No Cords, No Limits

place it anywhere, indoors or outdoors, enjoy security surveillance for up to 60 days on a single charge.

The camera's wireless design allows for versatile placement without cords or limits.

4. SETUP

Setting up your ieGeek S3 camera is a straightforward process. Follow these steps to get your camera operational:

- 1. Charge the Camera:** Before first use, fully charge the camera using the provided charging cable.
- 2. Download the App:** Download the "ieGeek Cam" mobile application from your device's app store (available on Google Play and Apple App Store).
- 3. Register/Log In:** Open the app and create an account or log in if you already have one.
- 4. Add Device:** Follow the in-app instructions to add your new camera. Ensure your mobile device is connected to a 2.4GHz Wi-Fi network, as the camera only supports 2.4GHz Wi-Fi.
- 5. Mount the Camera:** Choose a suitable location for mounting. Use the bracket screw pack and installation sticker for secure wall mounting. Ensure the camera has a clear line of sight to the area you wish to monitor.

Protection in just 3 Steps

Protection in just 3 steps: Wire-Free Installation, APP Easy Setup, and All-day Protection.

5. OPERATING INSTRUCTIONS

Your ieGeek S3 camera offers a range of features for effective surveillance and interaction.

5.1. Remote Control and Pan Rotation

Control your camera remotely using the "ieGeek Cam" app. The camera features a 1800 horizontal pan rotation, allowing you to adjust the viewing angle directly from your smartphone. This helps cover a wider area without physical repositioning.

Infinite Views with 180° Pan

See Wider, More Details

The camera provides infinite views with its 1800 pan capability, allowing you to see wider and more details.

Control the 1800 pan rotation directly from the mobile application.

5.2. AI Motion Detection and Alerts

The camera utilizes advanced AI algorithms to intelligently distinguish between persons, vehicles, packages, and pets, reducing false alarms. Upon detection, you will receive instant notifications on your phone. The camera can also activate a siren and bright spotlights to deter intruders.

Motion-activated Lights & Alerts

Unseen, Yet Ever Vigilant

See clearly, day or night, with 3MP crystal night vision, offering 4X digital zoom and a 33ft night vision range.

Cover More Wide Range

Experience superior clarity with 2K HD video, capturing every detail.

5.4. Two-Way Audio

Communicate with visitors or deter unwanted guests using the camera's clear two-way audio feature. You can listen and talk through the camera via the app in real-time.

Two-way Audio

Listen and Talk Together

Engage in two-way audio communication, allowing you to listen and talk together.

Smart-Device Compatibility

Sync your home security with ieGeek APP and smartwatch. Enjoy a more intelligent and adaptive home that responds to your needs in real time.

Enjoy real-time interaction with high-quality sound, bridging distances instantly.

5.5. Wi-Fi 6 Connectivity

The camera supports Wi-Fi 6 technology, providing faster and more reliable 2K image transmission, reduced interference, and stronger cybersecurity. It is compatible with 2.4GHz Wi-Fi networks.

Subscription-Free Storage

Access Footage Anytime

TF Card (up 128GB)

Cloud Storage

Experience Wi-Fi 6 next-level connectivity: 3X faster than Wi-Fi 5, 30% latency reduction, and WPA3 encryption protocol.

5.6. Storage Options

The ieGeek S3 camera offers flexible storage solutions. It supports local storage via a TF card (up to 128GB) and provides basic cloud storage for short video clips without monthly fees. Premium cloud storage options are available if desired.

Works with Alexa

Easy Voice Control

"Alexa, show me the patio"

Enjoy subscription-free storage with options for TF card (up to 128GB) and cloud storage.

Customizable 1-10 Level Detection Sensitivity

Flexibly set the sensitivity to reduce false alarms and extend the battery life of wifi security camera.

Benefit from lifetime security with no hidden fees for basic cloud storage.

5.7. Smart Device Compatibility

The camera works with Alexa, allowing for voice control commands. You can also sync your home security with the ieGeek APP and smartwatches for real-time monitoring and control.

This video highlights the camera's features, including its easy installation, clear video quality, night vision, and 180-degree rotation.

6. MAINTENANCE

To ensure optimal performance and longevity of your ieGeek S3 camera, follow these maintenance guidelines:

- **Battery Charging:** The camera has a built-in rechargeable battery that lasts 30-60 days on a single charge. Recharge the battery when indicated by the app. A charging adapter is required (not included).
- **Cleaning:** Periodically clean the camera lens and body with a soft, dry cloth to remove dust and smudges. Avoid using harsh chemicals or abrasive materials.
- **Weather Protection:** The camera has an IP65 rating, making it resistant to harsh weather conditions. However, avoid submerging it in water or exposing it to extreme temperatures outside its operating range.
- **Firmware Updates:** Regularly check the "ieGeek Cam" app for available firmware updates to ensure your camera has the latest features and security enhancements.

7. TROUBLESHOOTING

If you encounter issues with your ieGeek S3 camera, refer to the following common troubleshooting tips:

- **Camera Offline:** Ensure the camera is charged and within range of your 2.4GHz Wi-Fi network. Check your router's internet connection. Restarting the camera and your router may resolve connectivity issues.
- **Poor Video Quality:** Verify your Wi-Fi signal strength in the app. Move the camera closer to the router if the signal is weak. Ensure the lens is clean and free from obstructions.
- **No Motion Alerts:** Check the motion detection settings in the "ieGeek Cam" app. Ensure detection zones are correctly configured and sensitivity is set appropriately. Verify app notifications are enabled on your phone.
- **Two-Way Audio Issues:** Ensure your phone's microphone and speaker are enabled for the app. Check the camera's microphone and speaker for any physical obstructions.
- **Battery Drains Quickly:** Frequent motion detections, live view streaming, and strong Wi-Fi signals can affect battery life. Adjust detection sensitivity and reduce live view usage if possible. Consider connecting to a solar panel for continuous charging.

For more detailed troubleshooting or persistent issues, please refer to the support section within the "ieGeek Cam" app or contact ieGeek customer support.
