# User Manual: wegear TW7 Wireless Earbuds

Model: wegear TW7

Brand: wegear

## PRODUCT OVERVIEW

The wegear TW7 Wireless Earbuds are designed to provide an immersive audio experience with advanced features such as Hybrid Active Noise Cancellation, clear call technology, and extended battery life. These earbuds are lightweight, water-resistant, and utilize the latest Bluetooth 5.4 for stable connectivity.

Image: wegear TW7 Wireless Earbuds shown inside their open charging case. The earbuds are black with a gold 'g' logo, and the case is also black with a small LED indicator light at the front.

## PACKAGE CONTENTS

Please verify that all items are present in your package:

- wegear TW7 Wireless Earbuds (Left and Right)
- Charging Case
- USB Charging Cable

- Silicone Ear Tips (Small, Medium, Large)
- User Manual

Image: Top view of the wegear TW7 earbud product box, made of brown cardboard, showing a line drawing of the earbuds and charging case.

## SETUP

### 1. Charging the Earbuds and Case

Before first use, fully charge the earbuds and the charging case. Connect the charging case to a USB power source using the provided USB cable. The indicator light on the case will show charging status.

- A full charge provides up to 8 hours of listening time for the earbuds (ANC off) and a total of 32 hours with the charging case.
- With ANC on, the total playtime is reduced to 28 hours.

**32h**

## 2. Pairing with a Device

1. Open the charging case. The earbuds will automatically enter pairing mode.
2. On your device (smartphone, laptop, tablet), enable Bluetooth.
3. Search for "wewear TW7" in the list of available Bluetooth devices.
4. Select "wewear TW7" to connect. Once connected, a voice prompt will confirm successful pairing.

The earbuds utilize Bluetooth 5.4 technology for a stable connection up to 40 feet.

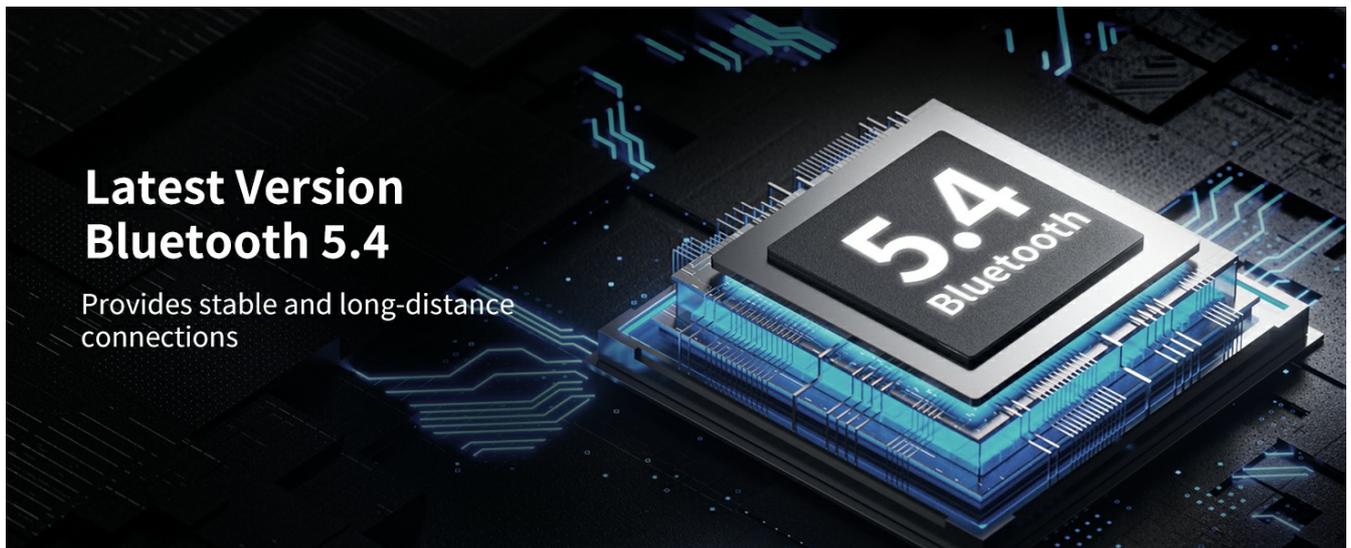

Image: A close-up of a microchip labeled "Bluetooth 5.4", representing the advanced connectivity technology used in the earbuds.

### 3. Choosing the Right Ear Tips

For optimal sound quality and comfort, select the ear tips that best fit your ears. The package includes Small (S), Medium (M), and Large (L) sizes.

