3.5 Connecting Your Frame to the App

Open the Frameo app on your mobile device. On your digital photo frame, navigate to the 'Add Friend' section to obtain a unique code. Enter this code into the Frameo app on your smartphone to establish a connection. This allows you to send photos and videos directly to your frame.

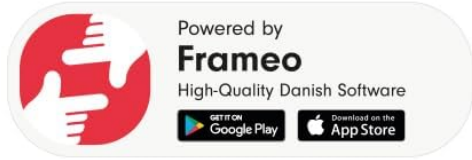

4. OPERATING INSTRUCTIONS

4.1 Sending Photos and Videos

Use the Frameo app to select photos and videos from your mobile device. You can select multiple items at once. Before sending, you can adjust the cropping of photos and add captions to provide context for your memories. The Frameo app supports multi-user connections, allowing multiple individuals to send media to the same frame. All transfers are end-to-end encrypted for privacy.

4.2 Managing Photos and Albums

On the frame's touch screen, you can organize your received photos and videos into custom albums. This feature helps categorize your memories. You can then select specific albums to play in a slideshow, or choose to display all photos.

4.3 Slideshow Functionality

The frame automatically plays a slideshow of your uploaded media. You can customize slideshow settings such as transition effects and display duration through the frame's settings menu. The frame supports adaptable auto-rotation, adjusting the display orientation based on how the frame is positioned.

5. MAINTENANCE

5.1 Cleaning the Frame

To clean the screen, gently wipe it with a soft, lint-free cloth. For stubborn marks, slightly dampen the cloth with water or a screen-safe cleaning solution. Avoid using harsh chemicals or abrasive materials. Clean the frame's body with a dry, soft cloth.

5.2 Software Updates

The frame may receive periodic software updates to improve performance and add new features. Ensure your frame is connected to Wi-Fi to receive these updates. You can check for updates manually in the frame's settings menu.

6. TROUBLESHOOTING

6.1 Frame Not Powering On

- Ensure the power adapter is securely connected to both the frame and a working power outlet.
- Try a different power outlet to rule out an issue with the current outlet.

6.2 Unable to Connect to Wi-Fi

- Verify that your Wi-Fi network is active and within range.
- Double-check the Wi-Fi password for accuracy.
- Restart your Wi-Fi router and the digital photo frame.

6.3 Photos Not Appearing on Frame

- Confirm the frame is connected to Wi-Fi.
- Ensure the Frameo app on your smartphone is connected to the correct frame.
- Check the Frameo app for any error messages during the sending process.
- Verify that the frame has sufficient storage space.

6.4 Touch Screen Unresponsive

- Restart the frame by unplugging and re-plugging the power adapter.
- Ensure the screen is clean and free of debris.
