CyeeLife Dart Throw Line Instruction Manual

Model: 10106109

1. INTRODUCTION

This manual provides instructions for the proper installation, use, and maintenance of your CyeeLife Dart Throw Line. Please read this manual thoroughly before installation to ensure correct setup and optimal performance.

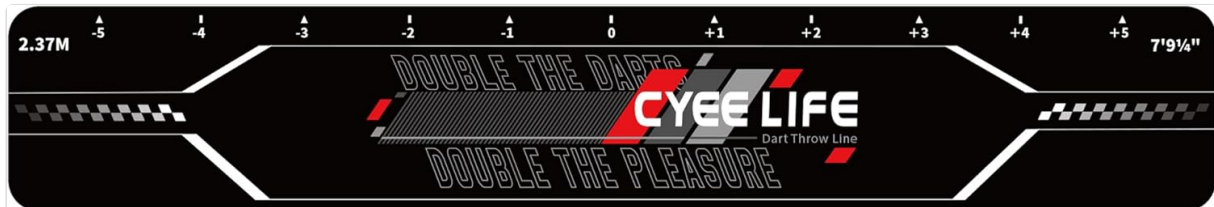

Image 1.1: The CyeeLife Dart Throw Line, designed to mark the correct throwing distance for dart games.

2. SAFETY INFORMATION

- Ensure the floor surface is clean and dry before application to prevent slipping hazards.
- Keep the product out of reach of small children to prevent accidental ingestion of small parts or adhesive.
- Do not use the dart throw line on uneven or damaged surfaces, as this may affect adhesion and stability.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x CyeeLife Dart Throw Line (Model: 10106109)

4. SETUP AND INSTALLATION

Follow these steps to properly install your dart throw line:

1. **Prepare the Surface:** Ensure the floor where the dart line will be placed is clean, dry, and free of dust, debris, or oils. This will ensure optimal adhesion.
2. **Unroll and Flatten:** The dart throw line is typically shipped rolled. To ensure it lays flat for proper adhesion, unroll it and place heavy, flat objects (like books) on top for several hours or overnight.

This will help remove any curling.

- Measure Throwing Distance:** The standard throwing distance for darts is 7 feet 9¼ inches (2.37 meters) from the face of the dartboard to the front edge of the throw line. Mark this distance on your floor.
- Position the Line:** Carefully align the CyeeLife Dart Throw Line with your measured mark. The "0" mark on the line should correspond to the standard throwing distance. Ensure the line is centered with the dartboard.

