MAINTENANCE

To ensure the longevity and optimal performance of your NUU N30, follow these maintenance guidelines:

- Keep the device clean using a soft, dry cloth. Avoid abrasive materials or harsh chemicals.
- Protect the screen with the included TPU case and consider a screen protector to prevent scratches.
- Avoid exposing the phone to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.
- Regularly clear cache and unnecessary files to maintain system performance.
- Ensure software updates are installed to benefit from the latest security patches and features.

TROUBLESHOOTING

If you encounter issues with your NUU N30, consider the following basic troubleshooting steps:

- **Device Not Responding:** Press and hold the power button for about 10-15 seconds to force a restart.

- **Network Connectivity Issues:**

- Check if your SIM card is properly inserted.
- Toggle Airplane Mode on and off.
- Verify your carrier settings (APN settings) are correct.
- Ensure you are within your carrier's supported network area.

- **Battery Draining Quickly:**

- Reduce screen brightness.
- Close unused applications running in the background.
- Disable Wi-Fi, Bluetooth, or GPS when not in use.

- **App Issues:** If an app is crashing or not responding, try clearing its cache and data in the phone's settings, or uninstall and reinstall the app.

For more complex issues, refer to the official NUU Mobile support resources or contact customer service.
