1. IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using your Totnz Ice Maker. Retain this manual for future reference.

- **Electrical Safety:** Ensure the appliance is connected to a properly grounded outlet. Do not operate with a damaged cord or plug.
- **Water Quality:** Use potable water only.
- **Placement:** Place the ice maker on a stable, level surface away from direct sunlight and heat sources. Ensure adequate ventilation around the unit.
- **Cleaning:** Always unplug the unit before cleaning. Do not immerse the appliance in water.
- **Children:** This appliance is not intended for use by children. Supervise children to ensure they do not play with the appliance.
- **Maintenance:** Do not attempt to repair or replace any part of your ice maker unless specifically recommended in this manual. All other servicing should be referred to a qualified technician.
- **Refrigerant:** This appliance contains R600a refrigerant. Do not puncture the refrigerant tubing.

2. PRODUCT OVERVIEW

2.1 Components

- **Ice Maker Unit:** The main appliance housing the compressor, condenser, and water reservoir.
- **Ice Basket:** Removable basket to collect produced ice cubes.
- **Ice Scoop:** For convenient serving of ice.
- **Transparent Lid:** Allows monitoring of ice production without opening.

- **Control Panel:** Intuitive buttons and indicator lights for operation.
- **Water Reservoir:** Located at the bottom, holds water for ice production.

2.2 Key Features

- **Fast Ice Production:** Produces 9 bullet-shaped ice cubes in approximately 6-8 minutes.
- **High Capacity:** Capable of producing up to 26 pounds of ice in 24 hours.
- **Two Ice Cube Sizes:** Select between small (22x24mm) and large (25x26mm) bullet ice cubes.
- **Self-Cleaning Function:** Automated cleaning cycle for easy maintenance.
- **Quiet Operation:** Operates at a noise level below 35dB, comparable to a working refrigerator.
- **Portable Design:** Compact size (11.4"D x 8.7"W x 11.5"H) with a sturdy handle for easy transport.
- **Smart Indicators:** "Add Water" and "Ice Full" indicators alert you to refill water or empty the ice basket.

Less Wait Time

9pcs / 6-8mins

26 lbs ice

Ultra Low Noise 35db

You won't even notice it's on.

Figure 3: The ice maker operating with ultra-low noise (35dB), designed for minimal disturbance.

Mini in Size, Extra in Space

Figure 4: Compact dimensions of the ice maker (11.4"D x 8.7"W x 11.5"H) for easy placement.

Figure 5: Internal view of the ice maker, illustrating the metal cylinders where ice forms before being released into the basket.

3. SETUP

1. **Unpack:** Carefully remove the ice maker from its packaging. Remove all packing materials, tape, and any protective film.
2. **Placement:** Place the unit upright on a flat, stable surface. Ensure there is at least 4 inches (10 cm) of space around the unit for proper ventilation.
3. **Resting Period:** After transport, allow the ice maker to stand upright for at least 24 hours before plugging it in. This allows the refrigerant to settle.
4. **Initial Cleaning:** Before first use, clean the interior of the ice maker.
 - Remove the ice basket.
 - Clean the interior with a soft cloth and warm, soapy water.
 - Rinse thoroughly and drain any water from the reservoir.
 - Wipe dry with a clean cloth.
5. **Add Water:** Open the lid and pour potable water into the water reservoir. Do not exceed the MAX fill line.

Figure 6: Adding water to the ice maker's internal reservoir before operation.

4. OPERATING INSTRUCTIONS

1. **Plug In:** Connect the power cord to a grounded electrical outlet. The "POWER" indicator light will illuminate.
2. **Power On:** Press the "ON/OFF" button to start the ice making cycle.
3. **Select Ice Size:** Press the "SELECT" button to choose between small (S) or large (L) ice cubes. The corresponding indicator light will illuminate.

4. **Ice Production:** The ice maker will begin producing ice. The first batch may take slightly longer.
5. **Ice Full Indicator:** When the ice basket is full, the "ICE FULL" indicator light will turn on, and the unit will automatically pause ice production. Remove ice to resume.
6. **Add Water Indicator:** If the water reservoir is low, the "ADD WATER" indicator light will turn on, and the unit will pause. Add more water to resume.
7. **Power Off:** Press the "ON/OFF" button to stop the ice making cycle.

Figure 7: The intuitive control panel with "ON/OFF", "SELECT", and indicator lights for "ADD WATER", "ICE FULL", and "POWER".

Figure 8: Detailed view of the control panel, showing the various indicators and selection options.

5. MAINTENANCE

5.1 Self-Cleaning Function

The ice maker features a self-cleaning cycle to simplify maintenance:

1. Ensure the ice basket is empty and the water reservoir is filled with clean water.
2. Press and hold the "ON/OFF/CLEAN" button for 3 seconds to activate the self-cleaning mode.
3. The cleaning cycle will run for approximately 30 minutes.
4. Once complete, drain the water from the unit using the drain plug located at the bottom.
5. Rinse the interior with fresh water and drain again.

Self-cleaning Function

1 Press

30 Mins

Figure 9: The ice maker's self-cleaning function, activated with a single press and completing in 30 minutes.

5.2 Regular Cleaning

- Regularly wipe the exterior with a soft, damp cloth.
- Clean the ice basket and ice scoop with warm, soapy water.
- For thorough cleaning, periodically remove the drain plug to empty the water reservoir and clean it.
- Ensure all parts are dry before reassembling and using the ice maker.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
"ADD WATER" indicator is on.	Water reservoir is empty or low.	Add potable water to the reservoir up to the MAX fill line.
"ICE FULL" indicator is on.	Ice basket is full.	Remove ice from the basket. The unit will resume production.
Ice melts quickly.	Bullet ice has more surface area than traditional ice cubes, leading to faster melting. The unit is not a freezer.	Transfer produced ice to a freezer for long-term storage. Use ice promptly for beverages.
Unit is noisy.	Normal operation of compressor and fan.	Ensure proper ventilation. Noise levels are typically below 35dB. If noise is excessive, contact support.
Ice cubes are not solid.	Ambient temperature is too high or water is too warm.	Ensure the unit is in a cool environment. Use cold water for faster and firmer ice production.

7. SPECIFICATIONS

Feature	Detail
Brand	Totnz
Model Name	TZIM109B
Product Dimensions (D x W x H)	11.4" x 8.7" x 11.5"
Capacity	26 Pounds (ice production in 24 hours)
Wattage	160 watts
Voltage	115 Volts
Refrigerant	R600a
Material Type	Plastic
Included Components	Ice maker, Ice Scoop, Ice Basket, User manual
UPC	810181465853

8. WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the warranty card included with your product or visit the official Totnz website. Keep your purchase receipt as proof of purchase.
