Initial Charging

Before first use, it is recommended to fully charge your device. The Galaxy A16 5G supports Super Fast Charging. Use only Samsung-approved chargers and cables to prevent damage and ensure optimal charging speed. A 25W Super Fast Charger is sold separately.

SIM and MicroSD Card Installation

Locate the SIM tray on the side of your device. Insert the provided SIM tray ejector pin into the small hole next to the tray to open it. Place your Nano-SIM card(s) and/or a microSD card (sold separately, up to 1.5TB) into the tray with the gold contacts facing down. Gently push the tray back into the slot until it clicks into place.

Powering On/Off

To power on your device, press and hold the Side key until the Samsung logo appears. To power off, press and hold the Side key and Volume Down button simultaneously, then select 'Power off' from the menu. Alternatively, swipe down from the top of the screen to open the Quick Panel, tap the Power icon, and select 'Power off'.

OPERATING YOUR DEVICE

Display

The Galaxy A16 5G features a large 6.7-inch AMOLED display, providing crisp details and vivid colors for an immersive viewing experience. Whether browsing, streaming, or gaming, the screen is designed for clarity and smooth visuals.

**See all you need
on a bright screen**

MAINTENANCE

Durability and Water Resistance

The Galaxy A16 5G boasts an improved IP54 rating for water and dust resistance, offering protection against splashes of fresh water and limited dust ingress. While durable, it is not advised for beach or pool use and should not be submerged.

More durable than ever before

IP54

IP54 rating for water and dust resistance. Water resistance based on laboratory test conditions for exposure to splashes of fresh water. Not advised for beach or pool use. Dust resistance based on laboratory test conditions, with limited protection against dust ingress. Compared to previous models.

Figure 8: IP54 Water and Dust Resistance

Cleaning

To clean your device, gently wipe it with a soft, lint-free cloth. Avoid using harsh chemicals, abrasive materials, or compressed air, as these can damage the screen or finish. If necessary, slightly dampen the cloth with water.

Battery Care

To maximize battery lifespan, avoid extreme temperatures and do not let the battery completely drain frequently. Regular, partial charges are generally better than full discharge-recharge cycles. The 5000 mAh battery provides extended usage, and Super Fast Charging minimizes downtime.

Super charge your day with Super Fast Charging

25W Super Fast Charger sold separately. Super Fast Charging speed depends on battery level and other factors; use only Samsung-approved chargers and cables; do not use any worn or damaged chargers or cables; incompatible charger or cable can cause serious injuries or damage to your device.

Figure 9: Super Fast Charging

Storage Management

The Galaxy A16 5G comes with 128GB of internal storage, expandable up to 1.5TB with a microSD card. Regularly manage your files, photos, and videos to free up space and maintain optimal device performance. Utilize cloud storage services for backup and additional capacity.

Manage personal data with confidence
