Slevoo C2-M25 PPC

Slevoo PPC Replacement Filter for C2-M25 Reverse Osmosis Water Filter Countertop User Manual

Model: C2-M25 PPC | Brand: Slevoo

Introduction

This manual provides essential information for the proper installation, operation, and maintenance of your Slevoo PPC Replacement Filter cartridge, designed specifically for the Slevoo C2-M25 Reverse Osmosis Water Filter Countertop system. Please read these instructions carefully before use to ensure optimal performance and longevity of your filter.

Important Safety Information

- Always ensure the main water supply to the filtration system is turned off before attempting any filter replacement.
- Use only genuine Slevoo replacement filters for your C2-M25 system to ensure compatibility and performance.
- Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.
- Keep the filter cartridge out of reach of children.
- Dispose of used filters according to local regulations.

Product Overview

The Slevoo PPC Replacement Filter (Model C2-M25 PPC) is a crucial component of your Slevoo C2-M25 Reverse Osmosis Water Filter Countertop system. It is designed to effectively remove lead and chlorine, providing cleaner, better-tasting water.

Key Features:

- **Material:** Polypropylene (PP)
- **Product Dimensions:** Approximately 2.68 inches (D) x 2.68 inches (W) x 10.83 inches (H)
- **Filter Lifespan:** Up to 12 months, depending on water quality and usage.
- **Benefits:** Removes lead and chlorine for improved water quality.

Installation and Replacement

Follow these steps to replace the PPC filter in your Slevoo C2-M25 Reverse Osmosis Water Filter Countertop system:

1. **Prepare the System:** Ensure the Slevoo C2-M25 countertop unit is turned off and unplugged from the power outlet. Turn off the water supply to the unit if applicable.
2. **Access Filter Compartment:** Open the filter compartment cover on your Slevoo C2-M25 system. Refer to your main system's manual for specific instructions on opening the compartment.
3. **Remove Old Filter:** Gently twist the old PPC filter cartridge counter-clockwise to unlock it, then pull it downwards and out of the system. Dispose of the used filter responsibly.
4. **Install New Filter:** Unpack the new Slevoo PPC Replacement Filter. Align the new filter with the designated slot (usually marked '1' or 'PPC') in the system. Push the filter upwards and then twist it clockwise until it locks securely into place.

5. **Close Compartment and Flush:** Close the filter compartment cover. Plug in and turn on your Slevoo C2-M25 system. Flush the new filter by dispensing several liters of water (refer to your main system manual for specific flushing instructions) to remove any carbon fines and air from the new filter.
6. **Reset Filter Life Indicator:** If your system has a filter life indicator, reset it according to the instructions in your Slevoo C2-M25 system manual.

Maintenance

Regular maintenance ensures the continued effectiveness of your water filtration system.

- **Filter Replacement Schedule:** The Slevoo PPC Replacement Filter has a recommended lifespan of**6 to 12 months**. This duration can vary based on local water quality and daily water consumption. It is crucial to replace the filter within this timeframe to maintain optimal filtration performance.

- **Monitoring Filter Life:** Your Slevoo C2-M25 system may have an electronic indicator to alert you when a filter change is due. Pay attention to this indicator or track the replacement date manually.
- **Water Quality:** If you notice a decrease in water flow, a change in taste, or an unusual odor before the recommended replacement period, it may indicate that the filter needs to be replaced sooner.

Troubleshooting

If you encounter issues with your Slevoo C2-M25 system after replacing the PPC filter, consider the following:

- **Low Water Flow:**
  - Ensure the new filter is fully seated and locked into place.
  - Check if the system requires flushing after filter replacement to remove trapped air.
  - Verify that the main water supply to the unit is fully open.

- **Unusual Taste or Odor:**
  - Ensure the filter has been adequately flushed as per the installation instructions.
  - Confirm that the correct filter type (PPC) has been installed.
  - If the issue persists, the filter may be defective or the water source may have unusual contaminants.
- **Leaking:**
  - Check that the filter is correctly installed and securely twisted into its housing.
  - Inspect the O-rings or seals on the filter and in the system for any damage or misalignment.

For persistent issues not resolved by these steps, please contact Slevoo customer support.

Specifications

Feature	Detail
