JVC HANP1T

JVC Nearphones Open Ear True Wireless Headphones

Model: HANP1T

INTRODUCTION

The JVC Nearphones HA-NP1T are innovative open-ear true wireless headphones designed to provide a unique listening experience that blends your audio with environmental awareness. Featuring Bluetooth 5.3 for stable connectivity, IPX4 water resistance, and a comfortable ear-cuff design, these headphones are ideal for various activities while keeping you connected to your surroundings.

WHAT'S IN THE BOX

- JVC Nearphones (HA-NP1T)
- Charging Case
- USB-C Charging Cable

The JVC Nearphones and their compact charging case.

SETUP

1. Charging the Nearphones

Before first use, fully charge the Nearphones and their charging case. Connect the supplied USB-C cable to the charging port on the case and a USB power source. The indicator lights on the case will show the charging status. A full charge provides up to 8 hours of playback, with an additional 16 hours from the charging case.

Extended Battery Life

Enjoy up to 8 hours of continuous playback on a single charge, plus an extra 16 hours from the compact charging case.

Enjoy extended listening with up to 24 hours of total battery life.

2. Pairing with Your Device

1. Open the charging case. The Nearphones will automatically enter pairing mode.
2. On your device (smartphone, tablet, laptop), enable Bluetooth and search for available devices.
3. Select 'JVC HA-NP1T' from the list to connect. A voice prompt will confirm successful pairing.

The Nearphones support Bluetooth 5.3 for a stable connection and multipoint device connection, allowing seamless switching between two connected devices.

Connect Without Compromise

Multitask With Multipoint

Connect to two Bluetooth devices simultaneously

Single Ear Freedom

Stay connected. Use either earbud solo for calls or music

Instantly Connect

Auto power-on and connect as soon as you open the case

Connect without compromise: Multipoint connectivity and single ear freedom.

3. Wearing the Nearphones

The JVC Nearphones feature an ear-cuff design that rests gently on the outer ear, providing comfort and situational awareness. To wear them:

1. Pick up an earbud and gently widen the ear-cuff opening.
2. Position the earbud on your ear, hooking the cuff over the ear canal.
3. Adjust for a secure and comfortable fit. The flexible design adapts to your ear shape.

