Alwtniet B0DLFQKCRP

Alwtniet Smart Projector User Manual

Model: B0DLFQKCRP
Brand: Alwtniet

1. Safety Information

Please read all safety instructions carefully before using the projector. Keep this manual for future reference.

- **Electrical Safety:** Do not expose the projector to rain or moisture. Do not open the casing; refer all servicing to qualified personnel. Use only the provided power adapter.
- **Ventilation:** Ensure adequate ventilation around the projector. Do not block ventilation openings. Avoid placing the projector on soft surfaces that may block airflow.
- **Heat:** The projector may become warm during operation. This is normal. Do not touch the lens or hot surfaces immediately after use.
- **Handling:** Handle the projector with care. Avoid dropping or subjecting it to strong impacts.
- **Eye Safety:** Do not look directly into the projector lens when the lamp is on. The bright light can cause eye damage.

2. Package Contents

Verify that all items are present in the package:

- Alwtniet Smart Projector
- Power Adapter
- Remote Control
- User Manual

3. Product Overview

The Alwtniet Smart Projector is designed for versatile home and outdoor entertainment, featuring advanced smart capabilities and high-quality projection.

Key Features:

- **Advanced Smart Auto Features:** Equipped with auto-focus, auto keystone correction, and obstacle avoidance for effortless setup and a clear, distortion-free image.
- **Bright and Reliable Visuals:** 400 ANSI lumens brightness and a 10,000:1 contrast ratio deliver vivid images, even in dimly lit spaces.
- **Cinematic Clarity:** Native 1080P resolution with 4K support ensures sharp visuals and vibrant colors for an immersive experience.
- **Seamless Connectivity:** Features WiFi 6 and Bluetooth 5.4 for stable connections to smartphones, laptops, and external speakers.
- **Built-in Android 13 (Whale OS):** Access over 1,000,000 videos and popular streaming apps like Netflix, Prime Video, and YouTube directly on the device.
- **180° Rotation Projection:** Allows for flexible placement and projection onto ceilings or walls at various angles.

Image: The projector showcasing its auto screen adjustment features, including auto-focus, auto keystone correction, and 50-100% zoom, ensuring a clear and properly aligned image.

Image: The projector projecting a screen filled with various streaming service logos, emphasizing its Netflix licensing and built-in Android 13 operating system with access to over 700 apps.

Image: The projector demonstrating its 180-degree rotation capability, allowing it to project images onto various surfaces, including ceilings, for flexible viewing.

4. Setup

4.1 Initial Placement

Place the projector on a stable, flat surface. Ensure there is sufficient space around the projector for proper ventilation. The 180° rotation feature allows for flexible positioning, including ceiling projection.

4.2 Power Connection

1. Connect the power adapter to the projector's power input port.
2. Plug the power adapter into a wall outlet.
3. Press the power button on the projector or remote control to turn it on.

4.3 Focus and Keystone Correction

The projector features automatic focus and keystone correction. Upon startup or movement, the projector will automatically adjust the image for clarity and correct trapezoidal distortion.

- **Auto Focus:** The projector will automatically sharpen the image.
- **Auto Keystone Correction:** The projector will automatically adjust the image to be rectangular, even if placed at an angle.

- **Obstacle Avoidance:** The projector can detect and adjust the image to avoid obstacles in the projection path.

4.4 Network Connection (Wi-Fi)

1. Navigate to the 'Settings' menu on the projector's interface.
2. Select 'Network' or 'Wi-Fi Settings'.
3. Choose your desired Wi-Fi network from the list.
4. Enter the Wi-Fi password using the on-screen keyboard and remote control.
5. Confirm to connect. The projector supports 2.4G and 5G dual-band Wi-Fi.

4.5 Bluetooth Pairing

The projector supports Bluetooth 5.4 for connecting external audio devices.

1. Go to 'Settings' and select 'Bluetooth'.
2. Turn on Bluetooth on the projector.
3. Put your Bluetooth device (e.g., speaker, headphones) into pairing mode.
4. Select your device from the list of available devices on the projector's screen.
5. Confirm pairing.

5. Operating Instructions

5.1 Navigating the Interface

The projector runs on Android 13 (Whale OS), providing a user-friendly interface.

- Use the remote control's directional buttons to navigate through menus and select options.
- The 'Home' button returns you to the main screen.
- 'Back' button to go to the previous screen.

Image: A hand holding the projector's remote control, with the projector displaying its smart interface featuring various streaming apps like Netflix, Prime Video, and YouTube.

5.2 Using Pre-installed Apps

The projector comes with popular streaming apps pre-installed, including Netflix, Prime Video, and YouTube.

1. From the home screen, select the desired app icon.
2. Log in with your account credentials if prompted.
3. Begin streaming content.

For other apps, you can download them directly from the built-in App Store. If a specific app is not available, please contact customer support.

5.3 Connecting External Devices

The projector supports various input sources.

- **HDMI:** Connect devices like laptops, gaming consoles, or Blu-ray players using an HDMI cable. Select the HDMI input source from the projector's input menu.
- **USB:** Insert a USB drive to play media files (photos, videos, music). Navigate to the 'File Manager' or 'Media Player' app to access content.

5.4 Audio Output

The projector has a built-in speaker. For enhanced audio, you can connect external speakers via Bluetooth (as described in Section 4.5).

6. Maintenance

6.1 Cleaning the Lens

Use a soft, lint-free cloth specifically designed for optical lenses. Do not use abrasive cleaners or harsh chemicals.

6.2 Cleaning the Projector Body

Wipe the exterior with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, followed by a dry cloth.

6.3 Ventilation

Regularly check that the ventilation openings are clear of dust and debris to prevent overheating. Do not obstruct the airflow during operation.

6.4 Storage

When not in use for extended periods, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures. Use the original packaging or a protective case to prevent dust accumulation and damage.

7. Troubleshooting

Problem	Possible Cause	Solution
No power	Power cable not connected; Power outlet faulty	Ensure power cable is securely connected. Try a different power outlet.
No image	Input source incorrect; Lens cap on; Projector in standby	Select correct input source. Remove lens cap. Press power button to wake.
Image blurry	Out of focus; Projector moved	Allow auto-focus to adjust. If manual adjustment is needed, check settings.
Image distorted (trapezoid)	Projector not perpendicular to screen	Allow auto keystone correction to adjust.
No sound	Volume too low; Muted; External speaker not connected	Increase volume. Unmute. Check Bluetooth connection to external speaker.
Wi-Fi connection unstable	Too far from router; Interference	Move projector closer to router. Reduce interference from other devices.
Apps running slow/laggy	Insufficient memory; Network issues	Close background apps. Clear app cache. Check internet speed. Restart projector.

8. Specifications

Feature	Specification
Brand	Alwtniet
Model	B0DLFQKCRP
Display Resolution	Native 1920 x 1080 (Supports 4K)
Brightness	400 ANSI Lumens
Contrast Ratio	10,000:1
Operating System	Android 13 (Whale OS)
Connectivity Technology	Dual Bluetooth (5.4), Wi-Fi (6)
Special Features	Auto Focus, Auto Keystone Correction, Auto Obstacle Avoidance, 180° Rotation
Item Weight	3.98 pounds
Package Dimensions	11.22 x 8.03 x 6.93 inches
