7. TROUBLESHOOTING

If you encounter issues with your vanity desk, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lights do not turn on.	Power cord unplugged; bulb loose or faulty; control panel issue.	Ensure power cord is securely plugged in. Check if bulbs are screwed in tightly. If problem persists, contact customer support.
Charging station not working.	Power cord unplugged; device not compatible; faulty outlet.	Verify the charging station's power cord is plugged into a live outlet. Test with another device. Ensure your device is compatible with 5V/2A USB or 125V/12A AC.
Drawers stick or do not slide smoothly.	Improper assembly of drawer slides; obstruction; loose hardware.	Review assembly instructions for drawer slides. Check for any objects obstructing the slides. Ensure all screws on slides are tightened.
Desk feels wobbly.	Loose assembly hardware; uneven floor.	Tighten all assembly screws and bolts. Place the desk on a level surface or use shims if the floor is uneven. Consider using wall anchors for added stability.