- Try different sizes to find the most secure and comfortable fit.
- A good seal is crucial for effective noise cancellation and bass performance.

# Lightweight and Pressure-Free

3 Size Eartip  
for Your Choice

## OPERATING INSTRUCTIONS

### Touch Controls

The wegear TW7 earbuds feature intuitive touch controls on both the left (L) and right (R) earbuds. Functions may vary slightly depending on whether one or both earbuds are in use.

Image: A visual guide to the touch controls on the wegear TW7 earbuds. It shows that a double click on either earbud controls play/pause, answer/hang up calls. A triple click on the left earbud activates the voice assistant, while on the right earbud it skips to the next song. A 1.5-second long press on the left earbud activates low latency mode or rejects a call, and on the right earbud, it cycles through ANC ON/OFF/Transparent mode or rejects a call.

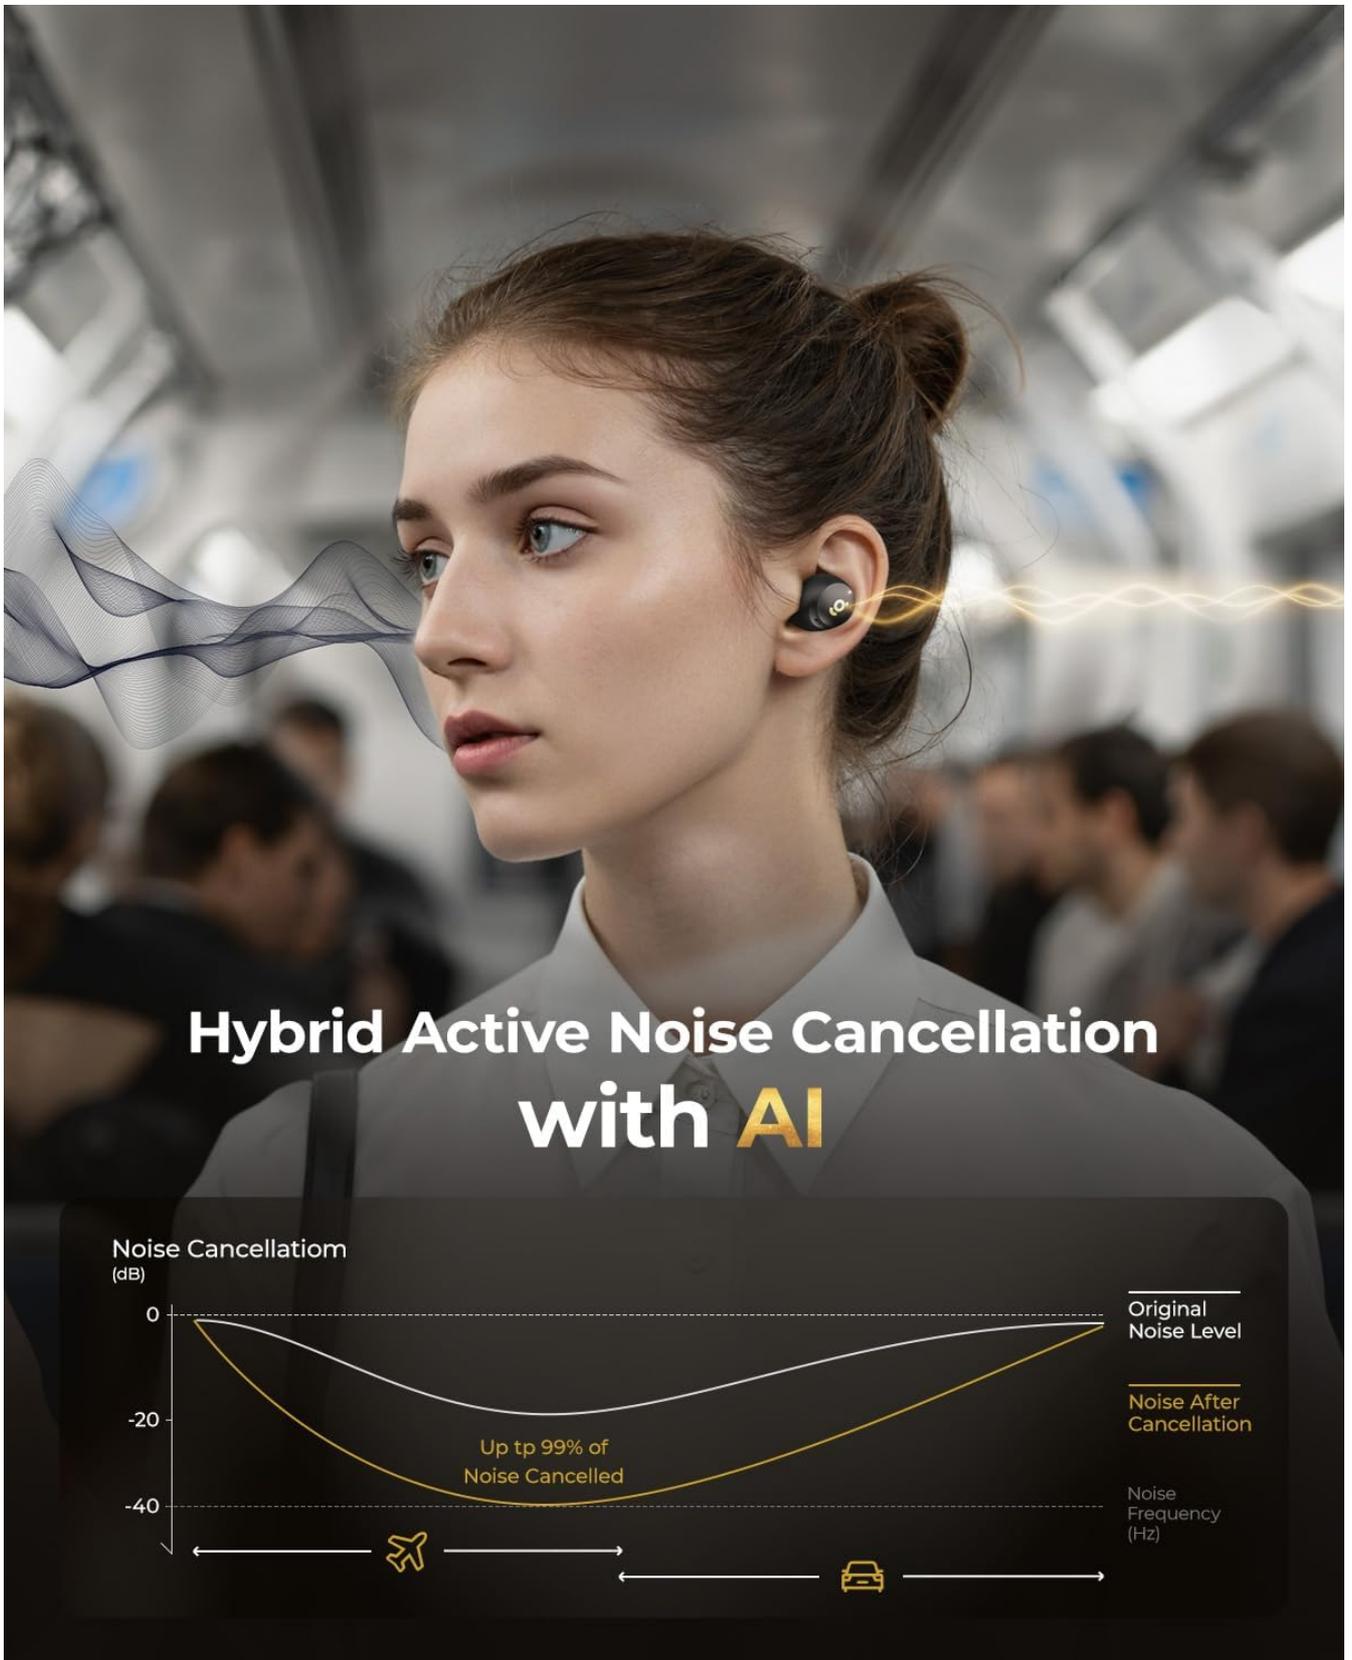

### wegear TW7 Touch Control Functions

Action	Left Earbud (L)	Right Earbud (R)
<b>Double Click</b>	Play / Pause, Answer / Hang Up Call	Play / Pause, Answer / Hang Up Call
<b>Triple Click</b>	Voice Assistant	Next Song
<b>Long Press (1.5s)</b>	Low Latency Mode, Reject Call	ANC ON / ANC OFF / Transparent Mode, Reject Call

*Note: Noise reduction modes (ANC/Transparent) cannot be used or switched when only one earbud is in use.*

### Active Noise Cancellation (ANC) and Transparency Mode

The wegear TW7 earbuds feature Hybrid Active Noise Cancellation, which effectively minimizes background sounds by combining internal and external microphones. This allows for a more focused listening experience.