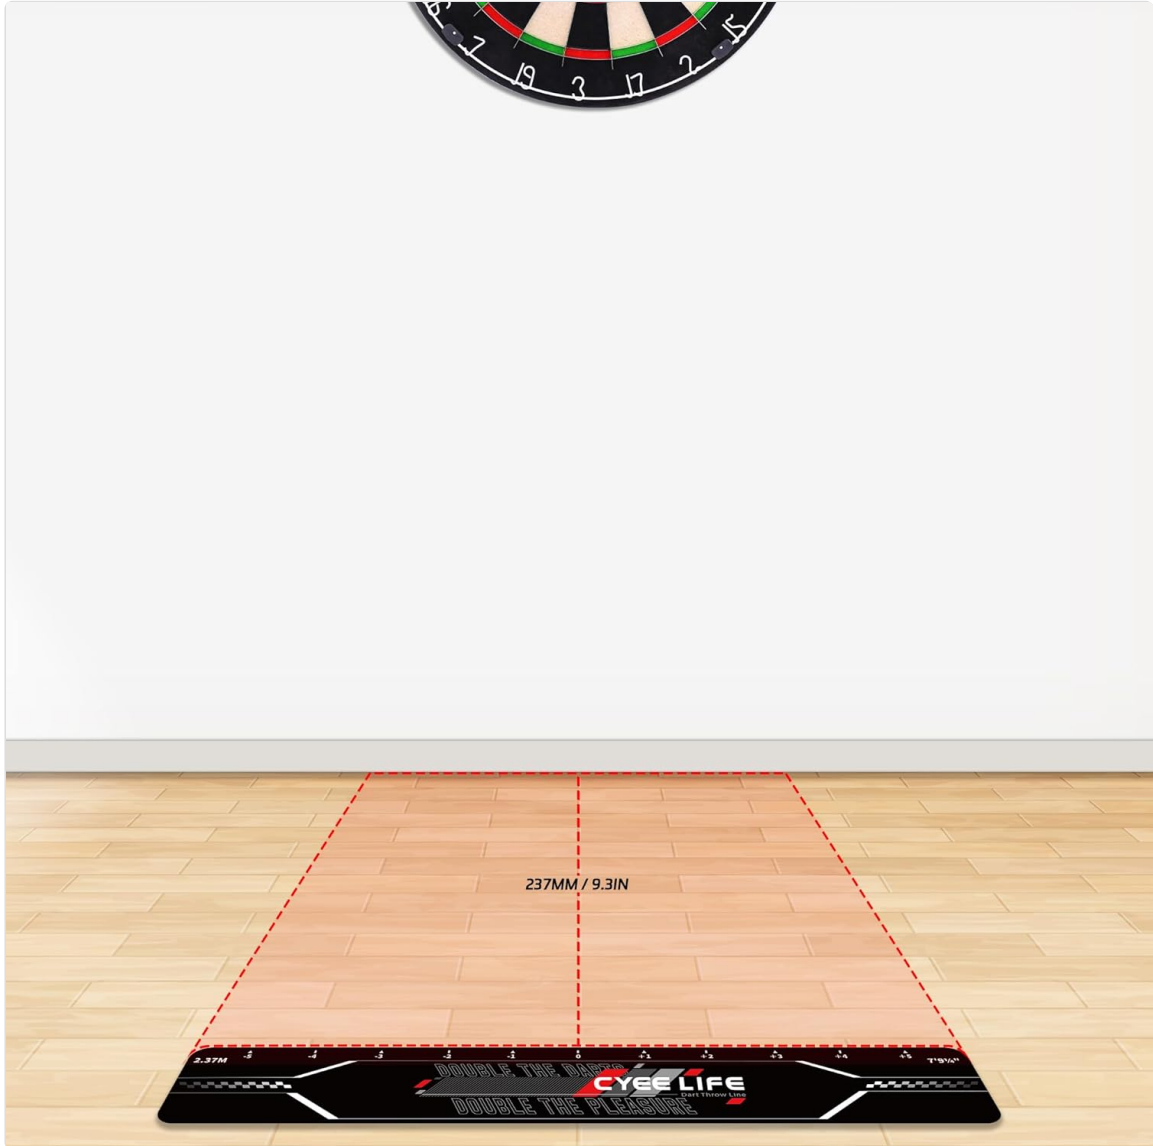

Image 4.1: Proper placement of the dart throw line relative to the dartboard.

- Apply the Adhesive:** Once positioned correctly, carefully peel off the protective backing from the adhesive side of the dart throw line. Start from one end and slowly press the line onto the floor, smoothing it out to avoid air bubbles.

Image 4.2: Peeling the adhesive backing for application.

6. **Secure Adhesion:** After applying, firmly press along the entire length of the dart throw line to ensure strong adhesion to the floor surface.

