To enhance stability and prevent tipping, especially if you have children or pets, it is highly recommended to secure the dressing table to a wall using the provided anti-tip hardware.

1. Position the dressing table in its desired location.
2. Mark the wall where the anti-tip brackets will be attached, aligning with the pre-drilled holes on the back of the dressing table.
3. Drill pilot holes in the wall (use appropriate drill bit for your wall type, e.g., drywall anchors for plasterboard).
4. Secure the wall brackets to the wall.
5. Attach the straps or cables from the dressing table to the wall brackets, ensuring they are taut.
