iPormis Floating Full Size Bed Frame with LED Lights & Charging Station User Manual

Model: B0DLFVKYKS

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your iPormis Floating Full Size Bed Frame. Please read this manual thoroughly before assembly and use to ensure safe and correct operation.

IMPORTANT SAFETY INFORMATION

- Ensure all parts are present and undamaged before assembly. Do not use if any parts are missing or broken.
- Assemble the bed frame on a soft, clean surface to prevent scratches.
- Do not overtighten screws during assembly.
- Keep children and pets away from the assembly area.
- Do not exceed the maximum weight capacity of 1000 lbs.
- Only use the bed frame for its intended purpose.
- Disconnect the power cord from the charging station before cleaning or maintenance.

PACKAGE CONTENTS

Before beginning assembly, verify that all components listed below are present. Refer to the included parts list in your package for specific quantities.

Image: All components of the bed frame laid out for assembly.

Typical components include:

- Headboard (Wooden)
- Side Rails (Left and Right)
- Footboard
- Center Support Beam
- Steel Slats
- Support Legs
- LED Light Strips (Under-bed and Headboard)
- Charging Station Unit
- Assembly Hardware (Screws, bolts, nuts, Allen wrench)
- Installation Manual

ASSEMBLY INSTRUCTIONS

Follow these steps carefully for proper assembly. It is recommended to have two people for assembly.

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a soft, clean surface. Compare them with the parts list to ensure everything is present.
2. **Assemble the Headboard:** Attach the headboard sections if they are separate. Ensure the charging station unit is securely installed into the designated slot on the headboard.

Image: Detail of the headboard with integrated charging station and storage space.

3. **Connect Side Rails:** Attach the side rails to the headboard and footboard using the provided hardware. Ensure all connections are firm but do not overtighten. The buckle design facilitates easy connection.

Image: Illustration of the buckle design for easy assembly and Velcro attachment for LED strips.

4. **Install Center Support and Slats:** Place the center support beam and then evenly space and secure the steel slats across the frame. The EVA material on the slats helps prevent noise.

Exquisite Wood Texture

Metal Structure & EVA Foam

Reinforced Diagonal Structure

Image: Detail of the metal frame, EVA foam for noise reduction, and reinforced diagonal structure.

5. **Attach LED Light Strips:** Secure the LED light strips using the integrated Velcro. One strip is for under the bed (21.6 ft) and two shorter strips are for behind the headboard (6 ft total). Ensure they are firmly attached to prevent sagging.

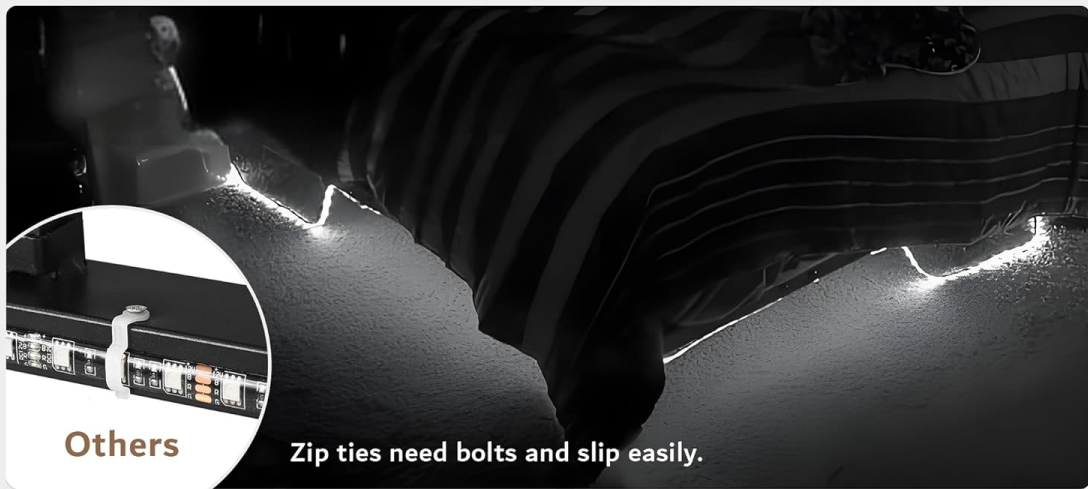

Image: Demonstrates the secure Velcro attachment method for LED strips, preventing common issues with zip ties.

- 6. Final Check:** Verify all connections are secure and the frame is stable. Ensure the protective foot pads are correctly installed to prevent floor scratches.

OPERATING INSTRUCTIONS

LED Lights

The integrated LED lights offer customizable ambiance for your bedroom. They can be controlled via a smartphone application or the included remote control.

Floating Bed Frame with RGB LED Lights

APP Control

Over 60000 Colors

Music Mode

Mic Mode

Timing Function

Self-Choice Light Function

Remote Control

Image: Overview of the bed frame with illuminated LED lights and icons representing APP control, over 60,000 colors, music mode, mic mode, timing function, and self-choice light function.

