## Belife BVC

# Belife Vacuum Charger User Manual

Model: BVC Series Charger

## 1. IMPORTANT SAFETY INFORMATION

Please read all safety instructions carefully before using the Belife Vacuum Charger. Retain this manual for future reference.

- Use only the original Belife charger provided with your vacuum cleaner. Using incompatible chargers may damage the device or pose a safety risk.
- Do not expose the charger to water or moisture.
- Do not disassemble, modify, or attempt to repair the charger. Contact authorized service personnel for repairs.
- Keep the charger away from heat sources and direct sunlight.
- Ensure the power outlet voltage matches the charger's specifications (100-240V).
- Unplug the charger from the power outlet when not in use or before cleaning.
- This charger complies with CE, FCC, RoHS, and UL standards for safe and dependable use.

## 2. PRODUCT OVERVIEW

The Belife Vacuum Charger is an original replacement power adapter specifically designed for Belife BVC Series cordless vacuum cleaners. It provides reliable and efficient charging for your vacuum.

### 2.1 Package Contents

- 1 x Belife BVC11 & BVC12 Vacuum Cleaner Charger

### 2.2 Compatibility

This charger is exclusively compatible with the following Belife cordless vacuum cleaner models:

- Belife BVC11
- Belife BVC12
- Belife BVC11A
- Belife BVC11B

- Belife BVC11C
- Belife BVC11P
- Belife BVC-11

*Note: Please use only the Belife original charger. Other vacuum adapters may not be compatible and could cause damage.*

## For BVC11 / BVC12

### Cordless Vacuum Cleaners

Image 3: Depicts the Belife BVC11 and BVC12 cordless vacuum cleaners in use, with an inset showing the charger, illustrating its role in powering these specific models.

### 3. SETUP INSTRUCTIONS

1. **Unpack the Charger:** Carefully remove the Belife Vacuum Charger from its packaging.
2. **Locate Charging Port:** Identify the charging port on your Belife BVC series cordless vacuum cleaner. This is typically located on the battery pack or the main body of the vacuum.
3. **Connect Charger to Vacuum:** Insert the proprietary connector of the charger cable firmly into the charging port of your vacuum cleaner.
4. **Plug into Power Outlet:** Plug the charger's AC adapter into a standard wall power outlet (100-240V, 50/60Hz).
5. **Verify Connection:** Ensure both connections are secure. The vacuum cleaner's charging indicator (if present) should illuminate, indicating that charging has begun.

### 4. OPERATING INSTRUCTIONS

Once set up, the Belife Vacuum Charger operates automatically to charge your vacuum's battery.

- **Charging Process:** The charger will deliver a stable 31V 500mA output to efficiently charge your vacuum's battery.
- **Charging Time:** Refer to your specific Belife BVC series vacuum cleaner's manual for estimated charging times.
- **Charging Indicators:** Monitor the charging indicator lights on your vacuum cleaner to determine the charging status (e.g., charging, fully charged).
- **Overcharge Protection:** The charger is designed with safety features to prevent overcharging, ensuring battery longevity.
- **Disconnecting:** Once the vacuum is fully charged, unplug the charger from the wall outlet first, then disconnect the cable from the vacuum cleaner.

## 5. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Belife Vacuum Charger.

- **Cleaning:** Disconnect the charger from the power outlet before cleaning. Wipe the charger's exterior with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use for extended periods, store the charger in a cool, dry place, away from direct sunlight and moisture. Avoid wrapping the cable too tightly around the adapter.
- **Cable Care:** Regularly inspect the charger cable for any signs of damage, such as fraying or cuts. If damage is observed, discontinue use and replace the charger.

## 6. TROUBLESHOOTING

If you encounter issues with your Belife Vacuum Charger, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Vacuum not charging.	Charger not properly connected. Power outlet not active. Incompatible charger being used. Damaged charger or cable.	Ensure the charger is securely plugged into both the vacuum and the wall outlet. Test the power outlet with another device. Verify that you are using the original Belife charger for BVC series vacuums. Inspect the charger and cable for visible damage. If damaged, replace the charger.
Slow charging.	Voltage fluctuation. Vacuum battery issue.	Ensure the power outlet provides stable voltage. If the issue persists, consult your vacuum cleaner's manual or contact Belife support regarding battery health.
Charger feels hot during use.	Normal operation. Poor ventilation.	A slight warmth is normal during charging. Ensure the charger is placed in a well-ventilated area and not covered. If it becomes excessively hot, unplug it immediately and contact support.

## 7. SPECIFICATIONS

Feature	Detail
Model Number	BVC Series Charger
Input Voltage	AC 100-240V, 50/60Hz
Output Voltage/Current	DC 31V, 500mA
Compatibility	Belife BVC11, BVC12, BVC11A, BVC11B, BVC11C, BVC11P, BVC-11 Cordless Vacuums
Material	Plastic
Color	Black
Connector Type	Proprietary
Item Weight	2.89 ounces (approx. 82 grams)
Package Dimensions	3.7 x 2.6 x 1.93 inches (approx. 9.4 x 6.6 x 4.9 cm)
Certifications	CE, FCC, RoHS, UL

## 8. WARRANTY AND SUPPORT

Belife products are manufactured to high-quality standards. For information regarding warranty coverage and terms, please refer to the warranty card included with your original vacuum cleaner purchase or visit the official Belife website.
