RCCFBHM RCCFBHM

RCCFBHM Modern Minimalist Bathroom Medicine Cabinet with Mirror

User Manual

1. Product Overview

Thank you for choosing the RCCFBHM Modern Minimalist Bathroom Medicine Cabinet. This wall-mounted storage solution is designed to enhance the functionality and aesthetics of your bathroom, living room, or entryway. It features a sleek design, ample storage with 8 shelves, adjustable hinges, and a built-in mirror for daily convenience.

2. Safety Information

Please read all instructions carefully before assembly and installation. Failure to follow these instructions may result in injury or damage to the product or property.

- Always use appropriate tools and safety equipment during installation.
- Ensure the mounting surface is structurally sound and capable of supporting the cabinet's weight, including its contents.
- Do not overload the shelves. Distribute weight evenly.
- Keep small parts away from children during assembly to prevent choking hazards.
- If any parts are missing or damaged, do not proceed with assembly. Contact customer support.

3. Package Contents

Verify that all components are present before beginning assembly.

- Medicine Cabinet Unit
- Screw Pack (Hardware for assembly and mounting)
- Instruction Manual (This document)

4. Specifications

Feature	Detail
Brand	RCCFBHM
Model Number	RCCFBHM

5. Installation Guide

5.1. Tools Required (Not Included)

- Pencil
- Measuring Tape
- Drill
- Drill Bits (appropriate for wall material and anchors)
- Level
- Screwdriver (Phillips head recommended)

5.2. Choosing a Location

Select a wall location that is clear of electrical wires, plumbing, and other obstructions. Ensure the wall material can support the weight of the cabinet and its contents. Use a stud finder if mounting to wall studs is desired for maximum stability.

5.3. Mounting the Cabinet

1. **Measure and Mark:** Hold the cabinet against the wall at the desired height and use a level to ensure it is straight. Mark the locations for the mounting screws on the wall. Refer to the cabinet's pre-drilled mounting holes.
2. **Drill Pilot Holes:** Using an appropriate drill bit for your wall type (e.g., smaller bit for studs, larger for drywall anchors), drill pilot holes at the marked locations. Insert wall anchors if required.
3. **Secure Cabinet:** Align the cabinet's mounting holes with the drilled holes/anchors. Insert the mounting screws (from the screw pack) and tighten them securely. Do not overtighten.

5.4. Adjusting Hinges

The cabinet door features adjustable hinges. If the door is not perfectly aligned or does not close smoothly, you can adjust the screws on the hinges to fine-tune its position (up/down, left/right, in/out). Make small adjustments and test the door's movement until desired alignment is achieved.

6. Operation and Usage

This medicine cabinet is designed for convenient storage and daily use.

- **Storage:** Utilize the 8 internal shelves to organize toiletries, cosmetics, medications, and other bathroom

essentials. Distribute items evenly to maintain balance.

- **Mirror:** The integrated mirror on the door provides a convenient surface for grooming and daily routines.
- **Versatility:** While ideal for bathrooms, this cabinet can also serve as additional storage in living rooms, bedrooms, or entryways.

