5. Operating Instructions

5.1. Lighting System

The integrated mirror features an adjustable lighting system with three color modes and customizable brightness to suit your needs for makeup application, hairstyling, or skincare.

- **Power On/Off:** Locate the touch sensor on the mirror surface to turn the lights on or off.
- **Change Color Mode:** Short press the touch sensor to cycle through the three color modes: Warm Yellow, Warm White, and Cold White.
- **Adjust Brightness:** Long press the touch sensor to adjust the brightness level (0-100%) within the selected color mode. Release when desired brightness is achieved.

5.2. Storage Features

The vanity desk offers diverse storage solutions to keep your cosmetics, skincare products, and accessories organized.

- **Glass Tabletop:** The visible glass tabletop allows you to easily locate and access frequently used items stored beneath.
- **Drawers:** Utilize the two spacious drawers for storing various items, keeping your desktop tidy.
- **Side Cabinet:** The side cabinet features adjustable shelves, providing flexible storage for larger items or additional organization.

6. Maintenance

- **Cleaning the Surface:** Wipe the wood and glass surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Mirror Care:** Use a glass cleaner specifically designed for mirrors to clean the mirror surface. Spray cleaner onto a cloth, not directly onto the mirror, to prevent liquid from seeping into the electrical components.
- **Electrical Components:** Ensure the power adapter and cables are free from damage. Do not attempt to repair the lighting system yourself; contact qualified personnel if issues arise.
- **General Care:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary.

7. Troubleshooting

- **Lights Not Turning On:**

- Check if the power adapter is securely plugged into both the vanity and a working power outlet.
- Ensure the power switch (if any) is in the 'On' position.
- Verify that the touch sensor is clean and unobstructed.

- **Lights Flickering or Dim:**
  - Confirm the power adapter is providing stable power.
  - Try adjusting the brightness level using the long press function.

- **Drawers Sticking:**
  - Ensure the drawer slides are properly aligned and free of debris.
  - Do not overload the drawers.
