ZYWELL ZM04WD

ZYWELL ZM04WD Thermal Printer User Manual

Model: ZM04WD | Brand: ZYWELL

1. INTRODUCTION

This manual provides comprehensive instructions for the operation and maintenance of your ZYWELL ZM04WD Thermal Printer. Please read this manual thoroughly before using the device to ensure proper functionality and longevity.

The ZM04WD is a versatile thermal printer designed for both receipt and label printing. It supports linerless printing, offering an efficient and environmentally friendly solution for various business needs.

Figure 1: ZYWELL ZM04WD Thermal Printer overview.

2. SETUP AND INITIAL USE

2.1. Unpacking and Components

Before starting, ensure all components are present:

- ZYWELL ZM04WD Printer Unit
- USB Cable
- Power Adapter
- Thermal Paper Roll (Labels)
- User Manual (this document)

2.2. Loading Paper

Follow these steps to load the thermal paper roll:

1. Press the orange "Open" key on the side of the printer to open the cover.
2. Push the orange paper separators in the cabin to the sides.

3. Place the ends of the paper roll against the center tab of the separator. Ensure the paper feeds smoothly from the top.
4. Pull a small length of paper out past the print head.
5. Close the cover firmly until it clicks into place.

2.3. Powering On and Connectivity

To power on the printer, press and hold the power button until you hear a "deep" sound. The printer supports both Bluetooth and USB connectivity.

- **Bluetooth Connectivity:** For iOS devices, download the "EMLABEL" software to connect via Bluetooth. USB connection is not supported for iPad and iPhone.
- **USB Connectivity:** Compatible with Android, ChromeOS, Linux, Windows, and Mac operating systems.

Bluetooth and USB connectivity

USB not supports iPad or iPhone

**Android**
**iOS**

(**iOS** requires downloading **EML** to connect to printers via **Bluetooth**)

**ChromeOS**
**Linux**
**Windows**
**Mac**

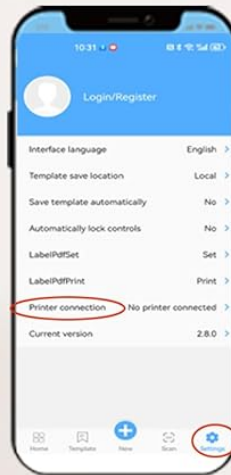

Figure 4: Illustrates the Bluetooth and USB connectivity options for the ZM04WD printer, showing compatibility with various operating systems.

Steps

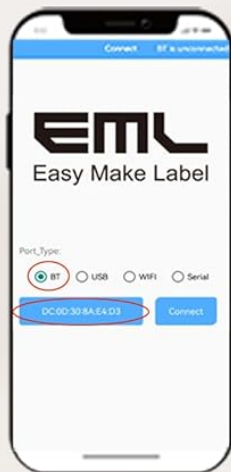

1

Open EMLabel and
Select print mode.

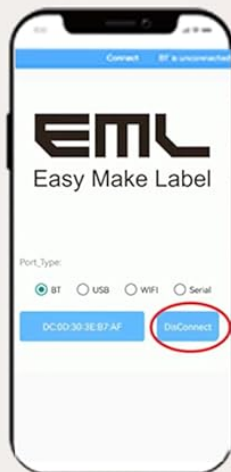

2

Click "Settings",
Click "Printer connection"
Click "BT"

3

Choose address "printer001"
Click "Connect" and enter the
password "0000"

4

After successful
connection, "connect" will
turn into "disconnect"

USB

Open BT

3. OPERATING INSTRUCTIONS

3.1. Mode Selection

The ZM04WD supports different command modes for various printing tasks:

- **Receipt Mode:** "ESC" command mode.

- **Label Mode:** "TSPL" command mode.
- **Face Sheet Mode:** "CPCL" command mode.

To select the command mode:

1. Press the "Set" key once to enter the Set page.
2. Navigate through the options using the "Set" key until "Command Mode" is displayed.
3. Press the "Feed" button to enter the detailed page for Command Mode.
4. Use the "Set" key to cycle through "ESC", "CPCL", and "TSPL".
5. Press the "Feed" button to confirm your selection. The printer will automatically exit the selection page after two seconds.

Important: *Selecting the wrong command mode will prevent printing.*

Video 2: Guide on how to select the appropriate print mode (ESC, TSPL, CPCL) on the ZM04WD printer's display panel (0:23-0:43 in the source video).

3.2. Paper Type and Width Selection

The ZM04WD can be configured for different paper types and widths, especially for receipt printing.

1. From the Set page, navigate to "LabelPaperType".
2. Press the "Feed" button to enter the detailed page.
3. Use the "Set" key to select the desired label paper type (e.g., "NoBottom Paper" for linerless).
4. Press the "Feed" button to confirm.
5. For receipt paper, select "Paper 58mm" or "Paper 80mm" as needed.
6. Then, press the "Set" button to select "NO/YES" for the paper width setting.
7. Press the "Feed" button to confirm the selection.

4. MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your ZM04WD printer.

4.1. Cleaning the Print Head

The print head should be cleaned regularly to prevent print quality issues. Use a lint-free cloth lightly dampened with

isopropyl alcohol. Gently wipe the print head surface. Allow to dry completely before use.

4.2. Battery Care

The printer is equipped with a Lithium Ion battery. To maximize battery life:

- Avoid fully discharging the battery frequently.
- Store the printer in a cool, dry place when not in use for extended periods.
- Charge the battery regularly, even if not in constant use.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Printer not printing	Incorrect command mode selected.	Ensure the correct command mode (ESC, TSPL, CPCL) is selected for your printing task. Refer to Section 3.1.
No paper feed	Paper not loaded correctly or out of paper.	Reload paper according to Section 2.2. Ensure the paper is pulled out smoothly.
Poor print quality	Dirty print head or low battery.	Clean the print head (Section 4.1). Charge the printer battery.
Cannot connect via Bluetooth (iOS)	EMLABEL software not used or USB connection attempted.	For iOS, Bluetooth connection requires the EMLABEL software. USB is not supported for iOS devices. Refer to Section 2.3.

6. PRODUCT SPECIFICATIONS

- **Model:** ZM04WD
- **Brand:** ZYWELL
- **Connectivity Technology:** Bluetooth, USB
- **Printing Technology:** Thermal