5. OPERATING INSTRUCTIONS

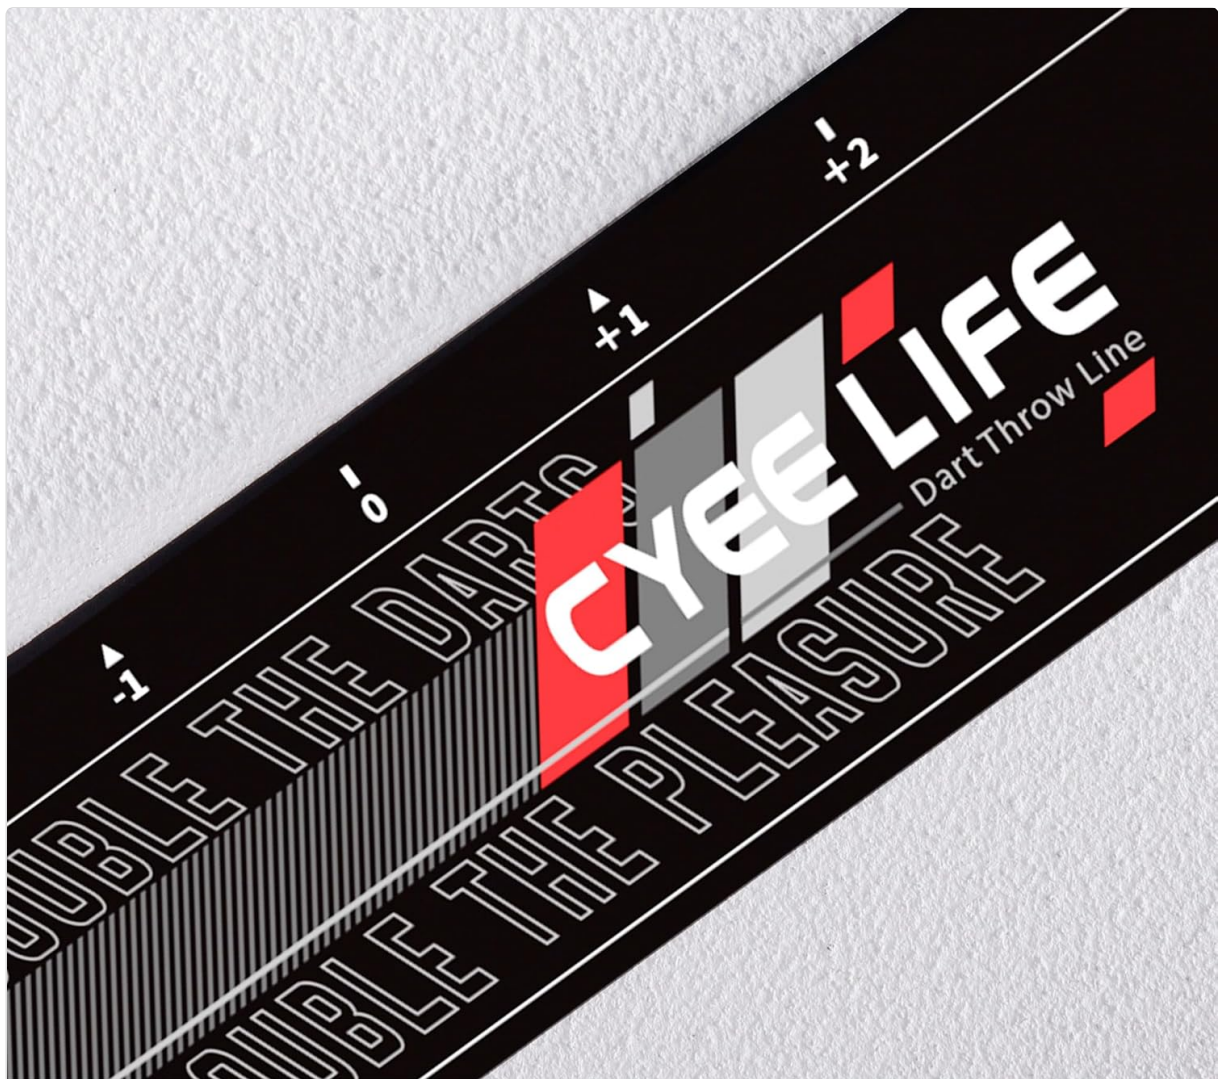

The Cyeelife Dart Throw Line serves as a clear visual marker for the correct throwing distance in darts. Players should stand with their feet behind the designated throw line when releasing darts towards the dartboard.

Image 5.1: Dart throw line in a typical usage environment.

6. MAINTENANCE AND CARE

- **Cleaning:** The Polyvinyl Chloride (PVC) material allows for easy cleaning. Wipe the surface with a damp cloth and mild soap if necessary. Avoid abrasive cleaners that may damage the surface or graphics.
- **Storage:** If the dart throw line needs to be removed and stored, carefully peel it off the surface. While the adhesive is strong, repeated removal and reapplication may reduce its effectiveness. Store it rolled up in its original packaging or a similar cylindrical container to prevent creasing.
- **Durability:** The durable construction is designed to withstand regular foot traffic. However, avoid dragging heavy objects across the line to prevent damage.

Made of high-quality materials, easy to clean and use, durable
aus hochwertigen Materialien, leicht zu reinigen und zu verwenden, langlebig

7. TROUBLESHOOTING

- **Issue:** The dart throw line is not laying flat or has bubbles after application.
Solution: This often occurs if the line was not flattened sufficiently before application or if it was applied too quickly. Carefully lift the affected section, smooth out any air bubbles, and reapply slowly. For future installations, ensure the line is completely flat before peeling the adhesive backing.
- **Issue:** The adhesive is not sticking well to the floor.
Solution: Ensure the floor surface was thoroughly cleaned and dried before application. Dirt, dust, or moisture can prevent proper adhesion. If the surface is textured or porous, the adhesive may not bond as effectively. Consider using a stronger adhesive spray if the surface is suitable.
- **Issue:** The line is shifting during gameplay.
Solution: This indicates insufficient adhesion. Re-press the entire line firmly onto the floor. If the issue persists, the floor surface might be incompatible with the adhesive, or the adhesive may have lost its effectiveness due to repeated movement or an unclean surface.

