4. SETUP AND ASSEMBLY

The Iron Man MK22 figure comes pre-assembled. Minor assembly involves attaching accessories and positioning the figure on its stand.

1. **Attaching Hands:** Gently pull off the existing hands and carefully push the desired replacement hands onto the wrist joints. Ensure a secure fit without forcing.
2. **Attaching Flame Effects:** The flame effects can be attached to the figure's hands and feet to simulate flight or repulsor blasts. Align the pegs on the flame effects with the corresponding holes on the figure's limbs.

3. **Using the Display Stand:** The themed display stand provides stability for dynamic poses. Assemble the stand components if necessary, then attach the figure to the stand's adjustable arm.
4. **Arm Missiles:** These accessories can be attached to designated points on the figure's arms.

5. OPERATING AND POSING

The Iron Man MK22 figure features multiple points of articulation, allowing for a wide range of poses. Exercise care when adjusting joints to prevent damage.

- **Joint Movement:** Gently manipulate the joints at the neck, shoulders, elbows, wrists, torso, hips, knees, and ankles to achieve desired poses. Avoid excessive force.
- **Dynamic Poses:** Utilize the display stand for airborne or action-oriented poses. The flame effects enhance the visual impact of flight or combat stances.

6. MAINTENANCE

Proper care will ensure the longevity and appearance of your action figure.

- **Cleaning:** Dust the figure regularly with a soft, dry cloth or a soft brush. For stubborn dirt, lightly dampen a cloth with water and gently wipe the surface, then dry immediately. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the figure away from direct sunlight, extreme temperatures, and high humidity to prevent discoloration or material degradation. Keep it in a dust-free environment.
- **Handling:** Always handle the figure by its main body parts. Avoid gripping small, delicate accessories or thin joint areas with excessive force.

7. TROUBLESHOOTING

Most issues with action figures are related to posing or minor assembly.

- **Stiff Joints:** If a joint is stiff, gently warm the area with a hairdryer on a low setting for a few seconds (do not overheat) to make the plastic more pliable, then carefully attempt to move the joint.
- **Loose Joints:** For slightly loose joints, a small amount of clear nail polish or a specialized joint-tightening fluid can be applied to the joint peg and allowed to dry.
- **Accessories Not Fitting:** Ensure accessories are aligned correctly with their respective attachment points. Do not force them. If a peg is slightly too large, very carefully trim a tiny amount with a hobby knife.