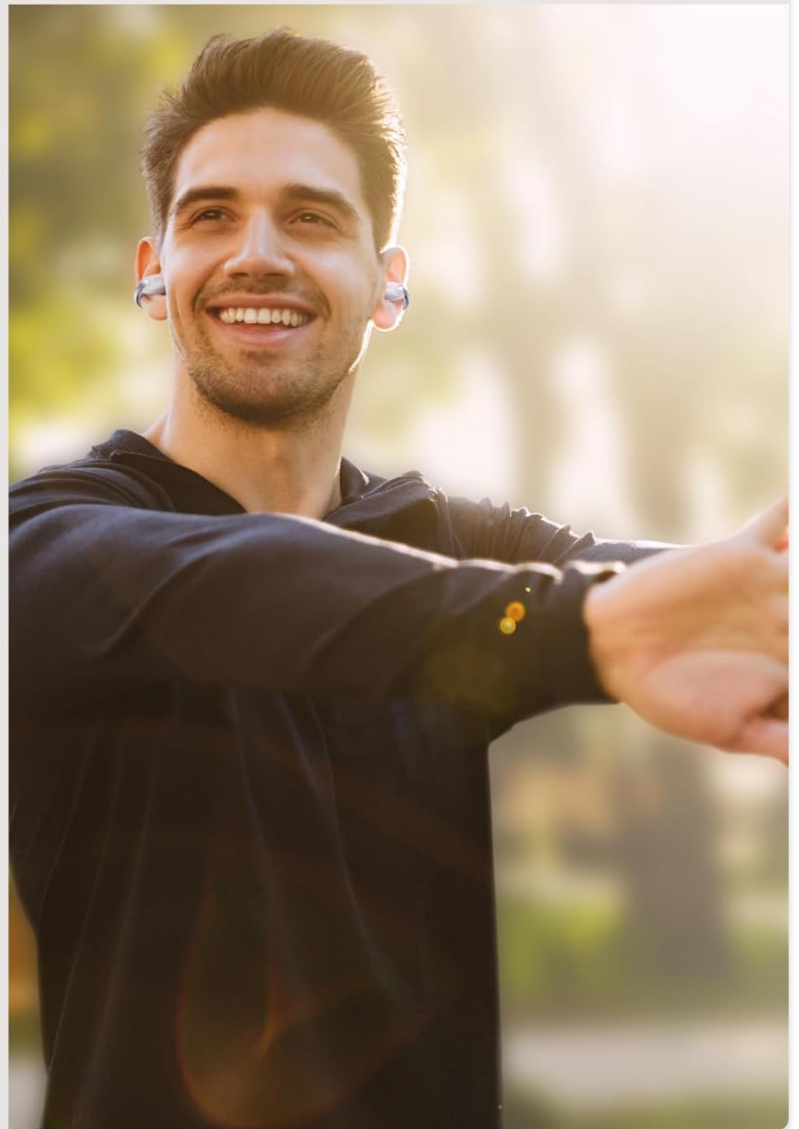

Demonstration on how to properly wear the JVC Nearphones for optimal comfort and sound.

Lightweight - Secure Fit

**Adaptable Design
to fit your ear**

**Hugs your ears snugly
weighing just 4.85g
per ear**

The lightweight design ensures a secure fit for active lifestyles.

OPERATING INSTRUCTIONS

Controls

The Nearphones feature button controls for various functions. Refer to the quick start guide included with your product for detailed button assignments. You can also customize controls via the JVC Mobile App.

Sound and Awareness

The open-ear design allows you to hear your audio while remaining aware of your surroundings. This is beneficial for safety in outdoor environments or for staying engaged in conversations. Due to this design, the maximum volume may not be as loud as traditional in-ear earbuds.

Listen to Your World

Open-Ear design blends your music with the world around you—perfect for staying safe and aware

Open-Ear Design for Comfort and Awareness

The open-ear design allows you to listen to your audio while remaining aware of your surroundings.

All-Day Comfort, All-Day Awareness

The Open-Ear design lets you enjoy clear sound without tuning out the world around you. Not as loud as in-ear buds so you stay connected and aware.

Experience all-day comfort and awareness with the JVC Nearphones.

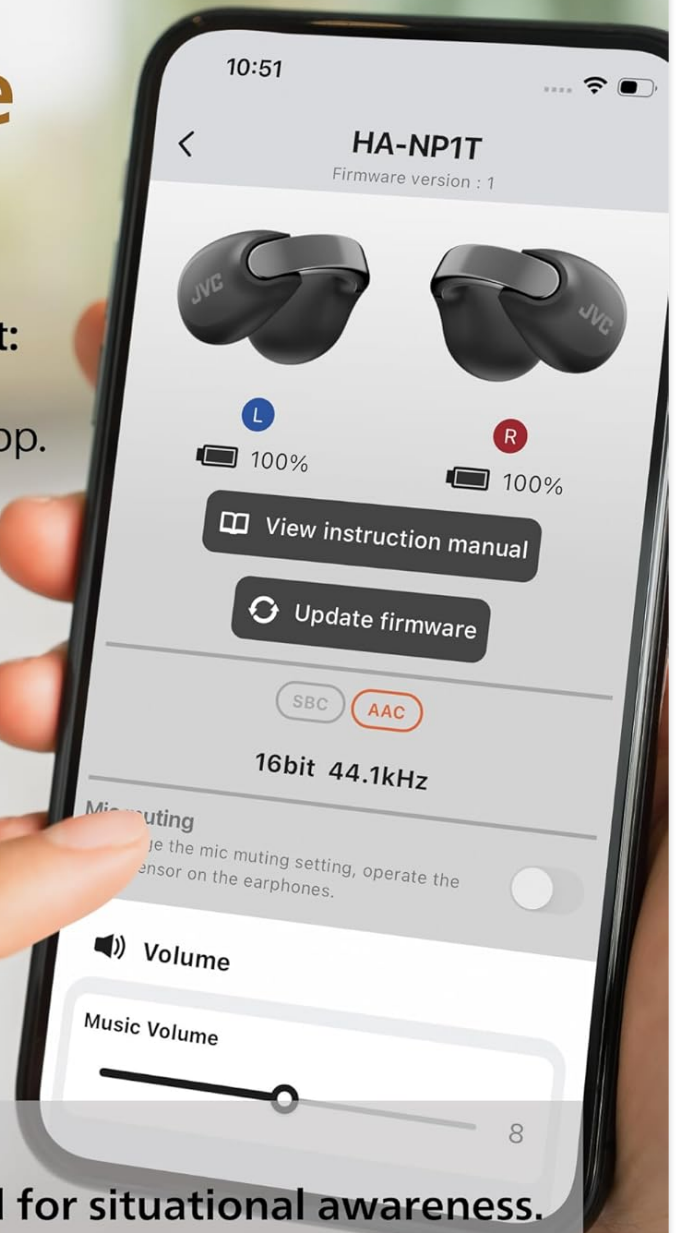

Mobile App

Download the JVC Headphones Mobile App to unlock the full potential of your Nearphones. The app allows for firmware updates and customization of button functions. Note that the app primarily focuses on control customization and may not include advanced audio features like a full equalizer.

