

DUDUPET CL01

DUDUPET CL01 Automatic Cat Litter Deodorizer Blocks and Trash Bags Set

Model: CL01

1. INTRODUCTION

This manual provides instructions for the DUDUPET CL01 Automatic Cat Litter Deodorizer Blocks and Trash Bags Set. This product is designed to absorb odors and maintain fresh air in your cat's litter area. Its compact size allows for versatile placement in various locations. The special porous structure ensures effective deodorization. As a disposable product, it offers a hygienic and convenient solution for odor control.

2. COMPONENTS

The DUDUPET CL01 set typically includes:

- Deodorizer Blocks (quantity as specified in packaging, e.g., 3 blocks)
- Trash Bags (quantity as specified in packaging, e.g., 3 rolls)

Image: Three rolls of the DUDUPET CL01 deodorizer blocks or trash bags, packaged in white with blue accents, indicating their compact and ready-to-use form.

3. SETUP

3.1 Deodorizer Blocks

1. Unpack the deodorizer block from its protective wrapping.
2. Place the block in the designated compartment of your automatic cat litter box, if available.
3. If no specific compartment exists, place the block near the litter box in a well-ventilated area, ensuring it is out of reach of pets to prevent ingestion.

3.2 Trash Bags

1. Locate the trash bag dispenser or waste collection bin in your automatic cat litter system.
2. Insert a roll of DUDUPET CL01 trash bags into the dispenser according to your litter box's instructions.
3. Pull the first bag through the opening and secure it as directed by your litter box manufacturer.

4. OPERATING INSTRUCTIONS

4.1 Deodorizer Blocks

The deodorizer blocks work continuously to absorb odors. No specific operation is required after placement. Ensure the block is not obstructed to allow for proper air circulation and odor absorption.

4.2 Trash Bags

The trash bags are designed for convenient waste disposal from your automatic cat litter box. When the waste bin is full, follow your litter box's instructions to seal and remove the used bag. Pull a new bag into position for continued use.

5. MAINTENANCE

5.1 Deodorizer Block Replacement

Each deodorizer block is effective for approximately 2 weeks. Replace the block when you notice a decrease in odor absorption or after the recommended usage period. Dispose of used blocks according to local waste disposal regulations.

5.2 Trash Bag Replacement

Replace the trash bag roll when it is empty. Ensure the new roll is properly installed to prevent leaks and maintain hygiene.

6. TROUBLESHOOTING

6.1 Odor Persistence

- **Check Deodorizer Block Age:** Ensure the deodorizer block has not exceeded its 2-week effective period. Replace if necessary.
- **Placement:** Verify the block is placed in an optimal location for odor absorption, ideally near the source of the odor.
- **Litter Box Cleanliness:** Regular cleaning of the litter box itself is crucial for overall odor control.

6.2 Trash Bag Issues

- **Improper Installation:** Ensure the trash bag roll is correctly installed in the litter box's waste compartment.
- **Tears or Leaks:** If bags are tearing, check for sharp edges in the litter box's waste bin or ensure bags are not overfilled.

7. SPECIFICATIONS

Product Model Number	DUDUPET CL01
Brand	DUDUPET
Color	Black
Material	Plastic
Special Use	Deodorization
Product Dimensions	33 cm (Length) x 20 cm (Width) x 45 cm (Height)
