JVC Nearphones HA-NP1T Open Ear True Wireless Headphones User Manual

Model: HANP1T

[Overview](#) [Setup](#) [Operating](#) [Introduction](#) [What's in the Box](#) [Product](#) [Maintenance](#) [Troubleshooting](#) [Specifications](#) [Warranty & Support](#)

1. INTRODUCTION

This manual provides instructions for the safe and effective use of your JVC Nearphones HA-NP1T Open Ear True Wireless Headphones. These headphones are designed to deliver audio while allowing you to remain aware of your surroundings, offering a blend of sound immersion and environmental awareness. Please read this manual thoroughly before using the product and retain it for future reference.

2. WHAT'S IN THE Box

Verify that all items are present in the package:

- JVC Nearphones HA-NP1T Headphones (Left and Right earbuds)
- Charging Case
- USB-C Charge Cable

3. PRODUCT OVERVIEW

3.1 Key Features

- **Open-Ear Design:** Allows ambient sound to be heard for situational awareness.
- **Comfortable and Secure Fit:** Ear-clip design rests gently on the outer ear.
- **Bluetooth 5.3:** Provides stable and efficient wireless connectivity.
- **Multipoint Connection:** Connects to two devices simultaneously.
- **Extended Playback:** Up to 8 hours on a single charge, with an additional 16 hours from the charging

case (total 24 hours).

- **IPX4 Water Resistant:** Protected against splashing water from any direction.
- **Built-in Microphone:** For hands-free calling.
- **Low Latency Mode:** Reduces audio delay for improved gaming and video synchronization.
- **App Compatible:** Customize settings via the JVC Mobile App.

3.2 Components

The JVC Nearphones HA-NP1T consist of two earbuds and a charging case. Each earbud features a control button and a microphone. The charging case includes a USB-C port for charging and LED indicators for battery status.

Image: The JVC Nearphones HA-NP1T earbuds placed inside their open charging case, showing the charging contacts and the compact design.

4. SETUP

4.1 Charging the Headphones

1. Place both earbuds into the charging case. Ensure they are correctly seated.
2. Connect the USB-C charge cable to the charging port on the case and the other end to a USB power source (e.g., computer, USB wall adapter).
3. The LED indicators on the charging case will show the charging status. A full charge typically takes approximately 2 hours.

4. Once fully charged, disconnect the cable. The earbuds will charge automatically when placed in the case, provided the case has power.

Extended Battery Life

**Enjoy up to 8 hours of continuous playback on a single charge,
plus an extra 16 hours from the compact charging case.**

Image: A man wearing JVC Nearphones HA-NP1T while using a laptop and phone, illustrating the extended battery life feature.

4.2 Initial Pairing

1. Open the charging case. The earbuds will automatically power on and enter pairing mode. The LED indicator on one earbud will flash white and red.
2. On your device (smartphone, tablet, etc.), enable Bluetooth.
3. Search for "JVC HA-NP1T" in the list of available Bluetooth devices and select it to connect.
4. Once connected, the LED indicator on the earbud will stop flashing.

4.3 JVC Mobile App Installation

For enhanced functionality and customization, download the JVC Headphones app:

- Scan the QR code provided in the product packaging or search for "JVC Headphones" on the Apple App Store (for iOS devices) or Google Play Store (for Android devices).
- Install the app and follow the on-screen instructions to connect your HA-NP1T headphones.

Download the Mobile App

Tune In, Customize, and Connect:

Unlock the full potential of your headphones with the JVC Mobile App.

 Download on the App Store

 GET IT ON Google Play

Note on Volume:

Open-ear earbuds are designed for situational awareness. Volume levels may not be as loud as in-ear earbuds.

5. OPERATING THE HEADPHONES

5.1 Wearing the Headphones

The HA-NP1T Nearphones feature an ear-clip design. Gently place the earbuds onto your outer ear, ensuring the speaker portion is positioned correctly for optimal sound delivery while maintaining awareness of your surroundings.

Lightweight - Secure Fit

Adaptable Design
to fit your ear

Hugs your ears snugly
weighing just 4.85g
per ear

Image: A man wearing a JVC Nearphone HA-NP1T earbud, illustrating how the adaptable design fits securely and comfortably on the ear, weighing only 4.85g per ear.