# Hybrid Active Noise Cancellation with AI

Noise Cancellation (dB)

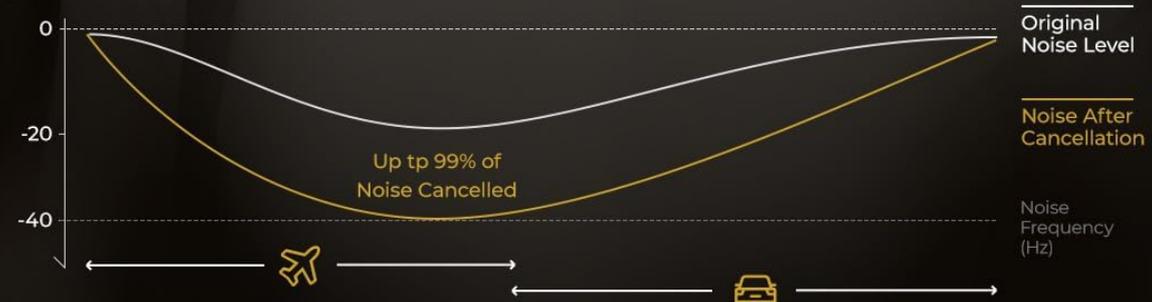

Image: A woman wearing the wegear TW7 earbuds in a busy environment, illustrating the Hybrid Active Noise Cancellation feature. A graph shows the reduction of noise level with ANC activated.

To switch between ANC ON, ANC OFF, and Transparency Mode, long press the right earbud for 1.5 seconds. Transparency Mode allows you to hear your surroundings clearly without removing the earbuds, which is useful for conversations or being aware of your environment.

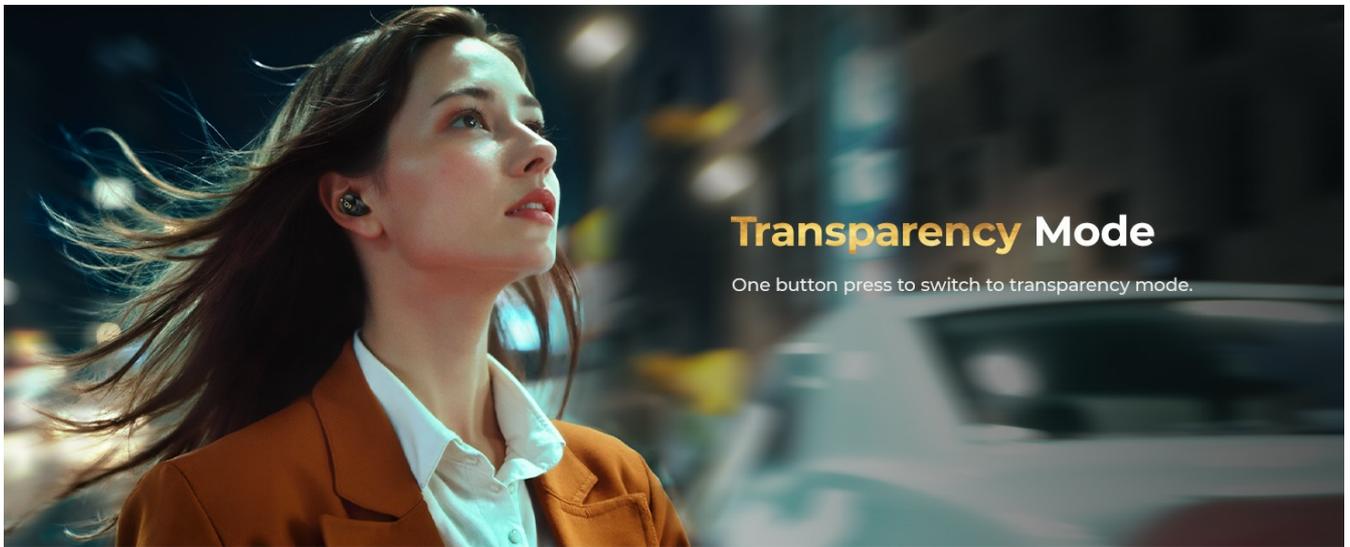

Image: A woman wearing wegear TW7 earbuds in an urban setting, demonstrating the Transparency Mode which allows ambient sounds to pass through.

## Making and Receiving Calls

The earbuds are equipped with 6 built-in microphones and AI algorithms to enhance call clarity, reducing background and wind noise for clearer conversations.

- **Answer/Hang Up Call:** Double click either earbud.
- **Reject Call:** Long press either earbud for 1.5 seconds.

# Capture every detail of every **call**

**6** Microphones and AI Algorithms Enhance Calls.

**6 Mic + AI**

Call Noise Cancellation

## **MAINTENANCE**

### **Cleaning Your Earbuds**

Regular cleaning helps maintain sound quality and hygiene.