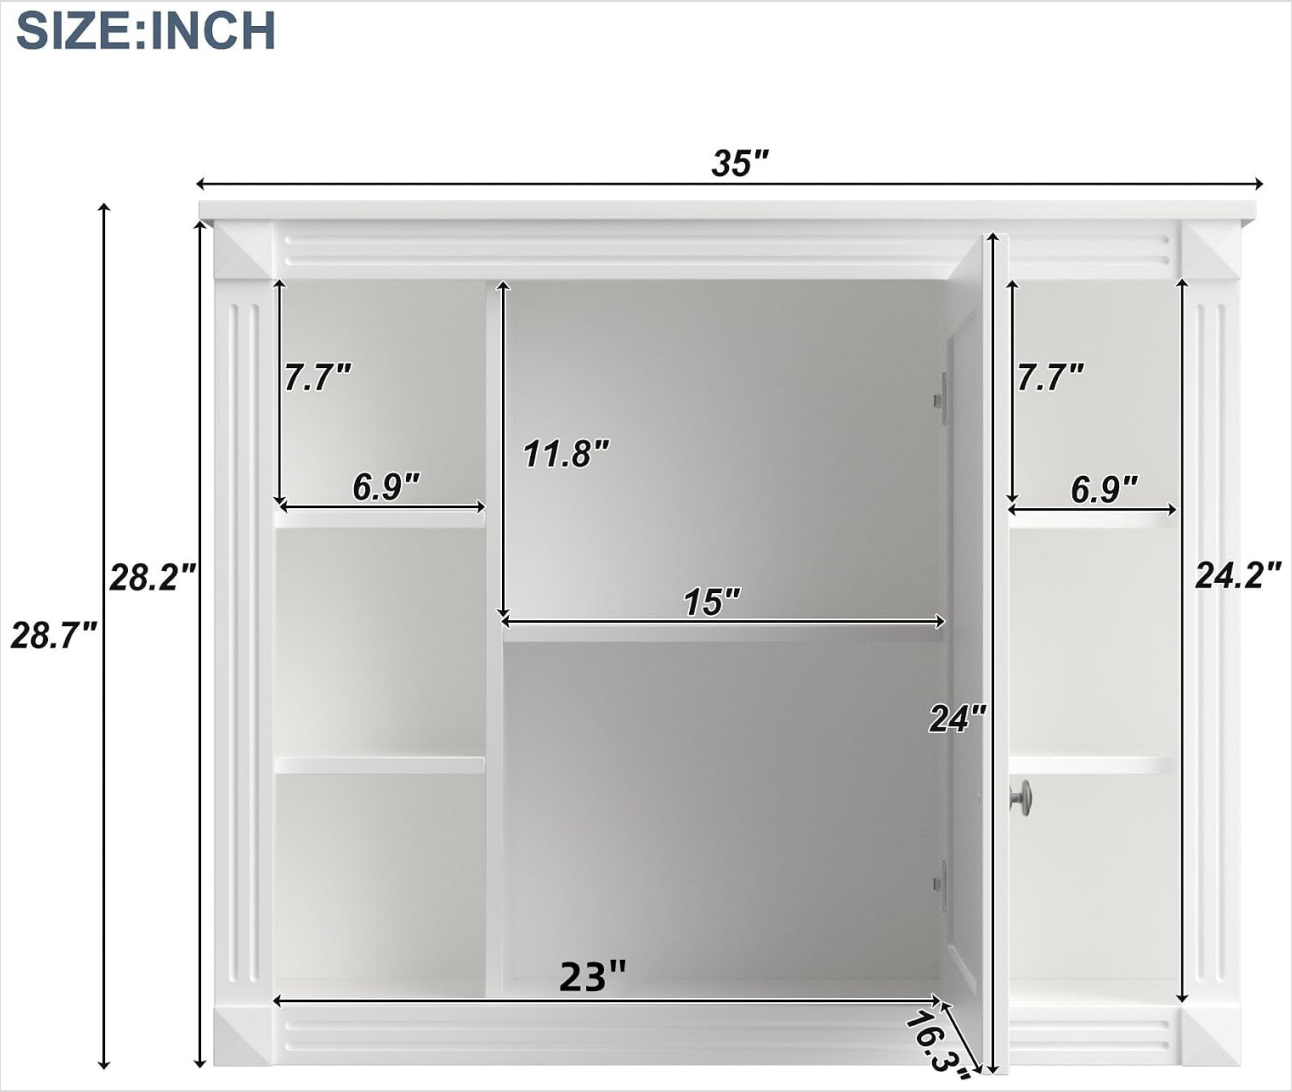

Image 6.1: The medicine cabinet in use, with various items neatly stored on its shelves, demonstrating its storage capacity.

7. Maintenance and Care

- **Cleaning the Cabinet:** Wipe the cabinet surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, as they may damage the finish.
- **Cleaning the Mirror:** Use a standard glass cleaner and a soft, lint-free cloth to clean the mirror. Spray cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into edges.
- **Hinge Maintenance:** Periodically check the hinge screws for tightness. Tighten if necessary to ensure smooth door operation.
- **Water Exposure:** Although the cabinet is waterproof, wipe away any standing water promptly to prolong its lifespan.

8. Troubleshooting

8.1. Door Not Closing Properly / Misaligned

- **Solution:** Adjust the screws on the hinges. Small adjustments can correct door alignment. Refer to Section

5.4.

8.2. Cabinet Feels Loose on Wall

- **Solution:** Check the mounting screws and tighten them. Ensure the wall anchors (if used) are secure. If the issue persists, consider reinforcing the mounting area or relocating the cabinet to a stud.

8.3. Scratches on Mirror

- **Solution:** Minor scratches may be reduced with specialized mirror scratch repair kits. For significant damage, consider professional repair or replacement.

9. Warranty and Support

For warranty information, product support, or to order replacement parts, please refer to the documentation included with your purchase or visit the official RCCFBHM website. Please have your model number (RCCFBHM) and purchase date available when contacting support.