Download the Mobile App

Tune In, Customize, and Connect:

JVC Headphones

Note on Volume:

Open-ear earbuds are designed for situational awareness. Volume levels may not be as loud as in-ear earbuds.

Download the JVC Mobile App for customization and firmware updates.

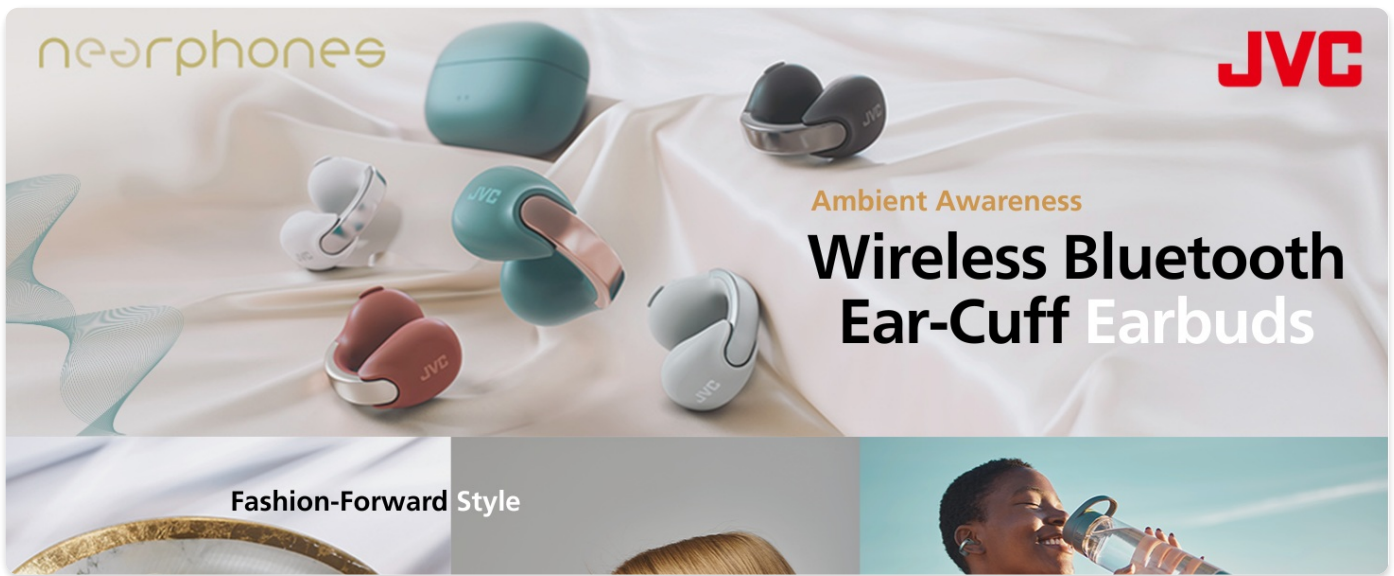

MAINTENANCE

Cleaning

Regularly clean your Nearphones with a soft, dry cloth. For minor dirt or sweat, a slightly damp cloth can be used. Ensure the earbuds are completely dry before placing them back in the charging case. Avoid using harsh chemicals or abrasive materials.

Water Resistance

The Nearphones are IPX4 water resistant, meaning they are protected against splashing water from any direction. This makes them suitable for workouts and light rain. They are not designed for submersion in water.

IPX4 water resistance makes the Nearphones suitable for active use.

Storage

When not in use, store the Nearphones in their charging case to protect them and ensure they are charged for your next use. Store in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound or low volume	Earbuds not properly seated; device volume too low; not connected.	Adjust earbuds for best position; increase device volume; ensure proper Bluetooth connection. Note that open-ear design means volume may not be as high as in-ear models.
Earbuds not pairing	Out of range; low battery; pairing mode not active.	Ensure earbuds are charged and within range; place earbuds in case and open lid to re-enter pairing mode; restart device.
Discomfort during wear	Improper fit.	Adjust the ear-cuff gently to find the most comfortable and secure position on your outer ear. The design is flexible to accommodate different ear shapes.
Button controls not responding	Temporary software glitch; incorrect button assignment.	Restart earbuds by placing them in the case and closing/opening the lid; check JVC Mobile App for customized button settings.
