Setup

1. Charging the Device

1. Connect the provided USB-C charging cable to the charging port on the massager.
2. Plug the other end of the USB-C cable into a compatible USB power adapter (not included) or a computer USB port.
3. The LED indicator will show charging status. Allow the device to fully charge before first use.

2. Attaching the Massager to Your Knee

1. Position the massager over your knee, ensuring the central massage area is aligned with your kneecap.
2. Wrap the adjustable Velcro straps around your leg, securing them firmly but comfortably. Ensure the device is snug against your knee for optimal contact.

Operating Instructions

1. Power On/Off

- Press and hold the Power button () on the LED touch screen for 2-3 seconds to turn the device ON or OFF.

2. Selecting Vibration Modes

- Once powered on, the device defaults to an automatic vibration mode.
- Tap the Vibration button (≋) to cycle through the available modes: Auto, Low, High.
- Choose the intensity that best suits your comfort level.

4. Automatic Shut-off

- The device is equipped with a 10-minute automatic shut-off timer for safety and convenience. After 10 minutes, the massager will automatically turn off.

Maintenance

Cleaning

- Ensure the device is turned off and unplugged before cleaning.
- Wipe the surface of the massager with a soft, damp cloth. Do not use abrasive cleaners or immerse the device in water.
- Allow the device to air dry completely before storing or next use.

Storage

- Store the massager in a cool, dry place away from direct sunlight and extreme temperatures.
- Keep the device away from sharp objects to prevent damage.

Troubleshooting Guide

Use Failure	The Reason	Solution
Product cannot work normally	The product has just completed a 10-minute timer massage and automatically switches to standby	Please press the power switch again to restart
Product cannot work normally	Too long use time causes the product to overheat and automatically cut off the power	If the device has run for 60 mins, turn back on after resting the unit for 15 mins.
Product does not heat	When used outside the recommended ambient temperature range, the heating effect is not obvious	Recommended for use at an ambient temperature of 15-35 degrees Celsius
Product abnormal sound	This sound is caused by the mechanical structure of the product.	This sound is normal and does not mean that the product function is malfunctioning
Stop during operation	The battery is exhausted	Connect the charging cable to charge
Stop during operation	The device will switch off when the timer runs out.	Continue using by pressing the On/Off button

Table: Troubleshooting guide for common issues with the Snailax Knee Massager.

Specifications