- Gently wipe the earbuds and charging case with a soft, dry, lint-free cloth.
- Remove ear tips and clean them with mild soap and water, then dry thoroughly before reattaching.
- Use a dry cotton swab to clean the mesh and charging contacts, ensuring no debris accumulates.

## Water Resistance (IPX5)

The wegear TW7 earbuds are IPX5 water-resistant, meaning they are protected against sweat and light rain. They are not designed for submersion in water or for use during swimming.

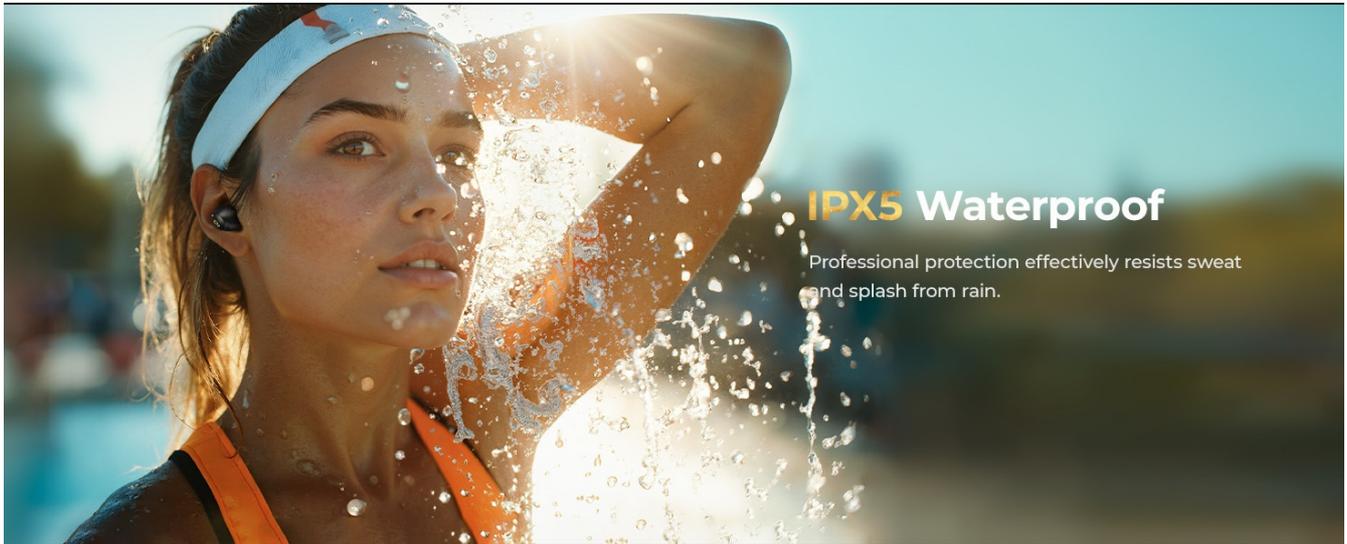

Image: A woman with water splashing on her face, wearing wegear TW7 earbuds, demonstrating their IPX5 water resistance against sweat and light rain.

- Avoid exposing the charging case to water, as it is not water-resistant.
- If earbuds get wet, wipe them dry before placing them back in the charging case.

## TROUBLESHOOTING

### Common Issues and Solutions

Problem	Possible Cause	Solution
<b>Earbuds not pairing / Only one earbud working</b>	Not in pairing mode, low battery, interference, earbuds not synced.	Ensure both earbuds are charged. Place both earbuds back in the case, close it, then open it again to re-enter pairing mode. Forget "wewear TW7" from your device's Bluetooth list and try pairing again.
<b>Poor sound quality / Low volume</b>	Improper fit, dirty ear tips/mesh, low battery, audio source issue.	Adjust earbuds for a secure fit and try different ear tip sizes. Clean ear tips and earbud mesh. Ensure earbuds are fully charged. Check the volume on both your device and the earbuds.

Problem	Possible Cause	Solution
<b>ANC not effective</b>	Improper fit, ear tips not sealing, environmental noise too high.	Ensure a tight seal with the correct ear tip size. Verify ANC is activated (long press right earbud).
<b>Earbuds not charging</b>	Dirty charging contacts, faulty cable/charger, case battery empty.	Clean the charging contacts on both earbuds and case. Try a different USB cable and power adapter. Ensure the charging case itself has power.

If issues persist, please refer to the wegear support website or contact customer service.

## SPECIFICATIONS

### wegear TW7 Earbuds Technical Specifications

Feature	Detail
<b>Model Name</b>	TW7
<b>Brand</b>	wegear
<b>Connectivity Technology</b>	Wireless (Bluetooth 5.4)