- **APP Control:** Download the designated smartphone application (refer to the QR code in the separate LED light manual or packaging). Connect your device via Bluetooth to access over 60,000 color options, music synchronization mode, microphone mode, and timer functions.
- **Remote Control:** Use the provided remote control to adjust colors, brightness, and select various lighting modes.
- **Power On/Off:** Use the remote or app to turn the LED lights on or off.
- **Modes:** Explore various modes such as static colors, dynamic color changes, music sync, and custom light patterns.
- **Timer Function:** Set a timer for the lights to automatically turn off at a desired time.

Charging Station

The headboard features a built-in charging station for convenience.

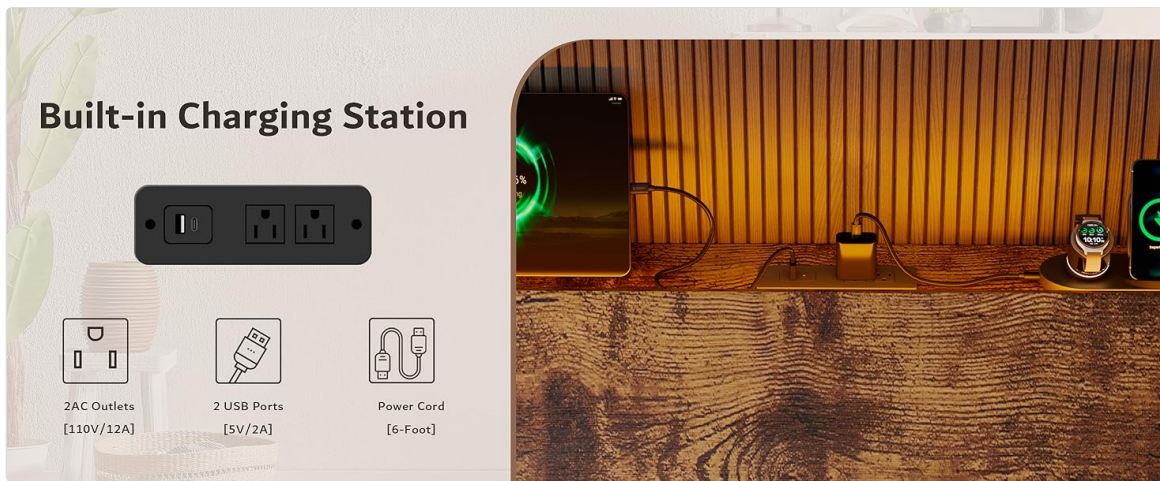

Image: Detail of the charging station, showing two AC outlets (110V/12A) and two USB ports (5V/2A) with a 6-foot power cord.

- **AC Outlets:** Two standard 110V/12A AC outlets are available for powering devices such as lamps or laptops.
- **USB Ports:** Two 5V/2A USB ports are provided for charging smartphones, tablets, and other USB-powered devices.
- **Power Connection:** Ensure the charging station's power cord is securely plugged into a wall outlet.

MAINTENANCE

- **Cleaning:** Wipe the wooden and metal surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **LED Lights:** Gently wipe the LED strips with a dry cloth. Do not use liquids directly on the lights.
- **Charging Station:** Keep the charging ports free of dust and debris. Do not spill liquids on the charging station.
- **Hardware Check:** Periodically check all screws and bolts to ensure they remain tight. Retighten if necessary to maintain stability and prevent noise.
- **Slats:** Ensure slats are properly seated and not damaged. Replace any damaged slats immediately.

TROUBLESHOOTING

Problem	Possible Cause	Solution
LED lights not working	<ul style="list-style-type: none"> • Power cord disconnected • Remote control battery low/dead • APP connection issue • LED strip loose or damaged 	<ul style="list-style-type: none"> • Ensure power cord is securely plugged in. • Replace remote control battery. • Restart APP and re-establish Bluetooth connection. • Check LED strip connections and ensure they are firmly attached with Velcro.
Charging station not working	<ul style="list-style-type: none"> • Power cord disconnected • Device not properly connected • Overload 	<ul style="list-style-type: none"> • Ensure the charging station's power cord is securely plugged into a wall outlet. • Verify devices are correctly plugged into AC outlets or USB ports. • Unplug some devices to check for overload.
Bed frame is noisy or unstable	<ul style="list-style-type: none"> • Loose hardware • Slats not properly seated • Uneven floor 	<ul style="list-style-type: none"> • Retighten all screws and bolts. • Ensure all steel slats are correctly positioned and secured. • Move the bed to a level surface or use shims under the legs if the floor is uneven.
LED strips detaching	<ul style="list-style-type: none"> • Improper initial attachment • Adhesive weakening 	<ul style="list-style-type: none"> • Ensure the Velcro on the LED strips is pressed firmly against the bed frame during installation. • If the Velcro adhesive weakens over time, consider reinforcing with additional strong adhesive Velcro strips.