5.2 Basic Controls

Each earbud has a physical button for control. Functions may vary slightly depending on whether you are using one or both earbuds, and the specific device connected.

Action	Button Press	Function
Power On	Open charging case	Earbuds power on automatically
Power Off	Place in charging case and close lid	Earbuds power off automatically
Play/Pause	Single press (either earbud)	Plays or pauses audio
Next Track	Double press (right earbud)	Skips to the next song
Previous Track	Triple press (left earbud)	Skips to the previous song
Answer/End Call	Single press (either earbud)	Manages phone calls
Reject Call	Press and hold (either earbud)	Declines incoming call

Action	Button Press	Function
Activate Voice Assistant	Press and hold (either earbud)	Activates Siri, Google Assistant, etc.

5.3 Multipoint Connection

The HA-NP1T supports connecting to two Bluetooth devices simultaneously. This allows you to seamlessly switch between audio sources, for example, from music on your laptop to a call on your smartphone.

1. Pair the headphones with your first device (Device A) as described in Section 4.2.
2. Disconnect the headphones from Device A (or turn off Bluetooth on Device A).
3. Pair the headphones with your second device (Device B).
4. Reconnect the headphones to Device A via its Bluetooth settings.
5. The headphones are now connected to both devices. Audio will play from the active device.

Connect Without Compromise

Multitask With Multipoint
Connect to two Bluetooth devices simultaneously

Single Ear Freedom
Stay connected. Use either earbud solo for calls or music

Instantly Connect
Auto power-on and connect as soon as you open the case

Image: A man interacting with his smartphone, illustrating the seamless connectivity features of the JVC Nearphones HA-NP1T, including the ability to multitask with multipoint connections, use a single earbud, and instantly connect upon opening the case.

5.4 Single Earbud Use

You can use either the left or right earbud independently. Simply take one earbud out of the case, and it will automatically connect to the last paired device. The other earbud can remain in the case or be used later.

5.5 Low Latency Mode

Activate Low Latency Mode via the JVC Mobile App for reduced audio delay, which is beneficial for gaming or watching videos to ensure better synchronization between audio and visuals.

6. MAINTENANCE

6.1 Cleaning

- Wipe the earbuds and charging case with a soft, dry cloth.
- Do not use abrasive cleaners, alcohol, or chemical solvents.
- Ensure charging contacts on both earbuds and case are clean and dry.

6.2 Storage

- Store the headphones in their charging case when not in use to protect them and keep them charged.
- Avoid storing in extreme temperatures or high humidity.

6.3 Battery Care

- To prolong battery life, charge the headphones regularly, even if not used frequently.
- Avoid fully discharging the battery for extended periods.

7. TROUBLESHOOTING

If you encounter issues with your JVC Nearphones HA-NP1T, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No power	Earbuds or case battery is depleted	Charge the earbuds and charging case fully.
Cannot pair with device	Bluetooth is off, earbuds not in pairing mode, or device too far	Ensure Bluetooth is enabled on your device. Place earbuds in case, close, then open to re-enter pairing mode. Move device closer to earbuds.
No sound	Volume too low, not connected, or incorrect audio output selected	Increase volume on both headphones and device. Verify connection in Bluetooth settings. Check device's audio output settings.
Sound is intermittent or distorted	Interference, distance, or low battery	Move closer to your device. Avoid areas with strong Wi-Fi or other Bluetooth signals. Charge earbuds.
One earbud has no sound	Earbud not connected or low battery	Place both earbuds in the charging case, close the lid, then open it again. Ensure both earbuds are charged.

Problem	Possible Cause	Solution
Low volume (Open-ear design characteristic)	Open-ear design allows ambient sound, which can make audio seem quieter in noisy environments.	This is an inherent characteristic of open-ear headphones. For louder audio, ensure you are in a quieter environment or adjust volume to maximum via the JVC app.

8. SPECIFICATIONS

Feature	Detail
Model Name	NEARPHONES Ear-Cuffs (HA-NP1T)
Connectivity Technology	Wireless (Bluetooth)
Bluetooth Version	5.3
Bluetooth Range	Up to 10 meters (33 feet)
Frequency Response	20 Hz - 20,000 Hz
Impedance	16 Ohm
