

## Baseus Stick-on Type Bike

# Baseus Prime Trip Series Bike Phone Holder User Manual

Model: Stick-on Type Bike

Brand: Baseus

## INTRODUCTION

The Baseus Prime Trip Series Bike Phone Holder is designed to provide a secure and convenient way to mount your smartphone on your bicycle, scooter, or motorcycle. Its robust design ensures stability across various terrains, while its quick installation and 360-degree rotation features enhance user experience. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your device.

## SETUP INSTRUCTIONS

Follow these steps to properly install your Baseus Prime Trip Series Bike Phone Holder:

- Prepare the Mounting Surface:** Ensure the handlebar or desired mounting surface on your bike is clean, dry, and free of grease or dust. This will ensure optimal adhesion for the stick-on base.
- Attach the Adhesive Base:** Peel off the protective film from the adhesive backing of the bike mount. Carefully position the mount on the chosen surface and press firmly for at least 30 seconds. Allow the adhesive to cure for 24 hours before attaching your phone for maximum strength.

Image: Close-up of the adhesive base and locking mechanism.

3. **Attach the Phone Adapter to your Phone:** The phone holder comes with a separate adapter that adheres to the back of your smartphone or phone case. Clean the back of your phone/case thoroughly. Peel off the protective film from the phone adapter and firmly press it onto the center of your phone/case. Allow it to cure for 24 hours.
4. **Mounting Your Phone:** Once both adhesive parts are cured, align the phone (with its adapter) with the bike mount. The patented snap-on design allows for effortless attachment. Simply press the phone onto the mount until you hear a click, indicating it is securely locked. To unlock, press the release button located on the mount and slide the phone off.

## Patented Snap-on Design

Effortless setup with just a press, easy and convenient.

5. **Dual-Use Functionality:** The phone adapter can also be used as a ring stand when detached from the bike mount, providing versatility for various situations.

## Dual-Use: Bike Mount and Ring Stand

Install the stick-on mount to use it as a bike mount, or remove it to use as a ring stand. Suitable for various situations.

## OPERATING INSTRUCTIONS

Once installed, operating your Baseus Prime Trip Series Bike Phone Holder is straightforward:

- **Adjusting Viewing Angle:** The holder supports 360-degree rotation. Simply rotate your phone to achieve the desired portrait or landscape viewing angle for navigation, call management, or capturing moments.

## Capture Beautiful Moments on the Road

## MAINTENANCE

To ensure the longevity and optimal performance of your phone holder, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the holder regularly with a soft, damp cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive materials that could damage the surface or adhesive.
- **Adhesive Check:** Periodically inspect the adhesive bond of both the bike mount and the phone adapter. If the bond appears to weaken, consider replacing the adhesive or the mount.
- **Storage:** When not in use for extended periods, store the phone holder in a cool, dry place away from direct sunlight and extreme temperatures.

## TROUBLESHOOTING

If you encounter any issues with your Baseus Prime Trip Series Bike Phone Holder, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Phone wobbles or feels insecure.	Improper attachment; adhesive weakening; mount not fully clicked in.	Ensure the phone adapter is fully clicked into the bike mount. Re-clean and re-apply adhesive if necessary, allowing 24 hours for curing.
Mount detaches from bike surface.	Surface not clean before application; insufficient curing time; extreme temperature exposure.	Clean the surface thoroughly with alcohol and allow to dry completely. Re-apply the mount with new adhesive if possible, ensuring 24 hours of curing time. Avoid extreme temperatures.
Phone adapter detaches from phone/case.	Phone/case surface not clean; insufficient curing time; incompatible phone case material.	Ensure phone/case surface is clean and dry. Re-apply adapter with new adhesive, allowing 24 hours curing. Some textured or silicone cases may not be suitable for adhesive mounts.

## SPECIFICATIONS

Feature	Detail
Brand	Baseus