8. SPECIFICATIONS

Brand	Cyeelife
Model Name	Dart Throw Line
Model Number	10106109
Material	Polyvinyl Chloride (PVC)
Color	Black/Red
Dimensions (L x W)	59.5 cm x 10 cm (23.4 inches x 3.9 inches)
Item Weight	0.1 Kilograms
Included Components	Dart Throw Line Mat

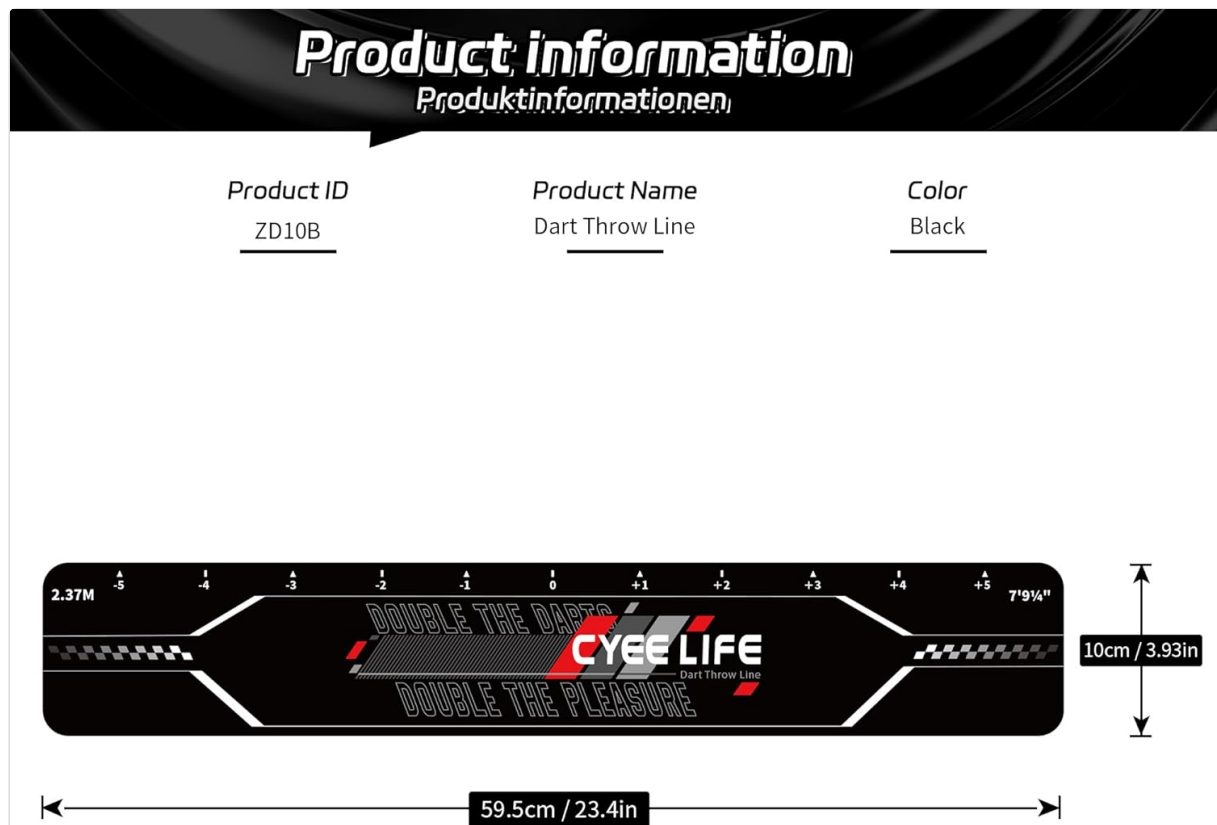

Image 8.1: Product dimensions and key information.

9. WARRANTY AND SUPPORT

The Cyeelife Dart Throw Line comes with a **3-year return and exchange package**. For warranty claims or technical support, please contact your retailer or visit the official Cyeelife website for customer service information.

For further assistance, please refer to the contact information provided with your purchase or on the product packaging.
