5mm headphones to the headphone jack for private practice.
- **MIDI over USB-C:** The USB-C port also supports MIDI connectivity, allowing the piano to function as a MIDI controller with compatible software on Windows, macOS, or Linux devices.
- **Sustain Pedal:** A dedicated port is available for connecting an optional sustain pedal.
- **Octave Shifter:** A connector is present for an optional octave shifter accessory.

## 3. OPERATING INSTRUCTIONS

### 3.1 Power On/Off and Volume Control

Locate the single wooden knob on the top right of the piano. This knob controls both power and volume. Rotate it clockwise to power on the piano and increase volume, and counter-clockwise to decrease volume and power off.

### 3.2 Playing the Piano

The Loog Digital Piano features 37 velocity-sensitive keys, providing a responsive playing experience. The built-in speakers deliver musician-grade piano sound. Simply press the keys to produce notes.

### 3.3 Using the Dedicated Learning App

Enhance your learning experience with the dedicated Loog Piano app. Connect your piano via USB-C to a compatible device running the app. The app provides interactive lessons and exercises.

### 3.4 Official Product Video

Your browser does not support the video tag.

Video: An official introduction to the Loog Piano, highlighting its features for children and beginners.

## 4. MAINTENANCE

### 4.1 Cleaning

To clean the piano, use a soft, dry cloth. Avoid abrasive cleaners or solvents, which can damage the finish. For stubborn marks, a slightly damp cloth can be used, followed by immediate drying.

### 4.2 Battery Care

To prolong battery life, avoid fully discharging the piano frequently. Store the piano in a cool, dry place when not in use for extended periods. Recharge the battery periodically if stored for a long time.

## 5. TROUBLESHOOTING

- **No Sound:**
  - Ensure the piano is powered on and the volume knob is turned up.
  - Check if headphones are connected; if so, sound will output through headphones only.
  - Verify the battery is charged.
- **MIDI Connectivity Issues:**
  - Ensure the USB-C cable is securely connected to both the piano and your computer/device.
  - Check your computer's MIDI settings and software for proper recognition of the Loog Piano.
- **Keys Not Responding:**
  - Ensure the piano is powered on.
  - If only certain keys are unresponsive, contact customer support.

## 6. SPECIFICATIONS

Feature	Detail
---------	--------

Feature	Detail
Brand	Loog
Model Name	Loog Piano
