

Mama Store ERA113BINO

User Manual for Mama Store Under-Sink Column Base Cabinet

Model: ERA113BINO | Brand: Mama Store

1. INTRODUCTION

This manual provides essential information for the safe and proper use, installation, and maintenance of your Mama Store Under-Sink Column Base Cabinet, Model ERA113BINO. Please read this manual thoroughly before using the product and keep it for future reference.

2. SAFETY INFORMATION

Your safety is paramount. Please adhere to the following guidelines:

- **Installation Surface:** Furniture must be installed on horizontal surfaces. Avoid impacts during installation and use. Positioning on uneven surfaces can cause tension, leading to deformation and failure of closing mechanisms. Such failures are not considered manufacturing defects.
- **Liquid and Heat Exposure:** Do not place wet or hot objects directly on the furniture surfaces. In case of contact with water or other substances, immediately clean with soft, absorbent, slightly damp textile materials.
- **Environment:** Install the cabinet in well-ventilated rooms, away from direct sunlight and water contact. This furniture is not designed for outdoor installation. Avoid direct contact with water.
- **Humidity:** The cabinet is designed to withstand normal humidity (steam, accidental splashes). Permanent exposure to high humidity will cause deterioration (swelling), which is not covered by warranty.
- **Heat Sources:** Position the cabinet away from heat sources (e.g., radiators), maintaining a minimum distance of 30 cm.
- **Cleaning:** For general cleaning, wipe surfaces with a soft, slightly damp cloth. Do not use abrasive cleaners, harsh chemicals, or aggressive products. For grease or liquid marks, use a dry cloth immediately.
- **Tipping Hazard:** In case of overturning or falling, the furniture can cause serious, even fatal, injuries. To prevent this risk, the cabinet **must be adequately fixed to the wall**
- **Wall Fixing Materials:** The fixing methods depend on your wall type and resistance. Any fixing materials (e.g., dowels, hooks, screws) included are for indicative purposes only. They must be correctly verified and possibly replaced as appropriate for your specific wall. We recommend consulting specialized personnel for selecting the correct accessories.

3. PRODUCT OVERVIEW

The Mama Store ERA Under-Sink Column Base Cabinet is designed for bathroom spaces, featuring a modern and elegant design. It includes two doors and two drawers for storage.

Figure 3.1: Front view of the Mama Store Under-Sink Column Base Cabinet. This image displays the cabinet's overall appearance, highlighting its two doors and two drawers, and the cut-out for the sink column.

Figure 3.2: The cabinet shown with a sink installed, demonstrating the functionality of its storage compartments. One drawer is partially open, revealing interior space, and one door is open, showing the internal shelf and the column cut-out.

4. SETUP AND INSTALLATION

This Mama Store cabinet arrives **fully assembled**, simplifying the setup process. No complex assembly steps are required.

4.1 Unpacking

1. Carefully remove the cabinet from its packaging.
2. Inspect the cabinet for any signs of damage during transit. If damage is found, contact your retailer immediately.
3. Retain packaging materials until you are satisfied with the product.

4.2 Positioning and Wall Fixing

As per safety guidelines, proper positioning and wall fixing are crucial.

- Choose a horizontal and stable surface for placement.
- Ensure the location is well-ventilated and away from direct sunlight or excessive moisture.
- **Securely fix the cabinet to the wall** to prevent tipping. The cabinet is equipped with rear wheels at the base, allowing for easy movement by lifting it from the ground. However, for permanent stability and safety, wall fixing is mandatory.
- Consult a professional for wall fixing if you are unsure about the appropriate hardware for your wall type.

Figure 4.1: Dimensional view of the cabinet, indicating its width (70 cm), depth (46 cm), and height (62 cm). This helps in planning the installation space.

Figure 4.2: The cabinet integrated into a typical bathroom environment, showcasing its aesthetic appeal and how it fits under a sink. This image provides a visual context for the product's intended use.

5. OPERATING INSTRUCTIONS

The cabinet is designed for straightforward operation and storage.

5.1 Doors and Drawers

- The cabinet features two doors with metal hinges and two comfortable drawers.
- To open a door, gently pull the handle. To close, push until it is flush with the cabinet frame.
- To open a drawer, pull the handle outwards. To close, push firmly until it is fully recessed.
- Avoid forcing doors or drawers if they feel stiff. Check for obstructions.

5.2 Storage Capacity

- Utilize the internal compartments for storing bathroom essentials.
- Distribute weight evenly within drawers and on shelves to maintain stability.

6. MAINTENANCE AND CARE

Proper maintenance will ensure the longevity and appearance of your cabinet.

- **Cleaning:** For general cleaning, wipe surfaces with a soft, slightly damp cloth. Do not use abrasive cleaners, harsh chemicals, or aggressive products. For grease or liquid marks, use a dry cloth immediately.
- **Moisture Control:** Promptly wipe away any water splashes or spills to prevent moisture damage. Avoid prolonged exposure to high humidity.
- **Inspection:** Periodically check hinges and drawer slides for smooth operation. Ensure wall fixings remain secure.

7. TROUBLESHOOTING

This section addresses common issues you might encounter.

Problem	Possible Cause	Solution
Doors/Drawers do not close properly or are stiff.	Obstruction in the mechanism. Cabinet not on a horizontal surface, causing tension. Hinges/slides require adjustment or lubrication.	Check for and remove any objects blocking the movement. Ensure the cabinet is placed on a perfectly level surface. Adjust if necessary. Inspect hinges and slides for damage or misalignment. Consult a professional if adjustment is needed.
Cabinet appears unstable or wobbly.	Not properly fixed to the wall. Uneven floor surface.	Immediately secure the cabinet to the wall using appropriate hardware for your wall type. Adjust cabinet leveling feet (if present) or place shims under the base to stabilize.
Surface swelling or discoloration.	Prolonged exposure to high humidity or direct water contact. Placement near heat sources.	Ensure proper ventilation in the room. Wipe away any moisture immediately. Relocate the cabinet away from heat sources (minimum 30 cm). Note: Damage from excessive humidity is not covered by warranty.

8. SPECIFICATIONS

Feature	Detail
Model Number	ERA113BINO
Dimensions (L x D x H)	70 cm x 46 cm x 62 cm
Weight	30 kg
